Confidence Begets Credit and Credit Will Build a Home

This may sound far fetched, but it is as true as gospel. The people who today own their own homes in this town years ago showed their confidence in our community by investing their savings here. Their small investment created more credit for them and it was not long before their credit was enough to enable them to build a home. The same opportunities exist today for the man who is willing to start—home investments are always looked upon with more favor by our financial institutions than investments in some far off corner of the globe, and if you are thinking of starting a home we want to talk things over with you and give you some idea about what you will need in the lumber line. Our stock is complete.

TIME FOR A THROUGH RAILROAD

IF THERE is any human being in Klamath county who has reached years mature enough to understand a simple proposition in evolution, and who is not aware of the importance of better railroad service to this city and its neighboring territory, it is high time that the alarm be sounded to such and the facts poured into their ears.

It is not simply that the people in this city would benefit directly. With the increased means of ingress and egress and better freight and passenger facilities and reduced rates which are bound to come following such a development, the direct advantage to the individual who lives in Klamath Falls is by far the smaller end of the benefit.

Whatever benefits Klamath Falls, generally speaking, benefits the country roundabout.

Whatever benefits the country roundabout benefits Klamath Falls.

These two assertions are a simple statement of two great facts that go hand in hand, are dovetailed, so to speak. Man cannot live by bread alone, according to the Holy Scripture, and by the same token he cannot get along without his neighbor—unless he's a freak, and is willing to go to sea. What properly helps one is bound to reflect on his fellow.

Anything that will boost Klamath Falls will make the neighboring farms better farms, and help to populate farm lands that are not now populated.

Klamath Falls is fortunate enough to have the railroad completed from Wood to this city. It is a branch line, or an offshoot from the main stem. It's being a branch line makes the expense of operating it greater than if it were one of a continuous chain of divisions of one large straight—or at least continuous—main line. Therefore freight rates and passenger rates, so far as they involve use of this branch line, are made high, and very high, at that.

If this branch were part of a continuous line the charges for service would be greatly reduced, for it's simpler and more economical to run a large railroad, in its proportion, than it is to keep a small place going. If the line were continued through to the north, to connect with the new line just opened to Bend, or with any other through line which would be reasonably straight, there would be an inlet and outlet both ways.

More traffic would result to support what is already alive of the railroad system. People would come here to locate more readily. As it is now, they come to Klamath Falls on a branch line that leaves them to backtrack or stop. With a through line this city would be in a position to command its strategic position as the most important one, as far as location and natural territory within reach is concerned, this side of Portland or Sacramento.

It would also be able to get a terminal rate so much cheaper than the traffic bears now that the merchants would be astonished, and the cost of living would be greatly reduced. Those who are here would be benefited materially by the great number of incoming settlers. The profits could be extolled until this entire page was covered with the possibilities of them. Better think about this. Then do something.

POORER WAGES PAID IN BADEN

WASHINGTON, Oct 10. — Low wages, compared with the American standard, are paid to railroad employees in Baden, according to a report by U. S. Consul S. H. Shunk, stationed at Mannheim, Germany. The average wages of engineers are given as \$767, Stymen \$588, brakemen on freight trains \$442, switchmen \$339, passenger conductors \$728 and passenger brakemen \$478. The lowest wages, \$305, are paid to assistant switchmen. The total number of officials in the railway system is 11,825 and of workmen 15,854.

The mileage of the state system is 1,070 miles. In the last year 53,029, 398 persons were carried 730,050,961 miles, with a good record as to accidents.

There were 30 accidents last year, two passengers were killed and thirty-one injured, twenty-three employees were killed and forty-eight injured, and eleven others killed and six injured, making a total of thirty-six killed and eighty-five injured.

SUBSIDIARY

In the Circuit Court of the State of Oregon, for Klamath County.
 F. R. BURROUGHS, Plaintiff,
 vs.
 J. M. SASSER, Defendant.

To J. M. Sasser, the above named defendant—in the name of the state of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled action on or before Thursday, the 9th day of November, A. D. 1911, that being the date of the last publication of the summons in this action and the last day in which you, the defendant, are required to answer said complaint, as fixed by the order of the court for publication of this summons, and if you fail to appear and answer, as aforesaid the plaintiff will apply to the court for the relief prayed for and demanded in the complaint, to-wit: A judgment against you for the sum of one hundred dollars, together with interest thereon at the rate of 8 per cent per annum from August 26, A. D. 1911, and for the further sum of \$104.25, and for \$100 attorney fees and for the costs and disbursements of this action.

This summons is published in the Klamath Republic, a weekly newspaper printed and published at the city of Klamath Falls, in said Klamath county, state of Oregon, by order of the Hon. Henry L. Benson, Judge of the above named court, such order being dated the 26th day of September, A. D. 1911, the first publication of this summons to be made and is made on the 29th day of September,

Noticed by applying to Edison Watson, superintendent Klamath Agency, Oregon.
