RECLAMATION IS MOST COMPLETED

PROGRESS IS MADE

VALUATIONS MADE IN POE VALLEY WITH VIEW TO ACQUIRING LAND NECESSARY TO UNDERTAKING OF GOVERNMENT

In the last monthly report to the secretary of the interior on the progress of work being done by the reclamation service on the Oregon-California Klamath project, the announcement is made that the work is about 67 per cent completed, or approximately 10 per cent more than was done when the previous report was filed.

The irrigation season was practically closed, and most of the crops were harvested. The grain was not all threshed, so that returns were not complete, but indications are that very satisfactory results will be had both for grain and hay.

The working force on the Lost River diversion dam averaged about 100 men and 20 horses, and this work was about 70 per cent completed. Most of the concreting below ordinary water level in the river was completed, and work was well under way on the arches and inclined face slab.

Work on the miscellaneous structures along the diversion channel was well advanced, and there remained only the bridge over the channel to be completed. The Lidgerwood excavator made good progress on the main drain, having excavated at times as much as 2,000 linear feet per work.

Laymen who have seen the magnitude of the work on the Lost River dam wonder at its size as compared with the seemingly innocent character of the river. It is claimed that this view of the undertaking does not take into account of the obstructions character of the stream in the springtime, when it gets beyond all reasonable bounds.

At that time he will hold services for Grace church of this city, and later notice of the same will be made public.

MURDERED WOMAN SISTER OF LAKEVIEW DEALER

Mrs. Millichamp, Who Was Murdered by Her Husband, Who Then Killed Himself, Was a Miss Patch Before Her Marriage

LAKEVIEW, Oct. 28.—One family in Lakeview is in sorrow over the terrible end of Mrs. Bethel McCoy Patch Millichamp, who was killed by her husband in Portland last week. He was suffering under a temporary attack of insanity brought on by ill-health, and committed suicide after the killing.

Mrs. Millichamp was the sister of Edward R. Patch of Lakeview, who left for Portland upon receipt of the news. The unfortunate couple were very happy, and the husband an industrious salesman for one of the large concerns there. His wife had had a foreboding that something was going to happen, and had called in a married couple that were great friends of theirs to visit them the

night that the deed was done. After a pleasant visit the couple returned to their home, only to learn a couple of days later that shortly after leaving the terrible deed had been committed. E. R. Patch, a real estate man, lives here with his family of three children. The father of the unfortunate young woman resides in St. Joseph, Mo.

Miss Nell Simpson of Lakeview arrived in the city last night, and expects to spend the winter in Klamath Falls.

Ed McLaughlin will make a trip to Bonanza tomorrow.

BANQUET GIVEN BY ODD FELLOWS

MEMBERS OF THAT ORDER ENJOYED A DUCK SUPPER LAST NIGHT THAT WAS A LITTLE THE BEST EVER

At the regular meeting of Klamath Lodge No. 137, I. O. O. F., a week ago last night Noble Grand Lee appointed Percy Sholl, Jasper Bennett and Ralph Sheets as a committee to furnish the balance of the faithful with something entertaining in the gastronomic line. The matter was left entirely in the hands of the committee, with power to appoint sub-committees at their pleasure, and the result was something to be remembered by those fortunate enough to be present at last night's meeting.

Without delay the committee hustled around to all nirrodos who belong to the order, and sent them in quest of the savory duck that so plentifully inhabit Klamath waters and marshes, and the various hunters nobly responded to the call upon their prowess.

Ducks of all kinds were delivered to the committee in charge (no coots, though), and under the culinary supervision of the committee, with Jasper Bennett wearing the long apron and handling the big fork, a banquet was spread at the close of the meeting that was a dream, a delight, a—oh any superlative that denotes perfect satisfaction.

With the ducks were served some good old "yams," cooked to a delicious finish, and with coffee that was a bachelor's symposium, "spuds from Klamath" (which you know can't be beat in the world), various fruits and cakes, and—well everything that goes to make a man sit up and loosen his belt before starting. The only wonder expressed by any of the members was how in thunder Jasper has escaped for so long.

WHITE FROST IS AGAIN VISITOR

MERCURY DROPPED DOWN TO WITHIN ONE DEGREE OF FREEZING LAST NIGHT, MAKING ALABASTER COATING

A white frost covered the ground in some places this morning, the mercury having been somewhat low spirited during the night. The low point was 32 at 4:30 a. m., against 40 the night before and the same Wednesday night. At 8 a. m. it was 38, against 38 yesterday and 42 Thursday. Last night at 8 o'clock it was 42, against 52 Thursday night and 45 Wednesday night. The high yesterday, 56 at 3 p. m., was three degrees lower than the top notch the day before, but was exactly the same at Wednesday's high. All told, the weather of late has been quite satisfactory to all but the chronic kickers. These, happily, are so few that their plaints have very little influence, at least on the weather.

