KLAMATH FALLS, OREGON, MONDAY, MARCH 11, 1918

Price, Five Cents

FAULDER IS GUILTY IN FIRST DEGREE

FOUR HOUR VERDICT

ONE ARREST MADE OF DEFAULTING WITNESS AND SOME FEW TRAIL LIQUOR CHARGES MAY ALSO COME LATER

Quality of murder in the first degree," was the verdict of the jury in the case of Nobel Faulder, brought in the case for just four hours, Judge Henry L. Benson completing his charge to the jury, which had begun at 7 p. m., about 7:45 o'clock. It was a little before 12 when they notified Paulson, Clarence O. Morgan and Henry Trout that they had agreed. The court had notified them that if they failed to reach a verdict by midnight that he did not wish to be disturbed, but that if they came to an agreement prior to that hour to summon him to receive the result.

A little over half an hour from the time the agreement was reached until the judge received from Foreman S. R. Hill the announcement of the conclusion of the jurors. The court announced that Wednesday, at 10 a. m., would be the time for passing sentence on the convicted man. When the verdict was announced, Norma Faulder, brother of the prisoner, practically collapsed twice in emotion.

It is not generally known that owing to a threat which Faulder is alleged to have made against District Attorney Dell V. Kuykendall and Assistant District Attorney Charles J. Ferguson, those representatives of the state kept a pistol handy during the progress of the trial lest the accused man might come into court in a desperate mood or armed with some weapon surreptitiously passed to him through a window or door of the jail.

The gun the lawyers had was in a small grip which always sat close by their table. It is understood that after the trial commenced they learned of Faulder's statement, so they turned their table in order that they might more nearly face him at all times. It is asserted that the accused man said in the hearing of one of the prisoners in the jail, "I'll get both of those little fellows before this is over."

The trial is understood to have cost the family of Faulder about \$1,000 or 1,000 pounds sterling, which was sent from Australia for his defense. The cost to the state could not be learned today, but it is not believed to have been as great as that of the defense. Probably \$1,000 was spent from the secret fund to which the state had access. The state spent nothing for expert witnesses, although at one time it contemplated hiring Dr. Williamson of Portland, Steiner of the state insane asylum at Salem, and Paloe of Eugene to give evidence on insanity.

Whether the defense will appeal the case or make a motion for a new trial could not be learned today, as Attorney C. M. O'Neill, counsel for Faulder had no statement to make on the subject at this time.

But the case has not ended as far as witnesses are concerned, as Joseph Paulson, who had been subpoenaed as a witness for the state, and failed to come to court in time to give his testimony, has been arrested by Sheriff William B. Barnes on a bench warrant issued by Judge Henry L. Benson. District Attorney Dell V. Kuykendall proposes to find out just why Paulson did not come to Klamath Falls immediately when the subpoena was served on him, which was done, the district attorney said this afternoon, in plenty of time for Paulson to have been on hand and given his evidence. The witness did not appear until Saturday, about the time Assistant District Attorney Charles J. Ferguson was concluding the argument in the case.

Sheriff Barnes had telephoned to Paulson twice and asked him to come in without a subpoena, but even though he offered the man a personal gratuity of a \$10 bill, Paulson would not come. Then the subpoena was issued and served, which failed to draw Paulson. Following this the court issued the bench warrant on which Paulson was apprehended. Another proposition which may

able experience in public speaking, and as all the addresses will be carefully prepared, will enable their hearers to get a clear idea of the issues to be voted upon. This plan is followed by universities in several of the other states.

As the views of the students are as diversified as those of the people of the state, sides of all important questions will have defenders. Different bodies of students on the campus have, Single Tax, Socialist, Woman Suffrage, Taft, and many other brands of clubs.

MISS TELFORD AFTER HONORS

Miss Jessie Telford, a graduate of the local high school last year, is trying for oratorical honors at the Albany University. She recently occupied first place on the team from that school, and will take her place with the rest of the team when they soon journey to the Willamette Valley to compete against the Willamette College.

New fish licenses issued up to Saturday night were to Dan O'Connell, Morris O'Connell, W. L. Welch, C. C. Murray, Marvin Hilton, R. E. Smith, Burge Mason, Albert L. Pierce, E. L. Johnson, W. H. Little and J. R. Little.

