

RIVALS FAMOUS DURBAR OF INDIA

CALIFORNIA'S FAMOUS \$15,000,000 WEDDING MARRIED

Greatest Gathering of Ultra-Fashionable Rich Ever Seen in the West Attend the Matrimonial Celebration of Former Miss Jennie Crocker and Malcolm Whitman, the New York Lawyer and Tennis Star

HILLSBORO, Calif., July 16.—In the presence of the greatest gathering of the ultra-fashionable rich ever seen in the West, a \$60,000 matrimonial durbar was celebrated here today, following the wedding of Miss Jennie Crocker, California's \$15,000,000 heiress, and Malcolm Whitman, New York lawyer and former tennis star of the East, which was performed at St. Mathew's Episcopal church, San Mateo, by the Right Rev. Bishop William Ford Nicholas, at high noon.

The wedding celebration, for which an army of florists, artists, landscape gardeners, sculptors, architects and carpenters had been preparing the extensive estates at Hillsboro for weeks, rivaled the most famous nuptials displays of New York's Fifth avenue set. Following the church ceremony, which was the one simple feature of the day's festivities, the guests, wearing an aggregate of \$1,500,000 worth of jewels, were entertained with a wedding breakfast in a temporary pavilion erected at a cost of \$15,000. It will be torn down tomorrow.

In this pavilion the guests seated themselves amid a grand spectacle of variegated beauty which predominated \$4,000,000 of the most recent on the flower show. Hundreds of thousands of roses, California's gardens are so famous, as well as many other specimens of Nature's and the florist's art adorned the banquet boards or surrounded the feasters on walls and ceiling. In and out among their bright coloring fountains sparkled and white statues gleamed.

During the feast 200 automobiles which had brought the elite of San Francisco and other California cities to the scene, were parked along the spacious drives and beautiful gardens of the Crocker estate. Other guests arrived from various parts of the Pacific coast, and many from the East, by train.

The wedding was preceded by a procession of limousines from the Crocker estate to the church. Here the ceremony of the ring was performed beneath a bower of roses, and the guests hastened back to begin the real durbar festivities.

Throughout the afternoon a picked squad of fifty special police, including many of the best detectives and plain clothes men of the coast, loitered about the grounds, through the breakfast pavilion or in the Crocker mansion, as a protection for the millions of dollars in jewelry with which the women guests were bedecked.

The one prosaic feature was the presence of the motion picture man. As at the real durbar in India, every little incident of the day was picked up by the busy camera operator.

United Press Service PALMERO, Sicily, July 15.—The rebuilding of Messina, destroyed several years ago by the great earthquake disaster, has been so interfered with by Italy's war with Turkey that he contract may be let to outside concerns.

This was made known today when a bid was received from an English syndicate agreeing to rebuild the entire city as undertaken by the government within the five years it was originally provided the work was to be completed. It is generally believed here that the bid will be accepted, as the only certain way in which the city will ever be rebuilt.

VISITING ELKS ARE STRAGGLING HOME

The members of the Elks who attended the Grand Lodge celebration at Portland keep straggling home. Last evening Exalted Ruler Hunter Savidge, Judge Charles Graves and Mrs. Graves and F. P. Cronemiller and wife of Lakeview arrived. They all had such a good time that they are simply silent, as they do not know where to begin to describe the doings.

Others of the party are taking advantage of the trip to visit friends in other parts of the state and Washington. Mr. and Mrs. E. B. Hall and D. B. Campbell went on to Seattle to attend the Potlach, and Mr. and Mrs. Shive stopped at Eugene to visit friends. All of the others seem to have been lost, as no one seems to know where they are.

UNCLE SAM MAY STAND EXPENSE

PROPOSITION OF PAYING TENTH STREET BRINGS UP MATTER OF GOVERNMENT PAYING PORTION OF THE EXPENSE

W. W. Patch, project engineer for the Klamath irrigation project, will cooperate with the city in paving Tenth and Eleventh streets.

This was the declaration of the government engineer when questioned this morning concerning what probable action the government would take in the matter of street paving in front of government property.

"I do not know just what the procedure is to cause the government to pay a portion of the expense of paving a street," said Mr. Patch. "I would advise that the city communicate with the department through this office before taking steps toward assessing government property for street improvements."

"The city has not, of course, any power to place any sort of a lien against government property, and any assessment made against the property for the paving of Tenth street would be illegal."

"However, I am heartily in favor of paving these streets, especially Eleventh street, and will do whatever I can to favorably bring the matter to the attention of the department, that is, when it comes to me officially."

The government owns a portion of Tenth street, and also owns some property abutting on the street.

