TALK ABOUT LUMBER LASTING--

Why, it is about as durable as
anything on this earth. Quoting
from bulletin 169, issued by the
Iowa State College in 1908—we
find "a white pine homestead
also erected in 1894 was visited
and found to be giving good
service. It was apparently good
for a number of years yet." Think
of it, 18 years old—and used in a
silo. In another instance we
were shown a recent photo of
an old English block house on
San Juan Islands in Puget Sound,
built in 1860, on which the red
cedar shingles are apparently as
good as when laid. But if you are
hesitating about using wood for
your home there are plenty of
illustrations as to its durability
right here at home. Houses
built before you were born are
still good. Don't be fooled
about first costs—come in and
see our lumber and talk it over.
