## BEE-TLE FIGHTERS WOULD SAVE TIMBER

### PEST IS ANNOYING

#### LARGE PARTY OF CRUISERS OF WEYERHAEUSER COMPANY GO- ING TO POKEGAMA COUNTRY TO INVESTIGATE CONDITIONS

Minot Davis, who has charge of the field work for the Weyerhaeuser Timber company, arrived in the city last evening from Tacoma with a large party of timber men and cruisers in the employ of the Weyerhaeuser company, consisting of John Scanlan, C. A. Taylor, F. H. Conant, Geo. C. Joy, Ben E. Joy, Wm. Entwistle, John Markbeum, C. W. Taylor and A. Shimick.

The party are on their way to the Pokegama section of the county, where the Weyerhaeuser company own large tracts of timber land, for the purpose of making a thorough investigation of the pine beetle situation, which is causing so much uneasiness among the timber men of the coast.

Mr. Edmundson, representing the agricultural department of the federal government, was here this fall making an investigation, and it is given out that the damage being done to the standing timber in this county by the pine beetle is quite serious, and is sufficient to cause an alarm among the timber owners, and the government has invited their co-operation in fighting the plague. It is quite probable that all of the large timber owners will unite in a movement to rid the timber of this section of the beetle.

#### Trials of the Operator

A person would think that when all that a linotype operator had to do was to just keep pushing down the buttons, and let the machine do the work, that life was one long sweet song. But it isn't. For instance, the typewriter belonging to the big boss has gone on the bum, and his letter "h" refuses to do its share of the day's work, with the result that copy comes to the machine something like this:

"Jo n W. Smit , w o a s just pur- cased a lot in t e at Springs addition on w le e says o will soon build a ome for is family, w le e will soon bring to t is city." We didn't it set your pigs a-squealing?

### MORE FRUIT TREES TO BE GROWN BY LAKE MEN

Orchardists Are Awakening to Value of Soil, and Great Increase in This Branch of Horticulture Seems to be Imminent

#### Special to The Herald

LAKELAND, Nov. 11.—That some of the stockmen of Northern Lake county are awakening to the fact that much land that they have told homesteaders would grow nothing but grass and other less valuable plants, is suited for all kinds of fruits and other products, is evident from the fact that they are about to plant all

kinds of fruit trees, shrubbery and shade trees of various varieties that heretofore have not been tried in the northern valleys, despite the fact that they are the lowest in elevation of any in the county.

A large shipment from the Klamath nurseries has just arrived here, on route north, consigned to W. C. Buick, K. C. Allen, J. H. Goudy, J. S. Wakefield, P. M. Chirman, H. F. Swingle and J. W. Martin.

The shipment consists of all kinds of apples, pears, plums, peaches and cherries, while many rare shade trees and shrubs are in the lot.

There promises to be a great awakening of the fruit industry in a section of the county that has been neglected along that line heretofore.

### FOOTBALL VICTIM DIES FOLLOWING ACCIDENT

### PICTURE MAN'S JAPANESE SLAYER HELD FOR MURDER

### COUNTY ISSUES NO BONDS, IS RUN ECONOMICALLY

Good Sum of Money in Treasury of Lake, and There is No Debt—Suggestion for Improvement of the Roads of the County

#### Special to The Herald

LAKELAND, Nov. 11.—F. O. Ahlstrom, county treasurer of Lake county, reports that there are \$90,704.90 in the treasury of Lake county.

This sum, without a single dollar's worth of indebtedness of any kind outstanding, is perhaps the finest showing that can be made by any county on the Pacific coast.

Lake county occupies the unique position of being the one county that has no bonds outstanding.

The county paid out \$16,895 for

roads and bridges this year, which sum has been made to cover a large area, and, of course, there has been no permanent road work of any kind more than the building or placing of some corrugated iron culverts that were purchased in large quantity, and which are intended for use wherever practicable throughout the county.

For county salaries \$7,340 was paid; lawbooks and supplies, \$2,319; teachers' examinations, \$45; wood, lights and janitor services, \$1,632; board of prisoners, \$185; justice court, \$129; circuit court expenses, \$4,065; coroners court, \$263; printing and publishing, \$330; care of poor and examination of insane, \$520; bounty on wild animals, \$1,905. The total paid out during the past year was \$35,574.29.

There is doubt if, for economy, this statement can be beaten. Some regret that some money has not been expended on permanent roads, as they claim this money is better so placed than lying in the banks of the county, where it does the taxpayers no good.

### ELKS SHOW GIVES LAST RENDITION

SECOND PERFORMANCE WELL  
ATTENDED, AND RESULT OF  
TWO NIGHTS' OFFERING IS A  
FATTER TREASURY

Another large audience attended the second and final appearance of the Elks' minstrel at Houston's opera house last night and enjoyed the performance to the utmost.

The bill was offered from first to last with the same skill and efficiency which marked the rendition the first night, and the two nights were so well patronized that the treasury of the "cervus alces" bunch is decidedly heavier than it was before, by several hundred dollars.

### LIVE STOCK SHOW COMES TO ROSE CITY IN MARCH

Free Show, Strictly Educational in Character, With Railroad Presidents Hill and Lovett On Its Official roster

#### Special to The Herald

PORTLAND, Nov. 11.—A big stock show will be held at the Portland Union stockyards next March, the dates being 18, 19 and 20. It will take \$6,000 to pay the premiums. Considering there are no entry charges and no gate fees, this is a very liberal prize list.