At the council meeting last night an ordinance was introduced by Mr. Doty providing for the improvement of Tenth street. As a portion of this street runs along the government canal, part of the expense of the improvement would have to be met by the government. A set-back was given the movement when City Attorney Drake announced that the city could not create a lien against the government, the same as it could against private property.

SIREN FIRE WHISPLE

On motion of Councilman Savidge the city rescinded its former action for the purchase of a 2,000-pound fire bell and decided to install in its stead a siren whistle. Mr. Savidge stated that he had talked with Mr. Beardsley of the iron works, who stated that he would install a three-inch whistle six feet long, an air compressor, receiving tank, and the pipe connection for \$500. R. J. Sheets agreed to furnish and install a five-horsepower motor for \$95.

Councilman McGowan argued strongly in opposition to the siren. He said: "I would rather see a bell installed, as they are surer, and never get out of order unless they get cracked." The vote on the siren stood six to three, Miles, Owens and McGowan voting against it.

SENATOR BAILEY PEEVED AT TAFT

SAYS THE PRESIDENT WROTE A FALSHOOD

Is Sore at Taft for His Action in the Lorimer Case—Says Letter Written to Roosevelt Was Malicious, Infamous Falshood—Senate Passes Resolution to Uphold Their Exclusive Rights

United Press Service WASHINGTON, D. C., July 16.—Senator Bailey of Texas, in the senate, roasted President Taft for his "meddlesome and officious" actions in the Lorimer case. Referring to a letter Taft wrote to Roosevelt, he shouted: "When the president penned the line that I was determined to keep the Illinois senator here he penned a malicious, infamous falshood. No one knows that better than himself. Andrew Johnson was impeached for a less serious offense than the president committed in writing this letter."

The senate passed the following resolution: "Any attempt on the part of the president of the United States to exercise his power and influence to control the vote of any senator upon a question involving the seat of a senator or on any other matter within the exclusive jurisdiction of the senate, would violate the spirit, if not the letter of the Constitution, and invade the rights of the senate."

The authorities declare they will have the entire story of the Rosenthal murder within two days. It is believed a big sensation will be caused when the truth is known. Libby is weakening, and has already given some important information.

The residents of the towns visited realize the importance of this official trip, and are not permitting the party to pass on without being entertained, and for this reason they have not been able to keep up with their itinerary.

As now planned the banquet and reception will be held tomorrow evening at the White Pelican hotel, and the excursion by automobile will be held in Baker, Ore.

Under strong protest of the Interior Department Yuan Shi Kai has today finally modified his recent queue cutting decree so far as Northern China is concerned.

According to Chao, who has just returned from a tour of the northern districts, the Northern Chinese, who were originally strongly anti-republican, were just settling down to accept the new regime as inevitable when forceful queue cutting began, and threatened to provoke them into revolt.

The minister plainly expressed the opinion that it would be short-sighted policy to start a rebellion over a matter which really was of no vital importance, and the president, with much grumbling, indorsed the minister's recommendation.

NEW INDUSTRY IN FULL BLAST

PLANT OF PAIL MANUFACTURER IS STARTED GOING

Orders for Pails Sufficient to Keep the Factory Going to Capacity for a Long Time Are Now on Hand. Capacity Will Be Six Hundred Pails Daily When the Men Learn the Business

With fifteen men on the payroll and advance orders to keep working to capacity for a long time, the plant of the Klamath Falls Tub and Pail company was started up yesterday morning.

The machinery ran without a hitch, but considerable trouble was encountered because of the inexperience of some of the men. H. N. Wood, the manager and principal owner, is an experienced workman, and he has secured the services of an experienced man from the East. The rest of the force are a little "green."

"As soon as the men become more familiar with the work," said Mr. Wood, "we will turn out about 600 pails. This will mean that we will ship a carload of our product about every nine or ten days."

San Francisco is at present the market for the factory. Advance orders have been received from there sufficient to keep the plant going to capacity, and there is still the Portland market to be developed.

Experienced men declare the product of the local plant will compare favorably to that of any in the West. The proper material for the manufacture of the pails is found here in abundance, and the transportation facilities are excellent.

Later on it is the intention of the management to move the present stove mill to the lake, and use the space now required for that portion of the plant for additional pail making machines.

Mr. Wood has resided in Klamath Falls for about a year. Prior to engaging in the pail manufacturing business here he was in the contracting business.

Women Discuss Laws The Equal Suffrage League met Saturday at the home of Mrs. J. C. Brockebrough.

The study for the next meeting will be the laws relating to women in Oregon at the present time. The league will meet at the home of Mrs. Stearns, 117 Main street, Saturday, July 27. All ladies interested are invited to be present.

It is the desire of the league to have some friend of equal suffrage loan the league a vacant room near Main street, to be used by the members and meetings on November 1st.