ST. PATRICK TEA LADIES' AID PLAN

SILVER OFFERING WITH NOVEL ALTERNATION OF ENTERTAINMENT AND REFRESHMENTS WILL BE GIVEN

HOUSTERS WILL UNDERTAKE THE ORGANIZATION OF A Y. M. C. A. FOR KLAMATH FALLS.

All young men who are interested in the organization of a Y. M. C. A. in Klamath Falls, and it is probably that steps will be taken toward this end at the meeting tonight. Efforts will be made to get the secretary of the state association to visit this city and complete the organization as soon as sufficient membership is secured. All of the young men of the city, whether members of the club or not, are invited to be present at the meeting tonight.

A cordial invitation is extended to all women, of whatever denomination, to attend, by the committee, which consists of Mrs. R. E. Wattenburg, Mrs. R. E. Hayden, Mrs. H. C. Telford, Mrs. J. J. Hales and Mrs. A. B. Livmore.

YOU CAN ASSIST THE BAND

Three members of the Klamath Falls Military Band are out of employment. It happens that they are three of the most valuable men in the organization, and should they become discouraged and leave town the band would be badly crippled. It behooves employers of any kind of labor in Klamath Falls to encourage the band by giving employment where possible to its members. Anyone needing a bookkeeper or help of any kind will confer a favor on the band by notifying the director, Ivan Daniels, at phone 1871, or Allan Sloan, the secretary.

C. F. Noel returned Thursday from an extended tour of Southern California. He visited Los Angeles, Santa Barbara and other cities of the South. He says there was plenty of rain while he was down there, besides the cold breezes that the farmers were so anxiously wishing for.

JURY CASES MAY BE TAKEN UP NOW

TWO ISSUES FOR RECOVERY OF MONEY LIKELY TO BE IN CIRCUIT COURT BEFORE MOTION DAY IS FIXED

Judge Henry L. Benson does not expect to fix the open date for hearing motions and smaller matters until later. The probability is that the two jury cases, Lewis vs. Campbell et al, and G. D. Wilson vs. Theodore and Nellie Nelson, both for the recovery of money, will be taken up first.

NEW PHARMACY SPLENDID PLACE

CLARENCE UNDERWOOD'S NEW ESTABLISHMENT IN PELICAN STRUCTURE IS HANDSOMELY FITTED UP

That this city has one of the best and most up-to-date pharmacies along the coast is demonstrated by the Clarence H. Underwood new establishment in the White Pelican Hotel building. The store is complete in every detail. The woodwork is the best that money can buy, and the decorations are something of real merit in handicraft. Perfect cleanliness, an essential element, which should be found in all drug stores, is a characteristic prominently observed throughout the store.

The floor is of the new type of inlaid marble, which adds much attraction to the general appearance of the store. The compounding room has all the latest additions of paraphernalia to be used for medical purposes. In fact the store is complete in every respect, and speaks well for the energy that is manifesting itself in this city.

YOUNG MEN'S CLUB TONIGHT

HOUSTERS WILL UNDERTAKE THE ORGANIZATION OF A Y. M. C. A. FOR KLAMATH FALLS.

A meeting has been called for 8 o'clock tonight at the coffee house by the Hooster Club, which is composed of fifty or sixty of the young men of the city, including students of the county high school.

Members of the club are interested in the organization of a Y. M. C. A. in Klamath Falls, and it is probably that steps will be taken toward this end at the meeting tonight. Efforts will be made to get the secretary of the state association to visit this city and complete the organization as soon as sufficient membership is secured. All of the young men of the city, whether members of the club or not, are invited to be present at the meeting tonight.

TROUT PROMISED BY COMMISSION

KLAMATH COUNTY RECOGNIZED AS THE BANNER SPORTSMAN'S RESORT OF THE STATE—LETTER FROM FINLEY

The following communication has been received by the Commercial Club in reply to their application for trout from the state fish and game commission:

"Receipt is acknowledged of your application for 40,000 rainbow trout to be released in the waters of Four-Mile Lake and 1,000,000 brook trout to be released in other public waters of Klamath county. The number of trout to be assigned to all applicants, of course, will depend upon the number of applications received and the stock available for distribution, but the allotment to be assigned to you will be practically the number requested.

"This department realizes that Klamath county is the banner sportsman's resort of the state, and it is the desire of this office that a liberal supply of both game fish and birds may be available for distribution in that county.

