Confidence Begots Credit and Credit Will Build a Home

This may sound far fetched, but it is as true as gospel. The people who today own their own homes in this town years ago showed their confidence in our community by investing their savings here. Their small investment created more credit for them and it was not long before their credit was enough to enable them to build a home. The same opportunities exist today for the man who is willing to start—home investments are always looked upon with more favor by our financial institutions than investments in some far off corner of the globe, and if you are thinking of starting a home we want to talk things over with you and give you some idea about what you will need in the lumber line. Our stock is complete.

CARE WITH ICE NOW A FEATURE

SOUTHERN PACIFIC INTRODUCES LATEST SANITARY METHODS OF GETTING CONGEALED SUBSTANCE INTO COOLERS

If you happen to be traveling over any part of the Pacific system of the Southern Pacific company, and if you notice as your train pulls into a station a man attired in a white duck suit, white cap and rubber gloves, do not get the impression that he is a health inspector and that your train is liable to be delayed until he has completed an inspection, nor need you fear that the train may possibly be quarantined. That is not his duty. He is a man who fills the ice receptacles on the Southern Pacific dining and passenger coaches, and he is following the latest sanitary measures that have been adopted by the corporation.

This new feature in the icing of passenger trains was inaugurated by H. V. Platt, general superintendent of the southern district of the Southern Pacific company, and was first tried out on the Los Angeles division. At each point where trains are loaded the ice is handled in absolutely clean carts, lined with galvanized iron or zinc, and the interior is scalded twice daily with steam. The ice is handled by employes dressed in white duck suits and caps and rubber gloves, all of which are furnished by the company. Employes are required, sufficiently in advance of arrival of the trains, to prepare themselves for the handling of the ice. The ice, however, is handled with rubber gloves, and from the time of its manufacture until the time it reaches the receptacle in the cars it is protected against contamination.

This new mode of handling the ice for the passenger cars of the company, tried out on the Los Angeles division, has proved so successful that it has been ordered installed on all the lines of the Pacific system. The carts are covered with canvas at all times, and are fully protected from flying particles of dirt.

A Word With Women

Valuable Advice for Klamath Falls Readers

Many a woman endures with noble patience the daily misery of backache, pains about the hips, blue, nervous spells, hopeless of relief because she doesn't know what is the matter. It is not true that every pain in the back or hips is trouble "peculiar to the sex." When the kidneys get congested and inflamed, there are many such aches and pains, and the whole body suffers. You can tell it is kidney trouble if the secretions are dark colored, contain sediment; the passages are too frequent or scanty; then help the weakened kidneys. They can't get well alone. Doan's Kidney Pills have brought sound backs and new life and strength to thousands of suffering women. They are endorsed right in this locality. Read this woman's convincing statement.

Mrs. F. W. Longwill, 322 West J street, Grants Pass, Ore., says: "Doan's Kidney Pills have been used in my family with excellent results. I know what this remedy will do in cases of kidney trouble, and can therefore give it my hearty endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.
