Capital and Labor Must Be Kept Busy In the right channels to keep the nation prosperous. National prosperity is the collective result of local prosperity and "prosperity" is the mysterious thing back of both. Confidence is necessary in all walks of life to bring success, for without it there can be no future. Our own local confidence is the backbone of her people. It is well known by its works just as a man is known by his deeds. There's no better way to show your confidence in the town than to be known as a home owner and no quicker way to gain your share of the independence for which our Revolutionary fathers fought than to own a home.