"We are exceedingly glad that your Commercial Club has taken such an interest in obtaining more game fish and birds to replenish that section of the state, since it will not only encourage this department to work with renewed energy, but will be the means of awakening all your citizens to the importance of preserving and propagating our wild life. Your Com-

mercial Club, by working in close conjunction with the state board of fish and game commissioners, of which your Mr. Stone is a valuable member, is in a position to bring thousands of dollars into Klamath county. We are very much interested in that part of the state, in propagating and keeping up the abundance of game, but unless careful protection is given, and unless we work along right lines, great numbers of people who come in on account of the railroad facilities will soon deplete the streams and kill off the larger game.

"The co-operation of all true sportsmen is asked in the matter of the six-inch trout law. The object of the law is to give the fish an opportunity to reproduce at least once before they are killed. The more generally this law is observed the better the fishing will become, all other things being equal.

"Due notice will be given previous to the date of any shipment, and a notice by letter or wire sent immediately before the shipment, telling you when to expect the same.

Distribution generally begins in May and continues throughout the summer and fall months. Yours very truly,

WM. L. FINLEY, State Game Warden.

By E. S. Cattion, chief clerk.

SUNDAY BRIDES START LIFE TOUR

TWO COUPLES MARRIED BY REV. GEORGE H. FESSE, AND WILL MAKE THEIR HOME IN THIS CITY OF BUTLEY

Two weddings yesterday started four young people in married life in this city. Both ceremonies were performed by Rev. George H. Fesse, pastor of Grace M. E. church. The marriage of Miss Florence M. Foster, the daughter of a well known farmer of the Round Lake region, to Herbert B. McLane, took place at 10:30 a. m., at the parsonage. Miss Foster was formerly well known as a teacher in the Klamath Falls city schools, withdrawing last year, to the regret of the authorities. Mr. McLane is a rancher, located about six miles from the city in the direction of Midland, is a graduate of Oregon Agricultural school at Corvallis and a creamery expert.

The other wedding at which Rev. Fesse officiated was at 3:30 o'clock last night, at the residence of H. G. Wilson, on Jefferson street, on which occasion Miss May Nipped of Grants Pass became the bride of August Webber, a carpenter of this city, formerly of Grants Pass. Miss Nipper and her father came in from their home city on last night's Southern Pacific train for the wedding. Mr. and Mrs. Webber will make their home in this city.

WILD GESE FLY TO NORTHWARD

Yesterday two flocks of wild geese, with probably 100 birds in each bunch flew over the city in the direction of the Upper Lake, coming from below. It was about 11 a. m.

It looks like a harbinger of a certain celebrated and joyous period of the year. Many a man who saw the flyers wished he had a gun and could bag a few.

The United States supreme court has decided that homesteaders under the timber and stone act cannot file a claim by proxy without making a personal examination of the land.

NICKEL DANCE ON NEXT WEEK

NEW STYLE OF CHARGING FOR TERPSICHOorean DIVERSION AT HOUSTONS ON SATURDAY NIGHTS

Owing to changes of heart among some of the local musicians the arrangement for the Saturday night dances at the Houston opera house have been altered. Hitherto the admission for those desiring to "shake a leg" has been 50 cents. Hereafter, it is announced, the cipher will be ob-

BIG HIGHWAY FROM CALIFORNIA NORTH

ALTERED, and a nickel will be the price of admission for the men for each dance. The women are welcome without price. If the difference of opinion continues it looks as though people might be hired to dance, rather than have to give up at the door.

By the way, on account of the Firemen's dance on St. Patrick's eve, this arrangement will not go into effect until Saturday, March 23d.

RECEIVES SAD NEWS

L. G. Comstock, proprietor of the Comstock hotel of this city, received the sad news this morning by wire from McFarland, Kans., announcing a frightful injury to his father, aged 73 years, by fire. Mr. Comstock may leave for Kansas on tonight's train.

ARE NOW OUT OF KEEPER MRS. PANKHURST'S PIPES

LONDON, March 11.—As a result of her experience in Holloway prison, where she organized a hunger strike, Mrs. Pankhurst is in the prison hospital suffering with a serious case of bronchitis, the alleged result of confinement in a damp and solitary cell. Prison officials are silent, and it is believed the hunger strike continues. Authorities are resorting to force to handle the rampant ladies.

The management of the Pavilion skating rink has just secured a number of fire extinguishers for that resort.