The event is the second annual Pacific Northwest Livestock show, and is strictly educational in character.

Railroad Presidents J. J. Hill and R. L. Lovett have again consented to act as vice-presidents, and M. K. Parsons of Salt Lake City is president.

The show next year will be broader in its scope than heretofore, so as to include the breeding classes of cattle, sheep and hogs.

Sheriff William B. Barnes is expected to arrive in Klamath Falls this evening from a trip to San Francisco.

### GRIDIRON BOYS IN HOT CONTEST

CALIFORNIA - STANFORD GAME  
ATTRACTS RECORD BREAKING  
CROWD AT GROUNDS OF LAT-  
TER INSTITUTION

United Press Service  
SAN FRANCISCO, Nov. 11.—A sunny, calm day, with 25,000 people at the grounds for the Stanford-California football game, established a new attendance record for Stanford. The Berkeley team was first on the field. Stanford won the toss with defence at west goal. The kick-off was at 2:30 p. m.

The game opened with kicking rallies between Port and Brown, Stanford defending its own territory. California, with several long dribbling rushes, then started a scrimmage. California heeled out the ball, Morris to Elliott to Evans for a try.

California 3, Stanford 0. Stroud failed to kick goal.

Stanford was aggressive, with the best kicking. Some dribbling followed, and the ball was kept in California territory. A long kick by Erb came next, a 15-yard run by Frank, passing to Gard, who scored a try. Brown failed to kick goal.

California 3, Stanford 3.

Stanford then had the best of it. Brown outkicking Peart. Brown kicked 50 yards to touchdown. The ball was kept within 25 yards of the California goal. Watts saved California by falling on the ball back of the goal line. A passing rush by California took the ball to the Stanford 30-yard line. Brown booted back and California advanced by a long dribbling kick. Elliott scored a try, and kicked his own goal.

California 8, Stanford 3.

The ball seemed in a series of kicks. California blocked an attempted drop kick for goal by Brown from the 40-yard line, and the half ended.

First half—California 8, Stanford 3.

The first first half was the hardest playing ever seen on the coast.

In the second half the teams exchanged goals and exchanged kicks.

### BRITISH ROYALTY STARTS FOR DURBAR FESTIVITIES

United Press Service  
LONDON, Nov. 11.—The king and queen left Portsmouth at 1:30 p. m. for India to attend the coronation and durbar.

The festivities, until January 7th, will be unprecedented for pomp and magnificence.

Reports from Bombay tell of horrible plague conditions to greet the king and queen when they arrive.

Experts have been secured to judge the fowls.

#### United Press Service

### HEAVY REGISTRATION, BOTH MEN AND WOMEN

Female Socialists at Los Angeles Working Like Beavers, Claim Clash Being the Greatest in the History of America

#### United Press Service

LOS ANGELES, Nov. 11.—The total registration is 174,691, and of men, 101,662, women 73,029.

Ten thousand women registered on Thursday.

Women socialists are working like beavers to elect Harriman.

Society folks are busting to "save the city" and elect Alexander.

It is the most acute class clash in the history of America, and the whole city is lined up on one side or the other.

### COUNTY WILL RETIRE

BY MERGER WITH FIRST NATIONAL, WHOSE CAPITAL WILL BE INCREASED TO \$100,000 FROM \$35,000

Claude Gatch of Salem, state bank examiner, is here today inspecting the Klamath County bank, and upon his report will depend the consolidation of that institution with the First National bank.

In the merger, which is equivalent to the retirement from business of the Klamath county bank, it is required to pass sufficient securities to the surviving institution to meet all its liabilities, or, in other words, its deposits. These securities must be submitted to the comptroller of the currency, Lawrence O. Murray, at Washington, before the transfer of business to the First National bank can be made.

It may take a month to complete the operation of having the national authority to pass on the securities and effect the merger, but it is a fairly safe assumption that the Klamath county bank's business will be in the hands of the First National some time in December.

The present capital stock of the First National bank is \$35,000, which will be increased to \$100,000, meaning an increase of \$75,000 in the capital stock to take over the Klamath County bank.

The increase in capital stock has already been provided for, the \$75,000 necessary to quadruple the capital stock of the First National in the merger having already been paid in by stockholders, its use, of course, being contingent on the government's official approval of the First National taking on the business of the county bank.

The Klamath County bank was organized in 1899, and during its entire existence Alexander Martin Sr. has been president and Alexander Martin Jr. cashier. Mr. Martin Sr. was some weeks ago made president of the First National, to succeed L. F. Willis, which fixes his status in the combined business, but no statement has as yet been made as to what arrangements will be otherwise made in the working force of either the passing or continuing bank.

### Changes In Hot Water Piping Are Impediment To Laundry, For Time

Owing to some changes the Klamath Development company is making in its piping of water from its Hot Springs, which torrid aqua is used by the Klamath Falls steam laundry to irrigate and renovate ends of the populace, some delay was caused in turning out rejuvenated raiment at the laundry, which led to a report that there was just the least bit of friction between the two establishments.

D. E. Campbell, who is at the head of the wash foundry, stated today that there was no trouble in the matter, save some little delay that was caused by the change undertaken by the K. D. people, in order to effect the improvement, and that the laundry is getting water all right again.
