TALK ABOUT LUMBER LASTING--

Why, it is about as durable as
anything on this earth. Noting
from bulletin 100, issued by the
Iowa State College in 1908--we
find "a white pine homestead
silo erected in 1894 was visited
and found to be giving good
service. It was apparently good
for a number of years yet." Think
of it, 18 years old--and used in a
silo. In another instance we were
shown a recent photo of an old English
block house on San Juan Islands in
Puget Sound, built in 1860, on
which the red cedar shingles are
apparently as good as when
laid. But if you are hesitating
about using wood for your
home there are plenty of illus-
trations as to its durability
right at home. Houses
built before you were born are
still good. Don't be fooled
about first cost--come in and
see our lumber and talk it over.
