WILL FIGHT THE APPROPRIATION

HARRY PARKINSON OF PORTLAND WITH A LARGELY SIGNED PETITION, IS BUCKING THE STATE UNIVERSITY.

PORTLAND, May 15.—With 5000 names on the referendum petition against the half million dollar appropriation for the University of Oregon granted by the last legislature, Harry J. Parkinson has gone to Salem to file the petition with the secretary of state. He stated that a second petition containing 3000 names will be filed soon.

Before departing, Parkinson reiterated the assertion he made that President Campbell of the University of Oregon, offered him \$10,000 to destroy the petitions in his hands. This was denied by Campbell at Eugene Saturday afternoon.

Parkinson has been handling the petition in behalf of persons residing at Cottage Grove and McMinville who were not in favor of granting the university the sum which was appropriated.

TURTLE IS NOT AN ANIMAL, HE HOLDS

BOSTON, May 15.—Although a turtle was declared by a Harvard University expert to be more nearly related to a bird than to a fish, and to possess a highly-developed nervous system, capable of memory, intelligence and lovable tendencies, Judge Stevens, in the Superior Court recently instructed a jury to bring in a verdict of not guilty in the case of John H. Weiner, a restaurant proprietor, who was charged with cruelty to animals in keeping a 160-pound green sea turtle on its back in a window last summer. Weiner had been fined \$25 in the Municipal Court and appealed.

The defense contended that the charge of cruelty to animals would not hold, on the ground that a turtle was not an animal, but a fish.

Prof. Robert Yerkes of Harvard, witness for the government, declared there was a difference of opinion about the cruelty of the act, but admitted the necessity of either placing a turtle on its back or in water, if it was to be kept alive.

Newest Mineral in Demand

COLORADO SPRINGS, May 15.—Natrambygonite, the world's newest mineral, which was discovered on the Royal Gorge high drive by Prof. Waldemar T. Schelliar of the United States Geological Survey during a recent visit, is in demand by universities, museums and scientists generally where at present its only value is that of a curiosity. It is a soda amblygonite, or a hydrofluo-phosphate of alumina and soda, with the soda in part replaced by lithia, according to exhaustive tests made at Washington.

The new mineral is found in combination with tourmaline, muscovite, feldspar and quartz. Its specific gravity is 3.04; hardness, 5.55; luster, vitreous; color, grayish-white, while under the microscope it is translucent.

So far as known at the United

States Geological Survey the mineral is not found anywhere else. It is believed to have value in the arts and interest awaits discovery as to its use.

GERMAN PRESS OBJECTS OF RECIPROCIITY TREATY

BERLIN, May 15.—The German newspapers continue their protests against the pending reciprocity agreement between the United States and Canada because of the injury it will cause to Germany's trade. They claim that the United States must grant Germany the same privileges it proposes to give to Canada. This, it is claimed, was expressly stipulated in a note from Washington in February, 1910. At that time the American contention that this clause did not apply to concessions made by third parties was abandoned, during the negotiations of 1910.

It is now pointed out that when this agreement was made Germany expressly reserved to the Federal Council the right to withdraw the concessions granted in case the United States discriminated against Germany, which it is alleged it intends doing now in the Canadian reciprocity agreement. No official action has been taken by the German Government, but the intention to arrive at an understanding with Canada and obviate the results of the reciprocity agreement between that country and the United States is deduced from the fact that the government will send Count Von Koerber and Dr. Hamann to Canada in June, ostensibly to study economics, but in reality to sound the authorities of the Dominion as to the chances for converting the present commercial truce into permanent peace.

These letters," he said "afford all necessary evidence that the real object of this proposed union is a strike, Mr. Thornton urges business men to think of the effects of a strike of railway postal clerks of the Northwest and then asks them to urge the necessity of legislation upon members of Congress. The object is not only to coerce the department, but to intimidate Congress itself, notwithstanding the unrighteousness of the cause of the clerks."

