TALK ABOUT LUMBER LASTING--

Why, it is about as durable as
anything on this earth. Quoting
from bulletin 100, issued by the
Iowa State College in 1906—we
find "a white pine homestead
silo erected in 1894 was visited
and found to be giving good
service. It was apparently good
for a number of years yet." Think
of it, 18 years old—and used in
a silo. In another in-
stance we were shown a recent
photo of an old English block
house on San Juan Islands in
Puget Sound, built in 1860, on
which the red cedar shingles are
apparently as good as when
laid. But if you are hesitating
about using wood for your
home there are plenty of illus-
trations as to its durability
right here at home. Houses
built before you were born are
still good. Don't be fooled
about first costs—come in and
see our lumber and talk it over.

HOW TO BUILD UP YOUR HOME TOWN

Sanitation and Public Health By Chas. E. Homburg

"Sanitary instruction is even more
important than sanitary legislation,"
said an eminent English sanitary in-
structor and legislator some years
ago, and he spoke the truth. The
statement is equally true today, for
the people everywhere need to be in-
structed in matters pertaining to sa-
nitation and health—how to make
their community clean and healthy,
and how to keep it free from infec-
tious diseases. The fact that we find
so many towns with filthy streets, va-
cant lots littered with weeds, tin cans
and trash, with alleys that are hide-
ous with tumble-down fences and
foul-smelling heaps of garbage and
refuse, is mainly due to the ignorance
of the masses in regard to sanitary
laws, the lethargy of health officers,
and the indifference of many people
as to the general appearance of their
home town.

Whenever the people in general
have been fully instructed in matters
of sanitation and health, they will be-
gin to realize that cleanliness is much
less expensive than sickness, and then
we shall find more healthy, as well as
cleaner towns and cities throughout
the country. They will then demon-
strate the truth of the old saying that
"cleanliness is next to godliness," for
they will have learned that good
health means good morals. Filth and
crime have always been close compan-
ions.

The officials of every progressive
town should be awake to the fact that
the ultimate end of all municipal ac-
tivities is the health and comfort of
its citizens; they should place the
health department in a proper rela-
tion to other municipal departments,
and the health officers should be in
touch with the progress of sanitary
science. But many towns are too
prone to leave the work of keeping
the community clean and healthy en-
tirely to public officials, and the con-
sequence is that back yards and va-
cant lots become eyesores and breed-
ing places of disease. The responsi-
bility of having a clean and healthy
town must rest largely on the shoulders
of the public, and a realization of
this responsibility must be aroused
before the people can be induced to
act and change conditions.

"The disposal of the town's waste
and garbage and overcoming nu-
isances which menace the health of the
community is sometimes a difficult
problem, but it can be solved if the
citizens are awake to its importance.

**INDIAN CHILDREN MAY
GET SEPARATE SCHOOLS**

SALEM, May 2—In an opinion ren-
dered by Attorney General Crawford
he has advised J. G. Swan, school
superintendent of Klamath county,
that by a vote of the people white
children in the public schools may be
segregated from Indian children and
other races. Complaint is being made
against the half breed and Indian
children attending schools in a cer-
tain district because the children are
afflicted with tuberculosis and other
diseases; also because of their color.
The attorney general says the chil-
dren afflicted with such diseases may
be excluded from the schools, and,
discussing the question of segrega-
tion, he says the board of school di-
rectors must provide equal facilities
for the race segregated as the Indians
to whom allotments are made are
citizens, and entitled to all the priv-
ileges of citizens.

SOWING AND REAPING TONIGHT

The storms of the past week have
interfered somewhat with the atten-
dant to the Christian revival, but the
house was well filled again last night.
Whiston was at his best on "Popular
Amusements." At the beginning the
evangelist said that he was not fanat-
ical on the subject, that he would give
facts and figures, and the teaching of
the New Testament, and have each
one draw his own conclusions. Some
of his figures were startling concern-
ing the dance and the card table as
institutions, and if the evangelist's
statements are true, then these
amusements are a menace to a com-
munity. He discussed the relation of
the Prodigal Son parable to the twen-
tieth century, and used the following
outline: The departure and degradation
of the prodigal, his recollection and
repentance, and his return and
reception.

Tonight the evangelist will speak
on "Sowing and Reaping." He an-
nounced this as one of the strongest
sermons he has preached, the kind to
make one think. The special chorus

THE PALACE GRILL

A Clean Scalp And Healthy Hair

Many of your friends have found that a luxuriant growth of
hair—soft and glossy—and a scalp free from dandruff, will result
from the use of

NYAL'S HIRAUTONE

This is the procedure—
Wash the hair with warm water and a pure soap—rinse thor-
oughly—rub the scalp with a stiff brush—apply Hirsutone—rub it
in well and dry the hair before combing.
Please understand that Hirsutone is not merely a hair wash—
it is a tonic—a food.

While it thoroughly cleanses, it also prevents bac-
terial action—nourishes and stimulates the roots of the
hair—removes all dandruff—prevents its return—and
preserves the natural beauty and color of the hair.
Nyal's Hirsutone should be on your dressing table.
It sells at 50 cents and \$1.00 the bottle.