CHINESE CONSTITUTION IS APPROVED AT NANKING

National Assembly Table Favorable Action—Is to Elect President and Vice President and Control Cabinet. Majority Stronger Than Vote

UNITED PRESS SERVICE NANKING, March 11.—The national assembly approved the new constitution. The assembly elects a president, vice president, and controls the cabinet. A majority vote of the assembly is sufficient to pass the law over the president's veto.

LAWRENCE STRIKE END IS APPARENTLY CLOSE

Wood Alleges That Latest Offer Increases Lowest Paid Workers 18 Per Cent and Skilled Hands Something Less, Which May Be Accepted

LAWRENCE, Mass., March 11.—It is expected that the strike will end on Wednesday. The strikers' sub-committee went to Boston for a final conference with Wood and others. Wood alleges that the latest offer increases the lowest paid workers' wages 18 per cent, the skilled workers getting smaller increase. The sub-committee will settle the strike if Wood can demonstrate this.

BEATTY COMES TO GET ACCUSED MAN

DEPUTY UNITED STATES MARSHAL MAKES ARREST IN CASE OF BONANNA CHARGED WITH FEDERAL VIOLATION

Deputy United States Marshal Frank Beatty is in the city, having come from Portland to make an arrest in a case near Bonanza. The accused man, William Bassett, against whom is the charge of taking liquor on the Klamath Indian reservation, gave \$500 bond before United States Commissioner J. O. Hamaker, at Bonanza, waiving a hearing. He will later be summoned to appear at Portland, where the case will be tried in the federal court. The information against him was made by a man named Nelson.

THROUGH HERE, PLAN

DORRIS MAN SEEKS TO INTEREST LOCAL INFLUENCE IN AN IMPROVEMENT WHICH WILL PROMOTE KLAMATH BASIN

O. E. Moore of Dorris, who is a member of the organization known as the North Central California Good Roads Club, is in the city in the interest of getting Klamath county and Eastern Oregon people's influence to get the main line of the state highway built from Wood through the Butte alley to the Klamath county line. The fathers of the plan have presented the state highway commission of California, from which they hope to get co-operation.

They are anxious to get the assistance of people of the local district to demonstrate that the natural outlet of Northern California would be through Klamath county and Crater Lake to Eugene. The state of California has authorized an appropriation of \$15,000,000 for a main line highway through the state north and south. It is hoped to get co-operation from the state of Oregon to connect with the California highway, so that the same may be extended to the north through this section.

According to Mr. Moore's statement, by constructing the road through the Butte Valley section to the Klamath county line and thence on north, east of the mountain ranges, the Siskiyou and Cascade, that the largest area of agricultural lands would be served and benefited.

He asserts that the lake bed section of Northern California is the third largest body of agricultural land in the state of California, next in rank to the Sacramento and San Joaquin valleys. By following this course the route would be in touch with the largest group of fresh water lakes in the United States, save the Great Lakes in the Central states.

It would also pass through the largest irrigation project in the United States, the Klamath-California undertaking. This would also give easy access to Crater Lake, which is without comparison, and unquestionably the greatest beauty spot on the coast. From Grass Lake in Butte Valley to Odell Lake is a stretch of 200 miles, on which the heaviest grade would not exceed five-tenths of one per cent, a veritable race course for that distance.

The route is planned to reach within fifteen miles of Crater Lake National Park, which is now comparatively inaccessible from this city, especially in the winter, while at the same time the superintendent of the big reserve, W. Frank Arant, makes his headquarters here. Medford and the Rogue River country now have a good route to the park, and the new highway would make one more well directed road toward popularizing the resort.

The big highway is planned to run to Eugene, thus opening a large and desirable territory to the business of that thriving city. To say that it would help this city and vicinity in a business way is stating the case with the utmost conservatism. It is quite possible that when built it would have a link to connect it with Bend, where it would reach the road already constructed which runs up through the Dechutes country.

LAKE COUNTY FOR TAFT

Monday evening is the time fixed for the organization of the Lake County Taft Club, and the only fear expressed is that as practically every one favors the re-nomination of the President that only a few of the faithful will be present. It is therefore earnestly requested that all who favor the re-nomination of President Taft be present at the court house next Monday evening and show by their presence that they believe that the best interests of the country can best be subserved by his re-election. A special invitation is extended to ladies, for it is almost a foregone conclusion that the right of suffrage will be extended them at the next election in Oregon. The brass band will furnish music for the occasion, while a number of speakers will be in attendance. —Lake County Examiner.
