TALK ABOUT LUMBER LASTING--

Why, it is about as durable as anything on this earth. Quoting from bulletin 100, issued by the Iowa State College in 1908—we find "a white pine homestead also erected in 1894 was visited and found to be giving good service. It was apparently good for a number of years yet." Think of it, 18 years old—and used in its prime. In another instance we were shown a recent photo of an old English block house on San Juan Islands in Puget Sound, built in 1860, on which the red cedar shingles are apparently as good as when laid. But if you are hesitating about using wood for your home there are plenty of illustrations as to its durability right here at home. Houses built before you were born are still good. Don't be fooled about first costs—come in and see our lumber and talk it over.
