and be happy the rest of your life. There's no satisfaction like that born of the knowledge that you have a home of your own. And if you'll follow our advice and Build Now, you will always be satisfied that you exercised good judgment. We believe this after watching the lumber market for years. Not in years have we been able to offer such excellent grades for all classes of construction—lumber of real quality. This is not bargain counter lumber, but it has a fixed market value, and by keeping pace with the times and buying only from manufacturers who mill with the most improved machinery we have secured absolutely the best values our money could buy. If you're interested we want to figure with you.

TRADE WITH MEXICO

TRADE of the United States with Mexico is showing the effect of the disturbed conditions in that country. This is especially true with reference to exports which show a much greater decline than imports. Exports to Mexico during the last year show a fall of about 20 per cent when compared with the immediately preceding year, while imports also show a slight decline, but less than that of exports. The total value of exports to Mexico during the twelve months ending with January, 1912, the latest figures of the bureau of statistics, department of commerce and labor, is \$51,371,987, against \$64,671,659 in the corresponding months of the immediately preceding year, a decline of about \$13,000,000, or an average falling off of a little more than \$1,000,000 a month during this period. Imports from Mexico during the same period amounted to \$59,227,516, against \$59,981,890 during the corresponding period of the preceding year, being less than \$1,000,000 decrease.

The falling off of \$12,000,000 in the exports to Mexico in the twelve months ending with January, 1912, becomes even more apparent when contrasted with our trade with other parts of the world. Exports to South America, for example, show an increase of 25 per cent in the seven months of the preceding year; those to Cuba and the other West Indies a slight increase, while to Mexico the exports during the seven months ending with January, 1912, decreased nearly 25 per cent, and during the year, as indicated above, about 30 per cent. In every month since April, 1911, the value of merchandise exported to Mexico has been less than that of the corresponding month of the preceding year. April, 1911, having been, in fact, the only one of the past twelve months which did not show a decline in exports to Mexico when compared with the corresponding month of the preceding year.

Manufactures form by far the largest part of our exports to Mexico under ordinary conditions. Of the \$60,000,000 worth of domestic merchandise exported to Mexico during the fiscal year, 1911, manufactures of iron and steel alone amounted to over \$20,000,000; cars, about \$2,000,000; boots and shoes and other manufactures of leather, about \$2,000,000; cotton seed oil, nearly \$2,000,000; lumber, nearly \$3,000,000; scientific instruments more than \$1,000,000; chemicals, chiefly manufactured, over \$1,000,000; explosives, nearly \$1,000,000; automobiles, over \$500,000; agricultural implements, over \$500,000; glass and glassware, nearly \$500,000; manufactures of India rubber, nearly \$750,000; furniture, about \$750,000, and a large number of other manufactures in less sums, while in other articles the reports of the bureau of statistics show corn to the value of nearly \$5,000,000 and meats about \$2,000,000, in each case a material increase over the preceding year.

"Official National League"

CORK CENTER BALL \$1.25 Each

The Cork Center makes a ball that players can depend upon. The ball plays evenly, as good in the Ninth Inning as in the First. It makes the game interesting to the spectators, as it is lively throughout the game. Cricket may be all right with a dead ball, but Base Ball is American, and the ball Americans want has got to be lively. There never was such interest in the World Series games as in 1910 and 1911. The Cork Center balls were used exclusively in these games, and for Twenty Years more all World Series games will be played with Cork Center balls.

examination of the latest official publications of the Mexican government received at the bureau of statistics, shows a falling off of about 10 per cent in her imports from the United States, and approximately 17 per cent in her imports from all other countries, during the six months ending with December, 1911. Her exports to the United States in the same period shows a decline of about 8 per cent. The share of Mexico's imports which were drawn from the United States in the six months ending with December, 1911, was in round terms, 55 per cent and the share of her exports to the United States about 77 per cent. In the fiscal year 1909-10 the share of her imports drawn from the United States was, in round terms, 58 per cent, and of her exports sent to the United States, 74 per cent.
