

KNIGHTS TEMPLAR COMMANDRY SURE

TINELSON'S LETTER

GRAND COMMANDER OF OREGON
SAYS IT THAT HE HOPES TO
BE HERE TO HAND DISPENSA-
TION TO FRATERS

George J. Walton of the local
Knights Templar, has received from
Henry B. Thielson, grand commander
of the Knights Templar for the state
of Oregon, a letter which, in acknowl-
edging Mr. Walton's communication
regarding the proposed commandry,
sets a tenor which augurs well for
the proposed local organization. The
grand commander says that the dis-
pensation for the Klamath Falls com-
mandry will be issued, and he may
be in person to this city.

Among other things the grand com-
mander, writes: "Your letter of the
14th makes me smile at your claim to
be considered a conservative. It is
the best example of pure boost litera-
ture I have seen, and I am free to
admit that it has accomplished the
object of all boost literature. It has
enraptured the recipient, and I am
fully converted. To tell the truth, I
did not expect to convince you of the
wisdom of starting a commandry,
but rather to convince myself that
your new fraters had the right spirit
to make it a success.

"I will have the dispensation pre-
pared, and unless I find myself able
to start for Klamath Falls within a
very few days, I will mail it to you
and visit you so soon thereafter as
possible.

"In the meantime you may consider
it certain that the dispensation will
be forthcoming and you can make
your preparations accordingly.

"I am more than pleased to hear of
your Easter celebration. I consider
the hearty and full observance of the
Christmas and Easter services as a
reliable index to the true Templar
spirit, and I rejoice to know that you
have it.

"Hoping that I may be able at a
very early day to hand you your dis-
pensation, and with hearty greetings
to you and the other fraters, I am,
respectfully and courteously yours,
HENRY B. THIELSON.

"Grand Commander."

Local Knights, and the command-
ment from which they will make their
start in order to be members of the
new Klamath Falls commandry, the
names for the dispensation of which
they have signed, are as follows:

Sherman Discovered Ill at Home, Cause of Delay to his Canvass

Friends of Charles W. Sherman Sr.
will be very sorry to learn that the
editor is laid up at Ander-
son, in Dairy, Ore., from rheuma-
tism, and was probably saved from a
very serious condition by being dis-
covered ill at his homestead by a
neighboring farmer, who called to
see some seed grain.

It appears that Mr. Sherman had
been held up, practically helpless, for
number of days when the neighbor
stopped in and found him helpless.
Mr. Sherman removed to
Anderson so that the patient could get
the best of attention.

The disabling of Mr. Sherman had
made it necessary for him to shelve
for a time, his personal canvass
among the voters of this neighbor-
hood in favor of his candidacy for
nomination to the national democratic
convention at Baltimore.

COUNT STRIKE BALLOTS OF BITUMINOUS MINERS

Tellers Will Begin to Tally Up Votes
With View to Deciding Whether
There Shall Be Peace or War in
the Hot Coal Fields

United Press Service
INDIANAPOLIS, Ind., April 15.—
Ballots in the strike referendum of
the bituminous miners arrived here
Saturday, and today the tellers will
begin a count which will tell whether
it is to be peace or war in the soft
coal fields. Secretary Perry thinks
that a compromise agreement will be
accepted.

Judge and Mrs. Noland Return
Judge and Mrs. George Noland re-
turned Saturday evening from an ex-
tended trip through Oregon and
Washington. While absent they vis-
ited in Seattle, Portland, Astoria, Sea-
side and Eugene, where Mr. Noland
had business matters to look after.
They have been gone from Klamath
Falls four weeks.

INDIAN CAPTIVE OBTAINS BOOZE

DEPUTY MARSHAL PROCEEDED TO
TOWN BY ARRESTED BRAVE,
WHO IMMEDIATELY ANNEALS
TWO PINT BOTTLES

Deputy United States Marshal W.
Frank Beatty left here Sunday morn-
ing with two prisoners charged with
furnishing liquor to Indians belong-
ing to the Klamath Indian Reserva-
tion. One of the accused men, Frank
Stebbing, is white, while the other,
an Indian, Frank Jacque, is the in-
dian to whom Stebbings is accused of
furnishing the cup that cheers and
likewise befuddles. Jacque is ac-
cused of having crossed the palm of
Clinton Charlie, another Indian, with
firewater on the Indian reservation a
couple of weeks ago.

At the time of Jacque's alleged of-
fense Beatty was on the Indian reser-
vation to get a prisoner, and, accord-
ing to his story, found Jacque and

Clinton Charlie very badly intoxica-
ted, so much so that he could not
learn from them where they had ob-
tained the joyful waters with which
they had been filling themselves. At
the time Clinton Charlie drove his
wife from their house in his drunken
rage.