"Do you deny the right of clerks to strike?" asked Representative Wilson of Pennsylvania.

"I do," Stewart replied. "They have a right to resign, but not to strike."

President Samuel Gompers and Secretary Frank Morrison of the American Federation of Labor were present at the meeting. They explained that the federation had declined to issue a charter to the Railway Postal Clerks as not a sufficient number of locals had been formed to justify affiliation at this time.

"Prohibited from petitioning Congress themselves," said Mr. Stewart, "these employes propose to enlist the aid of American Federation of Labor, so that they can do indirectly what they can not accomplish directly."

Asked if he thought this improper the second assistant postmaster general replied affirmatively. The service is in peril of a general strike, he said, if the clerks are allowed to organize.

Mrs. L. M. Davis returned last evening from Long Beach, Calif., whither she had gone three months ago. Accompanying her were Elizabeth and James, the children of Horace Manning, of this city, and a little daughter of Ala Vinson of Langell Valley. In company with the party was a Mr. Harris of Los Angeles, who is a property owner in the city.

YAKIMA SANDY LOAM is considered to be the best soil in the valley, and we now have the exclusive sale of some of the very best farms in the heart of the valley. It will pay you to investigate.

100 acres, 3 miles from station; all under ditch and improved. The price is \$80 per acre, and the terms are right. Will sell 50 acres at the same price.

50 acres on Lost River, 70 acres in alfalfa; well improved; all under the ditch; deep soil and excellent drainage into Lost River. Price, \$90 an acre; reasonable terms. A farm with an income in sight.

100 acres of sage brush land on Lost River; 50 acres will come under ditch; fair houses and outbuildings; good soil, good drainage and excellent range for stock. Price \$40 per acre, one-third cash.

100 acres ten miles from Falls; 60 acres under ditch; cleared and fenced. Price \$40 per acre if taken soon; only \$2,000 cash.

11 acres just 1 1/2 miles from Falls, on good road; 4-room house, barn and outbuildings. Ideal place for chickens, fruit and vegetables. Look at this and then ask the price and terms.

Some desirable 5 and 10 acre tracts close in.

A WALKOUT HAS BEEN PLANNED

POSTOFFICE OFFICIAL SAYS A BIG STRIKE WILL FOLLO THE ORGANIZATION OF POSTAL EMPLOYEES.

Special to The Herald.

WASHINGTON, May 15.—The American Federation of labor is taking a part in the fight between the postal service employes and the department, according to the testimony of Second Assistant Postmaster General Stewart before the House Committee on Reform in the Civil Service. Mr. Stewart, who is a Missourian, was emphatic in opposition to the bill introduced by Representative Lloyd of Missouri, which would permit government employes to form unions and affiliate with the Federation of Labor. He declared the unions, particularly those of railway mail clerks, would "coerce the department, destroy good administration and intimidate Congress."

He declared the executive orders signed by President Roosevelt and Taft, which forbid clerks to petition congress to be "wise and necessary."

The second assistant postmaster general then read to the committee extracts from letters written by Organizer Thornton of Minneapolis, following the latter's discharge from the service, in which Thornton urged commercial clubs and business men to take up the cause of clerks with members of Congress.

"These letters," he said "afford all necessary evidence that the real object of this proposed union is a strike, Mr. Thornton urges business men to think of the effects of a strike of railway postal clerks of the Northwest and then asks them to urge the necessity of legislation upon members of Congress. The object is not only to coerce the department, but to intimidate Congress itself, notwithstanding the unrighteousness of the cause of the clerks."

"Do you deny the right of clerks to strike?" asked Representative Wilson of Pennsylvania.

"I do," Stewart replied. "They have a right to resign, but not to strike."

President Samuel Gompers and Secretary Frank Morrison of the American Federation of Labor were present at the meeting. They explained that the federation had declined to issue a charter to the Railway Postal Clerks as not a sufficient number of locals had been formed to justify affiliation at this time.
