Y. M. C. A. PLANS OF BOOSTER CLUB

COMMITTEE TO REPORT ON MEMBERS AND ONE TO COMMUNICATE WITH PORTLAND ASSOCIATION OFFICERS

A very enthusiastic and spirited meeting of the Booster Club was held last evening at the court house, in which many matters of importance were brought up for discussion.

This was the first real live meeting that the club has had since its organization, and judging from the amount of enthusiasm that has been aroused, there will be something doing. The first matter brought up was a suggestion that the name of "Booster," which has been abused, be changed. The purpose of last night's meeting was to further the idea of a Y. M. C. A., and a committee composed of Fred Dunbar, Lawrence Mahaffey and Ord Arnold was chosen by the chairman to report at the next meeting a number of names of prospective members to be voted on by the club.

Thursday night should be the regular meeting night. G. A. Krause, formerly president of the organization, stated that the present manner in which the club was being carried on was not what had been intended at the first place, and he gave examples of Y. M. C. A. activity in other

cities. He suggested that a committee be appointed by the chairman to confer with the Y. M. C. A. authorities of Portland, to see what could be done for the club here. Dr. W. A. Leonard was next called upon to give his views concerning his idea of a Y. M. C. A. in this city, and how best to maintain such an organization. He was at one time correspondent for the Idaho and Utah movement. He said that in order to maintain an organization of this kind in which the proper element should prevail, it was necessary to have some other motive than athletics. The boy or young man must have some recreation or place in which to enjoy himself once in a while, he said, and why not a Y. M. C. A.? It would not only develop each individual physically, morally and mentally, but give him a prestige that he could not attain solely through athletic sports. There are plenty of ambition young men in this town, he said, who would gladly devote time to help supporting an organization which would not only benefit them personally, but the city, as well. Dr. Leonard said that if they got out and dug hard, showing the right kind of spirit, he was pretty sure they would receive support from the business and professional men of this city.

Dr. Westerfeld expressed himself as favoring the movement very strongly, and said he would lend every possible aid for its maintenance. It was suggested that a movement be put on foot to raise from \$5,000 to \$10,000 for the purpose of building club rooms, so that the organization would have a firm foundation.

LAKEVIEW AUTO BEGINS SEASON

FIRST STAGE TRIP TO NEIGHBORING COUNTY'S SEAT STARTS THIS MORNING, AHEAD OF LAST YEAR'S DATE

The first auto stage to Lakeview this year left this morning with a load of passengers. W. L. Clapp, who operates the auto line, thought the roads were sufficiently hard to permit the machines running, and had been wishing to open the season as early as possible this year. Last year it was not until the 15th of April that any attempt was made, as unsettled weather conditions made it almost impossible to travel. The passengers that left this morning were Mrs. James Ryan, Louis Blank, who recently came here from North Dakota, and is going over to look at some land he purchased there; Mrs. Jack Kimball, Joe Houston, Walter Dyan and Louis Gerber. Ray Court is driving the car, and says he expects to reach Lakeview about 6 o'clock tonight.

BOX FACTORY IS GOING GOOD GATE

CALIFORNIA FRUIT CANNERS' SHIPPIGTON PLANT, WHICH CHANGES HANDS JUNE 1, MAKING MUCH SHOOK

With a crew of 41 men, the California Fruit Canners' Association's box factory at Shippington is going the same gate on its last lap that it did during the height of last season. June 1st the factory is to be turned back to the control of the Long Lake Lumber company, and while the cannery's organization is running it it proposes to have a whirlwind finish, and turn out all the product that it can. Manager Charles McGowan stated last night that last week the factory turned out eight cars of box shooks. It looks as though this city would not get the new box factory that the company proposes to build, he said, as up to this time there has been nothing tangible offered to the company in the way of a site, which it requires to be given it if it is to stay in the local field. He stated that he would go with the company wherever the new factory is located.

HORSE THIEVES IS ACCUSATION

TWO MEN CAUGHT AT BONANZA WITH STEEDS ALLEGED TO BE SOME OF THOSE TAKEN NEAR

Two men charged with horse stealing are held at Bonanza, it being alleged that the offense was committed on the Klamath Indian reservation almost a week since. It is understood that part of the horses taken were found in possession of the two men, whose names are McNair and Hasten. When Superintendent Jason Watson of the reservation heard that the horses had been taken and that the thieves had taken a course toward Bonanza, he telephoned to United States Commissioner J. O. Hamaker there to look out for the men and hold them if they came along. The commissioner kept his optics on the alert, and when the two men and the horses came to Bonanza he had them placed in the bastille.

It could not be learned just what horses were taken, although it is known that four were missing from the stable of Henry Jackson, a prominent rancher near Yainax, while a stallion was taken from the stable of George Brown. Mr. Brown had gone to Dorris to visit his sick father, and when those left to look after the stock went to the barn they found the stallion gone. It was only recently purchased.

United Press Service
BERLIN, March 12.—Herr Von Puttkamen, former provisional governor, speaking in the Prussian senate, demanded that the government adopt a drastic method to end the strike. MAYOR ASSESSED; DENIES OWNING

PLACE AGAINST WHICH AMOUNT STANDS IN HIS NAME ON CITY LIEN DOCKET, SUGGESTS LOOKING UP OWNER

When City Recorder Thomas F. Nicholas at last night's council meeting saw passed around a paper showing that his residence was not connected with the sewer on the street, he asked Mayor Fred T. Sanderson for the floor, which the mayor cheerfully granted.

