The insurgents at Jaurez are restless. They are deploring the present inactivity. The action of the American customs officials in permitting ammunition and arms to cross the border is criticized on account of the fact that these will be used against the American troops if America intervenes.

Madero is awaiting news from the capital regarding the Diaz resignation, which will be the signal for him to depart for the capital.

Hines in his talk, said: "I absolutely deny the charges. I am innocent of these wrongful acts. I have no apology to make for my conduct as an individual or as an officer of this association. SUICIDE FAILURE WITH ROPE, DRUG, FILE, RAZOR

DENVER, May 24.—Three times within as many hours, and for the fourth time in a week, Warren Cross, a carpenter, 50 years old, tried to take his life.

He is at the county hospital where, it is said, he will recover. Cross slashed his wrists with a razor, soon after drank a quantity of liniment he supposed was poisonous, and then stabbed himself with a file.

A week ago he attempted to hang himself in the city jail, but was cut down before he had succeeded in taking his life. Despondency over the fact that his wife had commenced suit for divorce against him is given as the reason for Cross' disinclination to live.

DID HE CONFESS?

NO DEFINITE STATEMENT IN REGARD TO THIS CAN BE MADE, AS NO ONE WILL CONFIRM THE REPORT

United Press Service. LOS ANGELES, May 24.—Connors was taken before the grand jury today. Despite the fact that he is said to have confessed, no one can be found who will say the report is true.

Deputy District Attorney Horton, who did the quizzing, will not say.

That Connors could not have possibly have taken any part in the wrecking of the Times building was proved, as he was jailed from September 9th to October 28th, and the Times building was wrecked during the first of October.

The fact that Connors and Parks were six hours before the grand jury and Ortle McManigal only thirty minutes, makes the interested laborites believe that McManigal made no confession.

Mrs. Ella Musgrave, who, it is alleged, was preparing to accompany Connors to Seattle when arrested, will be quizzed this afternoon.

The government has no use for this power, but the settlers believe in time it may be essential for pumping water on to high lands, and if sold now to some private party may not be available.

Kuykendall Investigating Case of Murderous Mexican Carver

District Attorney D. V. Kuykendall, assisted by Chief of Police Townsend, is today making an investigation into the carving affair of yesterday afternoon, when J. Vidalis and Juan Peres were slashed up by Nisalo Verreo, who wielded a butcher knife.

The particulars of the cause of the case are hard to get, but Kuykendall is working like a Trojan. The cause of the melee is said to have been a game of cards at the Mexican tent on Klamath avenue, near Seventh street, and a few too many joints of meecal, or some other com-

pound, under the belt of Verreo, who is considered somewhat of a bad man by members of the colony. Without any apparent cause Verreo is said to have ordered his two companions from the tent, and as they seemed to want to reason the matter with him, he attacked them with a butcher knife in lieu of a stiletto. Before they could see to safety, Vidalis was gashed deeply in the neck and the left cheek of Peres was slashed. The authorities were notified, and the assailant was landed in the county jail. His hearing has not yet been set.
