THE LUMBER INDUSTRY

RECENT dispatches from Portland are to the effect that a decided change toward improvement has taken place in the lumber market, which is extending over the entire Pacific coast. This tendency is bound to have a great beneficial effect on the development of Oregon and adjoining states, and if the improvement continues, as conditions seem to indicate, the outlook for the new year is very bright.

The lumber business is one of the most important industries in the Pacific Northwest, and is to play an important part in the development of Oregon, and what is more particular, Klamath county. During the past year there have been instances where the depressed condition of the lumber market has discouraged mill men from engaging in business in this county. The quality of the timber, the price, the mill sites and all conditions were favorable, but the investors felt that it would be better to wait another year or so until the lumber market improved so that they would be sure of disposing of their products at an advantage.

With the market now in an improved condition and demand for lumber increasing, the development of the timber resources of Klamath county should show a rapid growth in the next few years. Payrolls are one of the greatest needs of this section of the state, and these can be secured through the encouragement of the lumber industry. Saw mills, box factories and lumber camps make business lively for the merchants and furnish a market for the produce of the farmer.

POSTOFFICE AFTER WIRES OF SIGNAL CORPS SERVICE

Move Proposed May Prove Entering Wedge to Have Mail Department Control All Wire Communication in This County

United Prope Service

WASHINGTON, D. C., Dec. 29.—What may prove to be the entering wedge for control of all wire communications in the country by the postoffice department is found in the proposition to transfer all the duties of the signal corps of the army in Alaska to the postmaster general's department.

In Alaska the signal corps maintains and operates an elaborate system of telephone, telegraph and wireless communications. There are about seventy-five stations, cables, land wires and wireless, with a mileage of 1,125 on land and 2,633 by cable. These stations handle not only the government traffic, but the commercial and press stuff as well. The receipts of the Alaskan stations amounted during the last year to more than \$218,000. The enlisted men of the signal corps handled all this money without the loss of a cent, according to Brigadier General James Allen, who describes the system in his annual report.

Owing to the shortage of men in the signal corps it is proposed to turn this entire business over to the postoffice department. Congress will be asked to authorize the change.

MUFF HER BANK BUT IS NOW GONE WITH STRANGER

Missoula Woman Meets Man on Train, Accompanies Him to a Portland Room, Where He "Sets 'em Up," Then Whacks Her With a Bottle.

PORTLAND, Dec. 29.—Two bits was all that Evelyn Rogers had to buy her Christmas dinner with. On Christmas eve she had \$950.25.

Harry Bladen is accused of having robbed the young woman after he struck her over the head with a bottle, laying open a long gash in her forehead. Bladen is missing, and a complaint has been issued against him from the office of the district attorney.

Miss Rogers met Bladen, who is a news vendor on a train, when she was coming from Missoula, Mont. The young woman had \$900 sewed to the inside of her muff, and intended using the money to buy a lodging house in the city. Arriving here Bladen escorted her to the Blackstone hotel, where he has a room. It was here that the assault and robbery was committed, and where Bladen left the stranger destitute. It is charged.

They had been in the room but a short time when Bladen gave Miss Rogers a drink of whiskey, she says. This, she believes, was doped, for she immediately felt stupefied. While she was dazed, Bladen picked up a bottle and smashed it on the woman's head. It is claimed. He probably intended stunning her, but when he saw the wound and the blood flowing he became alarmed and called a surgeon, who dressed the wound.

Bladen explained that he had struck her by accident. Telling the doctor he would be responsible for the bill, and informing Miss Rogers that he had to rush to work, and for her to remain in the room until his return, Bladen seized the treasure-laden muff from the wall, threw it into a suit case with her purse, containing \$50, and departed. Bladen has not reported where he works, and there is no trace of him. Miss Rogers told her story to Deputy District Attorney Collier.

At Houston's Opera House

Fine juggling is the offering given at the Houston opera house this week by the Littlejohns, famous Scotch jugglers. They opened a week's engagement Monday, which will keep them here through next Sunday night exclusive of Wednesday night, which will be given by the opera house to the Legation bureau.

The Littlejohns, a man and a woman, do expert ground juggling, as well as duet juggling while on revolving balls. They juggle balls, pins, Indian clubs, fans, and a lot of other things, and their is a rapid fire startler from their end. One of the most remarkable things ever seen on a Klamath stage is when the man—there are people, a man and a woman—throws knives which strike the target which the woman holds. It is a daring and dangerous accomplishment, and brought down house last night.