Duck hunters report plenty of birds in the marshes now.

LAKEVIEW, Oct. 28.—The ladies of the Presbyterian congregation gave a dramatic performance at the opera house last Friday evening that was novel and entertaining.

Twenty-four characters were represented, and some were ab vo the average of such things where home talent is drawn upon. One of the features of the entertainment was the awarding of a prize to the character that made the best impression from a dramatic standpoint. Judge Henry L. Benson, W. Lair Thompson and W. H. Shirk were the committee that awarded the prize. The entertainment was well attended, and quite a large sum of money was raised for the benefit of the church which has recently been formed here.

WILL BE OBSERVED

CELEBRATION OF NIGHT BEFORE FESTIVAL OF ALL SAINTS HAS MUCH VARIETY IN ITS POPULAR OBSERVATION

Tuesday evening is Halloween, or Hallow-Even, so called as being the eve of vigil of All Hallowes, or festival of All Saints, which falls on November 1st. It is associated in popular imagination with the prevalence of supernatural influences, and is clearly a relic of pagan times.

In the north of England, Halloween is known as "Natterack Night." In Scotland the ceremonies of the eve were formerly regarded in a highly superstitious light, and Robert Burns' "Hallowe'en" gives a humorous and richly imaginative presentation of the usual ceremonies as practiced in Scottish rural districts in his day. The principal object of curiosity in consulting the future was to discover who should be the partner in life. Popular belief ascribed to children born on hallowe'en the faculty of perceiving and holding converse with supernatural beings.—The American

All sorts of celebrations are held on the gala night, from parties and card playing assemblies to dances and the eating of candies, nuts, mince pies and cookies, as well as the imbibing of that pleasant extract of the apple known as cider. Small boys put on a par with the more sociable enterprises the jovial ringing of doorbells, the carrying off of gates, signs and other easily appropriated property. At colleges frequently the students direct much energy to hypothesizing the chapel bell, putting a cow on the roof of the main hall, or some such worthy and exalted enterprise.

His Attorney Claims to Hold Letters From Linnell Girl to the Accused Preacher Which Will Help to Prove His Case

BOSTON, Oct. 28.—The outline of Richeson's defense as published reveals that Richeson will deny that he ever purchased cyanide from the druggist, Hahn.

His attorney said: "We are certain we can prove Richeson never bought the cyanide, and will produce letters that Avis Linnell wrote to Mr. Richeson which prove by the girl's own words that Richeson was not responsible for her unfortunate condition."

Mrs. Levi McDonald and Mrs. L. M. Davis will leave for Bonanza tomorrow morning.

Real Estate Man Arrested And Will Face Three Very Serious Charges

LAKEVIEW, Oct. 28.—The preliminary trial of Bernard Sitz, a former real estate speculator here, later of Willow Ranch, Calif., is to take place at Bakersfield, Calif., November 10th. Sitz was doing business under the name of the "Tri-State Land Company," and got an agent to selling lands for him at Bakersfield. They are alleged to have sold land that did not belong to Sitz, and it is stated that Sitz gave deeds to the property which were forged.

It is stated that he would deliver the deed immediately, as few would purchase an abstract and have their title examined by an attorney. Rumor has it that he cleaned up \$50,000 before he was caught.

He now faces trial on three charges, forgery, obtaining money under false

pretenses and using the mails to defraud. Mrs. Sitz is living at the Willow Ranch property, which Sitz recently purchased from a concern with whom he was formerly engaged in business, and had some fine improvements placed upon before being arrested.

Suit On Injunction Bond Brought By Lewises, Allege They Lost Crop

Suit has been instituted against D. B. Campbell, Klamath Development company and C. E. Worden for \$500 and interest since July 30, 1907, by Iva S. Lewis and Arthur C. Lewis, on a bond given to secure the issuance of an injunction against the Lewises in 1906.

After trial, on July 30, 1907, the injunction suit was dismissed and the Lewises are now claiming the amount of the bond, on the plea that by reason of the injunction they were wrongfully restrained from irrigating their crops from July 13, 1906, until July 30, 1907, on the 350-acre farm which they then owned, that by reason thereof their crops parched and were a failure, and they were damaged in the full amount of the bond, \$500.

The ranch concerned is the one recently sold to the Buttons for \$11,000, one of the best agricultural tracts in the county, owning its water right to take water from Klamath River, which naturally would flow over it but the dyke maintained on the land. It was in connection with this dyke that the original suit was brought, the claim being made that the Lewises had no right to take water through this dyke, and, being restrained by the order of the court pending suit from taking water through the dyke, they were unable to irrigate.

In its decree, in July, 1907, the court found that the water right ran with the ranch, and the dyke being on the place, the court had wrongfully restrained.