"My position in this matter is some what similar to that of other people who are not any too well 'hooked up' to this world's goods. It reminds me of a story I'd like to tell. I knew a fellow named Jacob Farley whom I once met in the spring of the year, and I asked him how he was getting along. 'Well,' he said, 'last spring I had some four and tobacco, and this year I have some new shoes, but I'm out of bread.'" (Laughter.)

"I notice that on page 8 of the city lien docket there is an assessment which stands against the mayor of \$162.50, to draw 6 per cent from April 1, 1911. It seems that I've been taxed for a sewer which I got to the property line, but not connected to the house, while he has the connection on the house, but the sewer assessment is not paid. It looks like it was about horse and horse."

"Must be a mistake about that, judge," said the mayor.

"No, it's there," declared the recorder.

"I didn't own the property when the lien was created. You can't hand the mayor anything like that. You'd better look it up and see who it belongs to."

"I don't have to do that. It's a lien against the property."

SCHOOL BOARD IS GREATLY PLEASSED

AT DEBATE RESULTS

A CONGRATULATORY LETTER, BASED ON VICTORIES OF HOUSE DEBATE, SENT TO PRINCIPAL W. E. FAUGHT

Prof. W. E. Faught, principal of the Klamath county high school, is in receipt of a congratulatory letter from the county school board on the victories of the Klamath high school debaters over the Ashland and Grants Pass speakers.

The letter, which was written by the members of the State Debating League, and as soon as the information is forthcoming it will be determined whether the local team will go away to meet the foe, or have the latter come to this city. The letter from the county board follows:

"Dear Sir—We, the members of the members of the Klamath county high school board, wish to express to you, as principal of the high school, to Forest Hill, Miss Florence Short and Edwin Cox, members of the debating team who have so fairly and honorably defeated Ashland high school and Grants Pass high school respectively in the recent debating contests, and to Prof. H. D. Coates, who so efficiently managed the team, our heartfelt congratulations.

The victory was fairly won. The debate exhibited much talent on the part of the debaters, and also indicated that they had spent many hours in careful study, research and drill. We believe that this work fairly indicates the character of the work of our school and the spirit that prevails in our student body.

"We wish you success in the coming debate, and hope that you may be nothing less than the champion of Southern Oregon.

"We wish to state in case that our debaters win the championship of Southern Oregon we will place a suitable trophy in the assembly room in honor of your team.

"Yours for success,
"HIGH SCHOOL BOARD,
By Wm. S. Worden, County Judge,
S. T. Summers, Commissioner,
C. G. Merrill, Commissioner,
J. G. Swan, County Superintendent

YUAN PENNED IN PALACE FEARING ASSASSINATION

Foreigners Virtually Prisoners—The Streets Covered With the Bodies of Slain, and Condition May Cause an Epidemic

PEKIN, March 12.—Yuan is a prisoner in the palace. Three Manchurian regiments are on guard at the entrance. Yuan fearing assassination. Foreigners are virtually prisoners. The outcome is uncertain. The streets are covered with headless, decomposed corpses. The stench is frightful, and there is danger of an epidemic. The slain are citizens, and mostly coolies. None are soldiers. The foreign quarters have cannon, rapid fire mounted, and picked gunners on duty. At Canton mutineers captured the river forts and threaten to sink river vessels. The native city is looted. Fighting is progressing there. Rebels with mounted guns hold the admiralty buildings.

"I notice that on page 8 of the city lien docket there is an assessment which stands against the mayor of \$162.50, to draw 6 per cent from April 1, 1911. It seems that I've been taxed for a sewer which I got to the property line, but not connected to the house, while he has the connection on the house, but the sewer assessment is not paid. It looks like it was about horse and horse."

"Must be a mistake about that, judge," said the mayor.

"No, it's there," declared the recorder.

"I didn't own the property when the lien was created. You can't hand the mayor anything like that. You'd better look it up and see who it belongs to."

BRYAN URGES REFORMS AT CONSTITUTIONAL MEETING

Recall Should Apply to All, Any Judge Being Swerved by Fear of It Being Classed as Unfit to Hold Place, Anyway

United Press Service
COLUMBUS, March 12.—William J. Bryan addressed the constitutional convention. He urges the initiative, referendum, recall, including judiciary; direct election of senators, better protection of labor, employers' liability, state income tax and taxation of franchise. He said in part: "The recall should apply to all officials. The judge who would be swerved by fear of a recall would not be fit for the place, anyhow."

VERY DEEP SNOW ON TRIP TO WEST

BLEAK AND WINTRY TRIP LASTING SIX DAYS MADE BY MAN WHO SEEKS ADVANTAGES OF KLAMATH COUNTY

W. E. Gilbert, who arrived in this city after a six-day trip from Watsonville, Ill., says that the snow was from four to fifteen feet deep on route, and where it had blown up against the car window and start there was no chance to see out. The fields were literally covered with a blanket of snow, rendering any form of agriculture simply impossible. Mr. Gilbert said that from the time he left Illinois he looked in vain for any sign of vegetation of any sort. His gaze was met only by the endless trails of snow, which for miles and miles around the country sides stretched out of sight. The coldest winter that has visited the West for at least thirty years came there the past winter.

Mr. Gilbert is looking the country over here, and expects to locate if the conditions prevail, as advertised. Anything but the best and the everlasting cold and barrenness in what he is looking for, he says. He received some literature from the secretary of the Chamber of Commerce, G. E. Oliver, and came here to try his lot with the rest of the homeseekers.
