PROMINENT MEN TALK ON BENEFITS OF LYCEUM

A very interesting talk and discussion, in so much that the student became more familiar with people who had visited many parts of the world, and could be well enlightened on many subjects that they would not otherwise have done. In a town of this size it is hard enough matter to get the right kind of speakers to come here without a good sized bonus, and this opportunity of hearing talented people who are not only up in the walks of life, but can dispense with accuracy the real things that it has been their privilege to hear and see. The only way that these courses can be maintained will be for the student to get all his friends and acquaintances to attend them.

FOURTEEN KNOWN DEAD IN EXPLOSION

Church Improvements The congregations and attendants at the Grace M. E. church Sunday were very much pleased with the appearance of the interior of the church since the improvements have been made. The plaster on the ceiling had become loosened, and caused a great deal of annoyance, and this has been removed and replastered. The ceiling and walls have been retinted, and the interior now presents a very agreeable appearance.

WILL PLAN TO DISPOSE OF LAND

WASHINGTON, March 18.—What shall be done regarding the railroad grant lands for which the government is now suing is a question which has been discussed to some extent by the Oregon representatives and officials of the department of justice. It is probable that the senators and representatives will begin soon to consider the form of a bill to be introduced after it shall have been submitted to the attorney general. In a general way, although subject to revision and amendment, the bill is likely to provide:

CONGRESS WILL HAVE TO PASS BILL TO PROVIDE FOR SALE OF S. P. GRANT AFTER SUIT IS OVER

First—That the suit brought by the attorney general is ratified by congress and declared to be equivalent to forfeiture of the railroad's grant by congress.

Second—That the persons who bought railroad lands prior to April 30, 1908, shall be permitted to confess judgment of forfeiture and sale, and have preferential right for six months to buy the same lands from the government at \$5.50 per acre.

Third—That no further suits shall be brought against innocent purchasers unless they be filed within one year.

Fourth—That the 33,000,000 acres of unsold lands shall, when the decree of forfeiture is ratified by the supreme court, be opened to actual settlers under the rules and regulations of the interior department, which means the drawing system, also that no lands shall be disposed of through scrip applications.

The state delegation will also probably discuss what shall be done in view of the adverse report by the department on Senator Bourne's innocent purchaser bill.
