 Notice is hereby given that Oscar
 L. Carter, whose postoffice address is
 Klamath Falls, Oregon, did on the
 29th day of May, 1911, file in this
 office sworn statement and application
 No. 04680, to purchase lot 1, Section
 4, township 27 S., range 10 E., William-
 ette Meridian, and the timber thereon,
 under the provisions of the act of June
 3, 1878, and acts amendatory, known
 as the "Timber and Stone Law," at
 such value as might be fixed by ap-
 praisal, and that, pursuant to such
 application, the land and timber
 thereon have been appraised at a
 total of \$465, the timber estimated at
 620,000 board feet, at 75 cents per M.,
 and the land nothing; that said ap-
 plicant will offer final proof in support
 of his application and sworn state-
 ment on the 27th day of December,
 1911, before R. M. Richardson, United
 States Commissioner, at Klamath
 Falls, Oregon.

Any person is at liberty to protest
 this purchase before entry, or initiate
 a contest at any time before patent
 issues, by filing a corroborated af-
 davit in this office, alleging facts
 which would defeat the entry.

OUR FOREIGN COMMERCE

The States in the year about to
 THE foreign commerce of the United
 States will show an increase of over
 \$200,000,000 when compared with
 the immediately preceding year, and
 a larger total than in any earlier
 year of our commerce. Imports, while
 falling below those of 1910 in the
 earlier months, have, in the closing
 period of the year, shown a marked
 increase, indicating that the total for
 the year will differ but little from that
 of 1910, which made the highest record
 in the history of the import trade.
 Exports are larger than in any earlier
 year, and manufactures exported also
 make their highest record, reaching
 approximately \$1,000,000,000 in the
 calendar year 1911. The approxi-
 mate total for the year, based upon
 ten months' record already compiled,
 are: Exports, over \$2,000,000,000;
 imports, \$1,500,000,000, of which
 over one-half entered free of duty.

Considering the great groups of
 articles, the noteworthy changes are,
 in the case of imports, a falling off
 in manufacturers' raw materials and
 in finished manufactures; in the case
 of exports, a general increase partici-
 pated in by all the important
 groups foodstuffs, manufactures and
 manufacturers' materials. Comparing
 the ten months' movement in the
 years named imports of crude food-
 stuffs increased from \$118,000,000 in
 1910 to \$145,000,000 in 1911, while
 foodstuffs, wholly or partly manufac-
 tured, decreased from \$169,000,000
 to \$151,000,000; manufacturers' raw
 materials from \$452,000,000 to \$227,
 000,000; manufacturers for further
 use in manufacturing increased
 slightly, from \$237,000,000 to \$242,
 000,000, and finished manufactures
 decreased from \$310,000,000 to
 \$294,000,000.

Exports, on the other hand, advanced
 in the case of crude foodstuffs
 from \$70,000,000 to \$95,000,000;
 foodstuffs, partly or wholly manufac-
 tured, from \$203,000,000 to \$247,
 000,000; manufacturers' raw materials
 from \$437,000,000 to \$491,000,
 000; manufacturers for further use
 in manufacturing, from \$234,000,000
 to \$267,000,000, and finished manu-
 factures from \$447,000,000 to \$521,
 000,000.

The principal imports of the full
 year, grouped according to magnitude
 of values, will show: Sugar, over
 4,000,000,000 pounds, valued at about
 \$105,000,000; chemicals drugs, etc.,
 \$95,000,000; coffee, \$80,000,000
 pounds, valued at about \$84,000,000;
 hides and skins, \$80,000,000; India
 rubber, \$75,000,000; cotton manufac-
 tures and raw silk, about \$65,000,000
 each; fiber manufactures, \$55,000,
 000; wood and manufactures, \$50,

000,000; fruits and nuts, over \$40,
 000,000; block and pig tin, \$40,000,
 000; diamonds, \$33,000,000, while
 copper manufactures, unmanufactured
 fibers, iron and steel manufactures,
 silk manufactures, leaf tobacco and
 oils will each show a total of about
 \$30,000,000 each. Art works, furs
 and fur skins, and wood will aggre-
 gate about \$25,000,000 each in the
 year's imports. Lower prices contrib-
 uted to the fall in value of imports of
 sugar and India rubber, the decrease
 in value being far greater than in
 quantity. Hides and skins show a
 marked reduction in quantity as well
 as in value of imports. Tin imports
 are about the same in quantity, but
 much greater in value, due to higher
 prices.

Cotton is still the leading article of
 export, its total for the year, over
 \$500,000,000, exceeding the combin-
 ed value of the two great classes next
 in rank, iron and steel manufactures,
 about \$250,000,000, and meat and
 dairy products, \$160,000,000. The
 exports of cotton in ten months aggre-
 gated 2,945,000,000 pounds, valued
 at \$371,000,000, the largest value in
 the history of American commerce,
 and but slightly less in quantity than
 the high record total of 3,052,000,
 000 pounds exported in ten months
 of 1905. Iron and steel also made a
 new high record in the ten months of
 1911, \$206,000,000, against \$164,
 000,000 last year. Substantial in-
 creases also occur in other leading
 articles, and the complete year will
 probably record a total export of over
 \$125,000,000 worth of bread stuffs,
 over \$100,000,000 of mineral oil,
 nearly \$100,000,000 of copper, \$40,
 000,000 of cotton manufactures, \$35,
 000,000 of agricultural implements,
 about \$35,000,000 of cars and car-
 riages, and \$25,000,000 of chemicals
 and medicines.

Considered by countries, large in-
 creases occur in the exports to Can-
 ada, Germany, Netherlands, Japan,
 the United Kingdom, Australia and
 Belgium, and lesser increases in those
 to South America, Cuba, China and
 many other countries. While im-
 ports as a whole decreased, there
 were increases in those from Japan,
 India, Egypt and other countries of
 Africa.