Beatty went back to Portland, and
in the meantime evidence had been
gathered as to the origin of the liquor
furnished Clinton Charlie, and the
result was the information lodged
against Jacque. The deputy mar-
shal came here and went to Modoc
Point in a horse and buggy to get his
prisoner, finding that Jacque had
ridden horseback to Williamson Riv-
er, where the officer had to follow.
He placed Jacque under arrest, and
had him precede the rig, astride his
nag. The Indian got up steam and
beat his captor to Klamath Falls sev-
eral notches.

When Beatty got here he found
that Jacque has obtained some liquor,
to wit, two pint bottles, which were
alleged to have been secured for the
Indian by Stebbings, so Stebbings
was arrested. Jacque had consumed
one bottle of the fluid, and the other
was taken by Beatty. Not internally,
to be sure, but as evidence. Both men
waited a hearing before United States
Commissioner Charles J. Ferguson,
and were taken to Portland for exam-
ination by the federal court in that
city.

ARGUE FOR ROADS AT CRATER LAKE

MAJOR MORROW WILL ASK THAT
THE ROAD IN CRATER LAKE
PARK BE CONDUCTED BY THE
WAR DEPARTMENT

WASHINGTON, April 15.—Major
Morrow of Portland has arrived here
for the purpose of determining as to
the contract for dredges for deep-
ening the channel in the Columbia Riv-
er. While here Major Morrow ar-
ranged to appear before the house
committee on appropriations for the
purpose of presentation of the Crater
Lake project on the question whether
roads in Crater Lake Park should be
constructed under the direction of the
engineers of the war department or of
the interior department. Senator
Bourne says that local conditions in
Oregon make it peculiarly advisable
that this work should remain under
the engineers of the war department.
The survey and estimates have been
made by Major Morrow, hence it is
desirable that the engineers making
the examinations and estimates should
direct the construction of the
project. The work could be done
cheaper by the war department, it is
believed, because at the season when
work can be best done in Crater Lake
there is high water at Celilo canal,
which would permit assignment of
part of the engineer force to the Crater
Lake.

The gigantic liner Titanic struck an
iceberg about 10 o'clock last night
900 miles east of New York. Other
steamers came to the rescue of her
passengers, and it is believed the
ocean leviathan will be towed to port
safely.

Incomplete primary returns in
Pennsylvania make it certain that
Taft will get but 9 delegates and
Roosevelt the remaining 67. Wilson
gets the solid state delegation, and
anti-Guffey forces will control the
state organization.

OFFENBACHER IS OUT FOR COUNCIL

WELL KNOWN PROPERTY OWN-
ER DESIRES TO SIT AS MEM-
BER OF BOARD FROM FIFTH
WARD OF CITY

Up to the present time Henry Of-
fenbacher is about the only man who
has signified a willingness to become
a candidate for office at the approach-
ing city election. Mr. Offenbacher de-
sires to become councilman from the
Fifth ward. He is a heavy taxpayer,
and if elected would doubtless favor
a conservative administration.

SLOUGH WRITES AS TO CANDIDACY

DECLARES THAT POINT RAISED
AGAINST HIS ELIGIBILITY HAS
NO BEARING ON PRIMARY
ELECTION

The following letter explains itself:
"Relative to my candidacy for the
nomination for the office of county
school superintendent, I wish to say:
That I have conducted a clean cam-
paign; that I have done everything
required by law to entitle me to have
my name printed on the primary elec-
tion ballot; that the county clerk's
office prepared the ballot with my
name printed thereon; that after a
copy of the ballot had been delivered
to the printer my competitor raised
a technical point as to my eligibility
for a place on said ballot; that the
point raised has no bearing on the
primary election as the recently pub-
lished opinion of Stone & Barrett
shows (. . . the question of
the qualification of the candidate
 . . . cannot be a proper subject
of inquiry by the clerk at the time of
placing the name of the candidate on
the nominating ballot."—Stone and
Barrett); therefore, my name ought
to be on the ballot now being dis-
tributed.

"Of course, it is the privilege of
any voter to write my name in the
blank space under the name of my
competitor. I have been urged to
push a vigorous campaign in this
direction, but shall not do so, because
of the stringent provisions of the pri-
mary election law against electioneer-
ing on election day and the lack of
time to instruct the voters before that
day.

"I wish to thank my friends for
their very hearty support which
would, undoubtedly, have resulted in
my nomination had the matter been
allowed to proceed in a lawful and
orderly way. Very respectfully,
"W. S. SLOUGH."

HOW PHOTO PLAY IS PUT TOGETHER

UNIQUE REEL AT TEMPLE TO-
MORROW WILL SHOW WHOLE
PROCESS FROM SCENERY TO
FILM MAKING

Manager John V. Houston of the
Temple theater and a large string of
equally well known histrionic Theo-
plan edifices in this region, has a spe-
cial photo play on tomorrow and
Wednesday at the Temple. It is an
Edison film which shows how mo-
tion pictures are made.

