GROW SUGAR BEETS PURELY FOR STOCK

IT SEEMS POSSIBLE

EVEN IF NO SUGAR FACTORY COMES AS J. C. MITCHELL OFFERS \$1 PER TON FOR ROOT CROP FOR CATTLE

Sugar beets grown by the farmers around Malin from seed furnished by the government are being collected by J. Frank Adams, who is buying them on his ranch near Merrill.

It is now believed that whether a beet sugar factory is established in this county next year or not, that the production of the sugar beet simply for stock food will be undertaken.

Mitchell, who is a well known stock man, has offered certain farmers \$1 a ton for all they can give him, and the entire plant will be used to feed cattle.

A farmer can raise, on an average, about 25 tons to the acre on Klamath soil, which, at \$2 per ton, would be \$75 an acre from sugar beets.

The high price of other cattle food stuffs the past season and the great desirability of the sugar beet for feeding bovines will apparently be the cause of a changed condition in the demand for sugar beets in this neighborhood.

The high price of hay in this county of late has caused some stock shippers to send their animals out of the county to be fed for the winter.

J. C. Mitchell recently sent a shipment into California to a point near Hamilton, where is a beet sugar factory, to have the animals fed there for the winter.

If he can get enough sugar beets to feed cattle in the county it will save shipping them away, and also be profitable to the farmers who may raise sugar beets with which to feed them.

It is said that the choice sugar beet is not necessarily the largest one. Those weighing from 2 to 4 pounds usually contain the best proportion of desirable elements.

If sugar beets can be grown in good quantities for food purposes only the increase in the endeavor to make this county a hog market is pretty likely to follow.

Very few hogs are raised here now, but if their handling is profitable with beet food, a packing industry would not be long in coming.

There will be a special meeting of Aloha chapter No. 61, O. E. S., on Friday night, December 8th. All members are requested to be present, as the Worthy Grand Matron will be present.

Some time ago a Medford paper carried an item to the effect that Secretary Walter Fisher of the Interior had promised Will G. Steel of Portland and Medford to recommend in his annual report an expenditure of \$150,000 for roads in the park.

The Portland man recently made a trip to Washington to secure an appropriation of \$500,000 for the park. Whether his effort failed and the \$150,000 recommended by the treasury secretary is the result does not appear.

CLEAN UP DOCKET POLICY OF COURT

JUDGE PERCY R. KELLY NOTIFIES DISTRICT ATTORNEY'S OFFICE OF OPEN TIME FOR CRIMINAL CASES

Judge Percy R. Kelly, who is presiding in circuit court during the absence of Judge Henry L. Benson, is apparently going to do all he can to get cases going and clean off the calendar.

In open court today he notified Assistant District Attorney Charles J. Ferguson that he wished to apprise the district attorney's office that he had some open time.

"It appears that only civil cases roll in on the wrong side of the street," said Mr. Kelly. "Put 'em high" and come over. "Put 'em low" and I'll try to be pleased.

The next shipment will be gotten together as soon as possible and started on its way to San Francisco in order that it may make its appearance in the market in company with its brethren in mint sauce, by the time the Christmas holidays roll around.

have been set before me," said his honor, "and I would like for the district attorney's office to know that the result is that I have some open time, so that if there are any cases which are desired to be set during such period, it may be made available for criminal cases."

The assistant district attorney said he would notify District Attorney Dell V. Ruykendall. It had been believed by some attorneys that no criminal cases would be brought up before Judge Kelly, but from the attitude of the court as expressed this morning it is apparent that both civil and criminal issues will be taken up.

GARRET IS GONE WARRANT ISSUES

MAN ALLEGED TO HAVE PASSED BAD CHECK ON QUILITCH DOES NOT ANSWER WHEN THE COURT CALLS

Joseph H. Garrett is wanted to answer to a charge of marketing a bad check on the Quilitch grocery. He had been arrested on the charge and bound over to answer before the grand jury, which found an indictment. Justice of the Peace Chas. Graves had fixed his bond at \$200, which was furnished by Captain J. P. Lee, county assessor.

When Garrett's name was called by Judge Percy R. Kelly the accused failed to answer. The court ordered bench warrant issued for the man, and the document has been turned into the office of Sheriff William B. Barnes.

United Press Service CHICAGO, Dec. 6.—"Everybody seems crying for blood. It is thumbs down everywhere." Having got the McNamara, the demand is for more victims—more men to kill.

This is the burden of a special dispatch from Lincoln Steffens in Los Angeles printed in the Chicago Daily News. He goes on to say: "The step towards peace has been stopped. The city is not rising to the emergency—neither capital nor labor peace was meant. War is declared."

East Main Street Sidewalks Were Ordered In, But Will Not Be Laid

Sidewalks along Main street as far east as the White Pelican will not go in this winter. Some weeks ago the city council, after a vigorous argument about the proposed improvement, which was very much desired by the Klamath Development company, decided to order the walks, to be eight feet wide, of cement.

It developed that Street Commissioner Woodard had agreed to exempt the Barnum property from putting in the walk, even if all the other landholders put theirs in, so Councilman G. W. White argued that the Seeds estate, which had been heavily assessed for city improvements the past year, be excused also. It was asserted by Mr. White that next spring would

CAUTION TO UNION GIVEN BY LABOR CHIEFS

Samuel Gompers and O. A. Tveitmoose Issue Warning to Rank and File Not to Get Excited Over McNamara Exposure

United Press Service SAN FRANCISCO, Dec. 6.—"Tell all union men and women to keep their heads cool and their feet firmly upon the ground," is the warning of Samuel Gompers sent in a telegram to Andrew J. Gallagher, secretary of the San Francisco Labor Council in an admonition in connection with the possible results of the McNamara confessions.

"Let calm judgment be your guide," he continues. "It lights the way to final victory. Labor's fight does not rest with a few individuals. It is rooted in the eternal struggle for freedom and justice."

O. A. Tveitmoose, secretary of the State Building Trades and Labor Council, issues a similar warning through Gallagher.

and that if they started under compulsory and summary proceedings it would be weeks before the desired highways were in place.

But the council went ahead and ordered the improvements just the same. Nothing, however, has been done, and it is evident that the city authorities have determined that it would be useless to try to force the people to front their holdings, as was the aim of the order. It would take a long time to get the walks through under legal machinery, it is said, probably until spring, so there the matter rests, with the likelihood that all the property holders will go ahead with the surfacing at that time.

Sheep Market Much Improved And Firm Will Send More Woollies Below

O. T. McKendree and Charlie Arthur returned from San Francisco the first part of the week, where they went recently with a shipment of 2,000 lambs for that market.

This firm has a big bunch of lambs in the feed yards near Merrill, and intended to keep the remainder until some time later in the winter, when they expected to have them in first class condition for the southern market when at its best.

However, on this trip they found the market in such shape that they huddled back to cull their bunch and ship a thousand or more head as soon as possible.

Strong reports that the last shipment got through in very good shape, considering all things, and that the
