**Capital and
 Labor Must Be
 Kept Busy**

In the right channels to keep
 the nation prosperous. National
 prosperity is the collective result
 of local prosperity and "con-
 fidence" is the mysterious thing
 back of both. Confidence is nec-
 essary in all walks of life to
 bring success, for without it
 there can be no future. Our own
 town needs the confidence of her
 people. A town is known by its
 works just as a man is known by
 his deeds. There's no better way
 to show your confidence in the
 town than to be known as a
 home owner and no quicker way
 to gain your share of the inde-
 pendence for which our Revolu-
 tionary fathers fought than to
 own a home. Better start today
 —come in and talk it over with
 us—we can give you a good idea
 of the total cost as well as the
 kind of timber you'll need.

NATIONAL POTATO MOVEMENT

THE recent announcement that large quantities of potatoes are being imported into the United States lends interest to a statement prepared by the bureau of statistics, department of commerce and labor, showing the imports and exports of potatoes during a term of years. While the production of potatoes in the United States is usually sufficient to meet the requirements of its population, there have been a number of occasions following short crops in the United States on which considerable quantities were imported. On other occasions, when there were shortages abroad and large crops in the United States, considerable quantities were exported. The total imports of potatoes into the United States in the last ten years aggregated 22,845,634 bushels, valued at \$19,985,770, or about 45 cents per bushel, this valuation being based upon the wholesale price in the countries from which imported, and does not, therefore, include the cost of transportation or duties paid, the rate of duty being 25 cents per bushel of 60 pounds, both under the present law and its immediate predecessor. The exports of potatoes from the United States during the same decade amounted to 10,990,566 bushels, valued at \$8,413,675, an average of 77 cents per bushel.

Potatoes imported into the United States come chiefly from Canada, Mexico and Bermuda in America, and Scotland, England, Ireland, Germany and France in Europe, while in recent years small quantities have also been brought from China, Australia and the Canary Islands. The potatoes exported go chiefly to the West Indies, Central America and Canada, the largest quantities usually to Cuba, Canada and Panama, and lesser quantities to other Central American states and the West Indian Islands. Small quantities have also been sent in recent years to China, Hongkong, British Guiana, Philippine Islands, French Oceania and certain of the South American countries, but practically none to Europe, which, although a large consumer of potatoes, is also a large producer.

The world's potato crop, so far as it can be measured statistically, runs between 5,000,000,000 and 6,000,000,000 bushels per annum, but these figures do not include the production of China, North Africa and most of South America, the original home of the potato, which was found under cultivation in South America by the Spanish discoverers and transplanted to Spain and thence to other parts of Europe. Germany is by far the largest single producer of potatoes, her total crop for 1909, the latest available figures, being 1,716,000,000 bushels, against 1,173,000,000 in European Russia, 613,000,000 in France, 450,000,000 in Austria, 184,000,000 in Hungary, 137,000,000 in Great Britain, 129,000,000 in Ireland, 99,000,000 in Canada and 377,000,000 in the United States.

New York is the largest potato-producing state in the United States, her product in 1910 being 44,500,000 bushels, against 35,000,000 in Michigan, 28,000,000 in Maine, 28,000,000 in Pennsylvania, 25,000,000 in Wisconsin, 15,000,000 in Ohio, 12,666,000 in Illinois, 12,250,000 in Iowa, and about 10,000,000 each in Minnesota and New Jersey, while all the remaining states are represented with totals ranging from 1,000,000 to 8,000,000 bushels each.

The largest importation of potatoes during the past decade occurred in 1909, being 8,333,000 bushels; the largest exports of the decade occurred in 1911, being 2,333,000 bushels.

**ALTERATIONS AT THE
 NEW LIVERMORE HOTEL**

In order to provide more light the Livermore Hotel company is putting in a new window on Fourth street, back of the First National bank, which will let sunshine into what will eventually be a part of the new hotel lobby. When the bank gives up the present room at the corner of Fourth and Main streets, the hotel will use the room for its office and lounging room, and the main stairway to the guest rooms will ascend from the rear of the lobby.

GIVES QUICK ACTION

The Whitman Drug company reports that A SINGLE DOSE of simple buckthorn bark, glycerine, etc., as compounded in Adler-i-ka, the new German appendicitis remedy, relieves constipation or gas on the stomach almost INSTANTLY.

SOME FACTS CONCERNING YOUR WATCH

The balance wheel in modern watches makes one revolution each time the watch ticks. The watch ticks five times each second, 300 times in one minute, 18,000 times in one hour, 432,000 times in one day and 157,680,000 times in one year.

A variation of 1-1,000 part in the vibration of the hair spring which controls the balance wheel will make a difference of fifteen minutes in one day.

If the watch owner will think a moment he will see that it is necessary to give the watch fairly good treatment in order to get good time out of it.

A Speck of Dust,
 rancid oil, cracked jewels, loose screws and many other things will spoil the delicate adjustment.

As an expert of many years experience in watch repairing I solicit your patronage, and guarantee all my work to give satisfaction.

**GAS IN STOMACH
 AND BOWELS**

Produces all sorts of annoying symptoms, which very often become chronic. Excessive nervousness and heart pressure, difficult and spasmodic breathing, sighing, seems as if patient cannot take a deep breath. Lump in the throat and chest, with pressure, pain and obvious feeling around the heart region. Empty, gnawing and gas-filling at the pit of your stomach, relieved by eating. Small quantity of food makes you feel as if a heavy meal had been taken. Excessive rumbling in abdomen and stomach with belching, gassy feeling after eating. Startling during sleep with a sort of a fear and apprehension. Frequent, hard or limber stool and gas to stool, especially on right side. Pain in back and top of head and constipation.

That's all from a nervous stomach full of Gas, and all permanently done away with by BAALMAN'S GAS-TABLETS.

These powerful tablets are sold for 50¢ by every druggist, or sent direct to Hahemann Pharmacy, 326 Butler St., San Francisco.

**NO CHILDREN'S PENNIES
 FOR LIBERTY BELL TRIP**

Needed, Since Southern Pacific Has Offered to Defray Expense of Hauling Belle Across the Continent to San Francisco Fair

The school children of San Francisco and of California will not be called upon to contribute their nickels and dimes toward a transportation fund to bring the famous Liberty Bell to San Francisco for the Panama-Pacific International exposition.

The Southern Pacific company, through its officials in San Francisco Wednesday made an offer to the exposition directors to transport the Liberty Bell from Philadelphia to San Francisco free of charge. The railroad offers to bring the bell out and give it as much attention throughout the trip as is now given it in its present resting place in Philadelphia.

The state of Pennsylvania values the Liberty Bell as much as it does the history connected with it, and the Southern Pacific officials are prepared to see that provisions are made for a company of Pennsylvania militia to guard the bell on its long trip across the continent.

The trip of the honored old bell that in 1776 announced the signing of the Declaration of Independence will be a triumphal procession. At every station in the country where the train stops—and it will have to stop at nearly all of them—thousands of school children and their parents will gather to see the bell that tolled the greatest story that has ever been published in the United States. It is planned to erect a small belfry on a car and to hang the bell in that for the trip across the continent. United States history began with the tolling of the Liberty Bell, and there is not a native of this great country who does not want to see the beginning of the history of the United States.
