## COMMISSION IS AGAINST CHANGE

MAJORITY OPPOSE REDUCTION OF LICENSE

tition From Residents of County, shop bathroom. for Klamath County

Attorney C. F. Stone, who has returned from the meeting of the fish and game commission in Portland, stress that the commission is divided on the question of reducing the nonresident game license to the same amount as that of residents of the & Davidson barber shop, Mrs. McInstate. The matter was considered, tosh's millinery shop, Mrs. A. H. but the majority were opposed to any change.

Mr. Stone believes, with the majorally fined, as at present. Millions of dollars could be brought into the state without depleting the fish or game, or reducing the present reveue from licenses.

The average non-resident on a vacation does not spend over a few days or a week in each year fishing or hunting, but in that time they will pend on an average of \$100 to a man. If they are held up for \$5 or 110 for a few days' fishing they are not going to come, and the state will not get the benefit of this enormous amount of new money.

This is particularly true of the Clamath country. One of the greatest resources of this section is the benting and fishing combined with the lake resorts. Tourists who come with them on their outing. Probably any time. o per cent of them never have pasould not object to paying \$1 for the sure." right to try.

Mr. Stone believes that it might be possible to get the commission to approve a law making the license uniform in Klamath county by securing strong petition from the people of this section. A petition signed by 2,000 or 3,000 people of the county
