

## TWENTY-FIVE MEN TO BUILD UP ROADS

### PROMISED CONVICTS

JUDGE WORDEN RETURNS FROM VISIT TO PORTLAND AND SALEM, BRINGING MESSAGE FROM THE GOVERNOR

Judge William S. Worden returned Saturday evening from Portland and Salem, where he was called on business. While in Salem Judge Worden called on Governor West relative to securing convicts for work on the county roads the coming summer. The governor has promised to furnish Klamath county with twenty-five men, and it is planned to have them here to begin work about March 1st, if weather conditions will permit.

Governor West asked Judge Worden to tell the people of Klamath county that he felt greatly pleased with the way the county has done this year, and that the people were a progressive as they showed themselves to be. As far as road improvement was concerned, the governor stated that Klamath county stood in the front rank, and that whenever a county showed a disposition to be progressive and had done as Klamath county had done, he would go his limit to assist it.

Governor West advocates the construction of a good road through from The Dalles to Klamath Falls, and predicts it would be one of the most important highways in the state. He promises that if there is anything he can do for the development of this section, that all the people have to do is to call on him, and that he would make a personal trip here if necessary. It is quite probable that the governor will visit Klamath county later in the year.

## DEATH COMES IN PEACEFUL FORM

### LITTLE ONE WELL KNOWN TO OLD AND YOUNG OF KLAMATH FALLS PASSES INTO GREAT BEYOND

Died—At the family residence, A. D. 1911. Infant son of Old Father Time, aged 1 year. Funeral services universal and public

Yes, another little one has passed away. The white boarded Old Boy who ambles over the earth with his sythe has once more been bereaved and the death of 1911 may be written in the chronography. The death was unusually peaceful, and the little one gave up without a struggle.

The celebration attendant upon its passing was one of the quietest ever known in Klamath Falls. The fact that the death came on Sunday night made the going attended with less hilarity than usual.

The churches celebrated with a union watch meeting at the Methodist

Episcopal meeting house after the hour of the regular evening services. At midnight the church bell was tolled and those who had been bent on getting the newborn year started in life with religious rejoicing turned to eat refreshments provided by the church women.

At the White Pelican hotel there was feasting, and the evening was largely given over to a lecture by Burr McIntosh, actor-author-lecturer-photographer traveler. In some of the private homes there were quiet meetings, with some not so quiet.

The street rejoicing was of a less vociferous nature than usual. One vigorous individual on Main street, down town, swung a cowbell and yelled "turkey dinner," although the hour was rather an unusual one for a feast of such nature. The usual clamor of bells, whistles, horns and vocal chords was practically missing. It was more of a night for sleeping than slumbering.

Fact is, a good many had celebrated with gusto vim, verve, and many other things liquid and solid Saturday night, and were not ready to undertake any more business of a like nature last night.

## JOHNSON QUITS PIONEER PRESS

REYNOLDS TAKES UP REINS, LEAVING THE BOOKKEEPING, WHICH IS NOW IN HANDS OF MISS ARCHER

United Press Service PORTLAND, Jan. 1.—Portland's celebration of New Year's will be "ladylike." That is if the orders of Chief of Police Glover are enforced. He said there should be no liquor sold from midnight Saturday until 5 a. m. today, street demonstrations would have to be kept in rigid bounds, no confetti, feather duster or powder battles, no congregation of crowds, and no serpentine parades.

Elmer Johnson, who has for several months been connected with the business end of the Klamath Falls Express and Pioneer Press, has resigned from that position, being succeeded by L. A. Reynolds, until recently bookkeeper for the office.

Mr. Johnson will go to Long Beach, Calif., to rejoin Mr. Collins, who used to be in the real estate business here with him.

Miss Kathryn Archer, lately stenographer and phone operator in White Pelican hotel, has taken the position of bookkeeper, vice Mr. Reynolds.

