## BIDS OF THE CITY COUNCIL

(Continued from Page 1)

on south half of lots 1 and 2, block 19. First addition.

Wishard Bros. & Dale, frame building on lots 1 and 2, block 74, Klamath addition, to be used as skating rink, pavilion, etc.

Alex Martin Jr., automobile garage on lot 5, block 18.

Z. J. Powell, permission to change front of 425 Main street.

Elmer L. French, one-story bungalow on lots 12A and 12B, block 4, Railroad addition.

Bids for the work of paving Klamath avenue and the intersecting streets which are to be paved with bitulithic were opened, and the bid of the Warren Construction company was found to be the lowest. Their price per yard for bitulithic was \$2.20 a square yard, while the George C. Clark company made a price of \$2.27. The Warren Construction company also made an offer to the city to maintain the pavement of Klamath avenue in good repair for the next five years at a cost of 2 cents per yard a year. Upon motion of Castel the bid of the Warren Construction company was accepted, and the mayor and police judge were instructed to enter into a contract with the company.

There was some discussion as to how much bitumen should be used as a binder for the crushed rock, and the question of how many blocks on a street could be kept closed. Mr. McGuire, for the paving company, stated that it was impossible for them to make any headway with their work if only two blocks were closed at a time, but he stated that they would keep the streets open as much as possible.

C. H. Withrow is desirous of throwing the four-foot parking along the Withrow-Melrose building on Fourth street into the street, as the building is back five feet from the property line. The council was in favor of this, and Mayor Sanderson will take the matter up with the county court to get them to do the same thing, thus making the street ten feet wider than it is at present.

The ordinance declaring for the improvement of Klamath avenue and the intersecting streets was up for second reading. The cost of the improvement is placed at \$81,296.70. As there were not enough councilmen present to pass the measure, a special meeting will be held at 5:15 this afternoon for that purpose.

The report of the special committee appointed to view and prepare the third unit of the sewer system was introduced and signed by the members of the council.

Some of the rock that is being taken off of Main street is to be placed on Conger avenue, to improve that street.

A. Castel, E. J. DuFaut, E. J. Powell and Arthur Livermore were granted liquor license renewals for six months, and J. Kost Ballard for three months. J. A. Uerling made application for a license to conduct a saloon

## COLLIER'S COMEDY IN THE HILL TONIGHT

The Melrose company presented last night the strong drama, "Paid in Full" before a well filled house. Every member of the company was excellent. Miss Cunningham as the young wife was splendid, and Mr. Dillon's rendition of "Joe" showed careful study in his role. Mr. Chapman as "Jimmy" was fine, and he has the grace and poise of a finished actor. Mr. Howie as "Captain Williams" showed cleverness in his part. Miss Melrose as the mother of the young wife is a very clever character woman and played her part in a painstaking manner. She invoked much laughter in her comedy scenes.

"The Man from Mexico," Willie Collier's great success, will be presented by the company tonight. This is a comedy full of fun throughout, and in the hands of the Melrose company it receives most excellent treatment, and is staged in truly artist-manner.

## WORK STARTED ON THE BOX FACTORY AT DORRIS

Under the direction of O. E. Moore a number of men and several teams are busily engaged in doing the necessary grading for the box factory spur track, and this part of the work will be completed in a few days. A large pit is being excavated, over which the main building will be erected. As fast as the dirt is taken from the pit it is being used for grading the spur, making an excellent roadbed. The Wino & Maxwell mill on Tuesday started sawing the lumber and the construction of the buildings, and as fast as it is sawed it will be immediately hauled to the mill site.—Dorris Booster.

## THEY ARE PRINTING FOR THEIR HEALTH

WHITE SALMON, May 16.—The lowest known bid for county printing was that of the Goldendale Independent, at one billionth part of one billionth part of one per cent per square inch.

Last year one of the other papers in Goldendale took the county printing at one thousandth part of one cent.

The inauguration of this, one of the most important features of the Roman commemoration, was performed by the King of Italy, who was accompanied by the Queen, and attended by all the ministers and many of the court officials, ambassadors and others.

Professor Lanciani, to whose efforts are owed the restoration of the baths of Diocletian, made an interesting speech relating to the work, after which the king went round the exhibition. The German crown prince and princess left Rome for Vienna the following day.
