The Best Advice On Lumber Costs The Least Money

and when we say to prospective homebuilders that "now's the time to build," we are offering you really sound advice. No matter what you have heard cheaper lumber, that you're or about you build it from us be the safe side if right now. We haven't in the lumber business for years for nothing—we know a thing or two, and we're willing to admit that you do, too, but in the face of all this talk nowadays about timber conservation, we believe you'll agree that lumber has a fixed value, and that by delaying the building of your new home you will gain nothing but inconvenience.

We believe we can convince you the above is good advice—let's talk it over.

INCREASE AGRI... AID ... AGRICULTURE THE ... OF BILL IN CONGRESS

Would Have Nation Give Annual Appropriation Which Will Be Divided for Such States as Contribute Equally, to Enlarge Farm Product

WASHINGTON D. C., Jan. 18.—A bill of great import was introduced in the house of representatives yesterday by representative Lever of South Carolina, and was presented in the senate jointly by Senatorss Hoke Smith and Page. The bill provides for the further endowment and support of agricultural colleges to enable them to assist in getting into practice the best methods of agriculture evolved by operation of the plan of establishing and maintaining agricultural colleges and experimental stations in the various states.

This measure is the joint work of the National Soil Fertility League, the executive committee of the colleges of agriculture and the statesmen above referred to. It is in line with the president's recommendation in his address at the national conservation congress at Kansas City, Mo., September 25, 1911, it has the suport of the house leaders of both parties, and it may be regarded as an omni-partisan measure.

Acording to the general plan out of which this measure springs, it is proposed that the procedure shall consist of getting into general practice the best methods known of scientific agriculture by employing trained agriculturalists, or practical farm demonstrators, skilled in the most approved methods of farm practice, to take to the farmer on his own farm the information or knowledge that will enable him to interpret and adapt to his local conditions the best methods of farming. In plain terms, it will as rapidly as possible place a trained, practical man, selected and directed by the respective state agricultural colleges, permanently in each agricultural county of the United States, and enables the farmer to become master of his calling aided by the best services the country can furnish, and supported by federal and state funds.

According to the provisions of the bill there will be an appropriation beginning at the rate of less than one cent per capita, and will approximate three cents per capita by the time the annual appropriation shall have increased from $500,000 per year, the starting point, to a little over $3,000,000, when it reaches the maximum. To have a clear idea of the distribution of these funds it must be understood that each state receiving its share of the fund must appropriate an equal amount for this purpose.

Most authorities have expressed the belief that the operation of this plan will in a few years increase the farm output at least 50 per cent. That means an increase of wealth per capita of about $50 per annum, and it adds to the country's assets $4,500,000,000 in national resources. The average acreage of Europe gives from two to three times the yield of American farms, notwithstanding their soil has been producing for centuries more than the lands have been cro... here.

In the presid... promises t... at's opinion thi... ve the most valuable con... ctive legislation of recent years. Speaker Clark says the mind cannot grasp the benefits that should grow out of this movement. Majority Leader Underwood expresses the belief that it will do more good to more people than any other single enactment in in a generation. H. H. Gross of Chicago, president of the National Soil Fertility League, says he has submitted this specific plan to every agricultural college in the land, there has been no adverse criticism, and about 95 per cent have strongly endorsed it; it has been approved by about 400 public bodies, such as boards of trade, commercial associations, business men's clubs, women's clubs, etc., and nearly a thousand influential newspapers have expressed a willingness to support it.

Your Money Back if You Are Not Satisfied With the Medicine We Recommend.

We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxative or cathartics do much harm. They cause a reaction, irritate, and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons, and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associate organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent chronic ailments, if taken with regularity for a reasonable length of time. 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold only at our store—The Rexall Store. Star Drug Store.