DEATH OF A. S. BORINE A. S. Borine died yesterday morning at the Baldwin hotel of tuberculosis. He was an Odd Fellow, belonging to the Sisson Lodge, and had been cared for by the brotherhood here since taken down with illness. He came to Klamath Falls some months ago, and for a time stayed at the Henley ranch south of this city.

The body was shipped to Sisson this afternoon for interment.

## MASKERS ARE TO BE AT HOUSTON'S

TONIGHT, WHEN THERE WILL BE PRIZES FOR CHARACTERIZATIONS AND FOR GUESSING WHO SALONS REALLY IS

Tonight is the night of the annual masquerade ball given by Manager John V. Houston of the opera house, there. It will be the first chance that the celebrators have had to indulge themselves as late as they wish. Saturday night they could not get over into Sunday, and last night the wait was too much for most of them, since it was a matter of not commencing until midnight.

But tonight they can begin in the "shank of the evening" and keep their nethers active until the wee sma' hours of the morn, without their consciences reproaching them as well as without "shame on you" from other folks.

There are going to be three prizes for the best representations, one for the most original, one for the funniest and one for the best sustained characterizations.

Then Salome will be there, with twenty pounds or so of brads on, in fact, quite a lot of bending, yet the visible supply of Salome will be such that guessing as to the identity will be very interesting. It will also be remunerative to the successful guesser.

### NO CAUSE TO CHANGE

SAYS MAYOR, IN FACT THAT COMPANY HAS ANNOUNCED THAT IT NOW HAS PURE WATER ON TAP FOR ALL USES

Mayor Fred T. Sandeman says that the fact that the Klamath Falls Light and Water company has announced that the water from part of the Swan R. Reams springs is practically pure will make no difference with the city's plans to go ahead for its own water supply. The company made an announcement to the effect that only the good springs would be used to supply the city from now on, and that the few would be plenty to give the city what it needs until spring, by which time the increased demand in warmer weather would be met from other springs which will be protected from contamination.

"We are going right ahead without any hesitation," said the mayor. "There is no reason that I can see why we should not. The city has gone to considerable expense, and is not going to back out. It was up to the water company long ago to furnish pure water, but they made no real move to do it. Why didn't they get busy and do something? Now that the city has stepped in it means business, and is not going to back out."

"The city has steadily taken hold a dozen supplies of water from the springs which the water company has owned for years," said the mayor. "The city has steadily taken hold a dozen supplies of water from the springs which the water company has owned for years."

"We have developed a fine water source, with 700 million gallons, enough to furnish a community of 250,000 people. It's clear and cold, so cold that two or three swallows are all you can take. It is pure, of that we are entitled. We have not yet had an analysis made of it, but we will have in a short time."

It will probably be a couple of years before the municipality can furnish water to the city, even if the plans are successful. The work will be a prodigious undertaking, and the exact sentiment of the city on the proposition to spend \$1,000,000 or \$1,500,000 on a water supply will not be known until the local pulse may be felt through the medium of the proposition to issue bonds to cover the expense.

It will be about two years from now that the five-year period at the end of which the city may buy out the water company will reach its completion.

## Sacramento Welders Of Sphere Take Two Games From Pavilions

All players on the pavilion team resulted in victories for the visitors, but it demonstrated that the local men can go.

The first game on Saturday night and the visitors hardly in as good shape as they would have wished for a reason that they were tired from playing, but they put up a lively rap, just the same. The entire lineup of visitors showed form and speed, with tact in tight places. They took the game 25 to 15.

Sunday afternoon the visitors were better shape, and of the same time

the home lads had become more used to their adversaries, their style of play and general tactics, and were also imbued with more confidence and additional limberness. The result was a hard fought contest, with a closer result, the visitors taking the go 15 to 15.

Here's the lineup: Sacramento—Dickman and Blake forwards, Veitrop center, Donald and Palm guards.

Pavilion—Hayden, Barnes and Krause forwards, Hume center, DeLap and Ambrose guards.

Referee—E. L. Dubs. Umpire—Smith.