First are shown the studio opera-
tions, building and painting scenery,
setting up and dressing a set, re-
learning a scene under the watchful
eye of the stage director and then
the actual taking of a scene, showing
the camera recording pictures at the
rate of sixteen a second or sixteen to
every foot of film. Then comes an
actor making up for a character part
and next a party leaving the studio
for an outdoor scene. Then is taken
up the mechanical end of the busi-
ness, being shown how the film is de-
veloped, washed and, finally, how the

various scenes are assembled into a
complete picture.

The next visit is to the factory,
where the projecting machines are
made and many portions of the ex-
ceedingly delicate and ingenious man-
ufacture are shown with wonderful
clearness and interest. Finally, af-
ter seeing the complete machine as-
sembled, viewers are made acquaint-
ed with the actual way that the film
is projected.

SOUP FATING CALLED HAZARDOUS OCCUPATION

That's Plea of Man Claiming Injuries
From Ptomaine Poisoning, But In-
surance Commission Fails to Agree
With Him

OLYMPIA, Wash., April 15.—The
state industrial insurance commis-
sion today is on record as denying the
claim of William Nyman for compensa-
tion for injuries sustained from
ptomaine poisoning. Nyman claims
that he suffered the injuries in a ha-
zardous occupation. It was found he
had been stricken with ptomaine poi-
soning after eating pea soup.

The commission holds that eating
soup, if conducted along cautious,
common sense methods, is not neces-
sarily hazardous, and rejected the
claim.

CANDIDATES GO TO FORT KLAMATH

IRWIN, WALKER AND MANNING
FORSAKE HALLOWED PRE-
CINCTS OF CITY WITH VIEW TO
ADVERTISING ABROAD

More and more the candidates be-
gin to see the value of exploiting
their own ability and to see that it
pays to advertise. These candidates
left this morning for Fort Klamath,
for the purpose of convincing the
populace in that section that they are
the best available for the offices which
they seek:

John Irwin, republican, who seeks
the district attorneyship; Samuel L.
Walker, democrat, chief of police,
who seeks the sheriffalty; Jay Man-
ning, republican, who seeks the county
treasurership.

Mr. and Mrs. Stewart Arrive
C. P. Stewart, secretary of the
Klamath Falls Commercial Club, with
Mrs. Stewart, returned last evening
from their wedding trip. They were
married in Chicago, and came west
via Galveston, New Orleans and Cali-
fornia.

PHILPOT DROPS, ANKLE SPRAINED

BRAKEMAN OF SOUTHERN PA-
CIFIC FALLS FROM TOP OF CAR
WHEN ANOTHER COMES ALONG
AND BUMPS IT

J. H. Philpot, a freight brakeman
for the Southern Pacific, had his right
ankle sprained Friday by a fall from
a freight car on which he was setting
the brake. While Philpot was en-
gaged at this work another car bump-
ed the car he was on, throwing him
to the ground. Another man was
secured for his run, and while Mr.
Philpot is getting around, he is not
yet able to resume work.

HAMPSHIRE BOAR GOES OVER STYX

AT LEAST OWNER CANNOT LO-
CATE BRIST, SO HAS TO SEND
BACK TO "SHOW ME" STATE
FOR ANOTHER

W. M. Chayne was in the city last
Saturday from his Spring Lake ranch
to get a Hampshire boar which he
bought from a Missouri breeder.

COURT'S RECALL IS MURDOCH'S OBJECT

It was an expensive proceeding, but
Mr. Cheyne immediately sent to Mis-
souri for another pig. On account of
the floods in the East the pig had to
make the journey by way of St. Paul,
but after being on the road for seven
days he arrived at his destination in
fairly good condition.

Mr. Cheyne expects to make a spe-
cialty of raising high class hogs. If
the stock comes up to his expecta-
tions he will send for a larger ship-
ment this fall.

O. M. Hector returned Sunday from
a business trip to Sacramento.

TACOMA LABOR FOR I. W. W. ANSWER TO OLD CHARGE

Trades Council Goes on Record With
Endorsement of Organization in
Efforts to Better Workingmen's
State

TACOMA, Wash., April 15.—An-
swering the charge repeatedly made
in the recent strike at the St. Paul
mill here that even organized labor
was hostile to the I. W. W. and its
work, the Tacoma Trades Council is
on record today with an endorsement
of the I. W. W. men.

Resolutions supporting the I. W.
W. in every effort to better the
condition of workingmen were adopted
by the council by an almost unani-
mous vote.

Fythian Sisters to Meet
The Fythian Sisters will hold their
regular meeting tonight in the west
hall of the Odd Fellows building. An
entertainment will be given by the
Sisters, and an invitation is extended
to all Knights and Sisters in the city
to be present.

OFFENBACHER STRUCTURE IS
SCHEDULED TO BE READY FOR
OCCUPANCY WITHIN 60 DAYS
IF PLANS ARE EXECUTED

The Garrett Construction company
has begun work on the Henry Offen-
bacher building. The O. K. office has
been temporarily moved to the east
end of the Bristol corner. Work on the
building will be rushed, and it will
likely be ready for occupancy in about
sixty days. Mr. Offenbacher has not
yet leased the building, but he has a
number of applicants.
