BANK BUILDING TO BE REMODELED

USE OIL FOR HEATING HALF BLACK

First Oil Burner for Heating Purposes in the City to Be Installed in First National Bank and Loomis Bros. Buildings—National Bank to Move as Soon as Improvements Are Made

The first oil burner for heating purposes in the city is to be installed in the First National Bank Building, and the adjoining Loomis Bros. building, formerly the White-Maddox building. President Alex Martin of the bank stated today that he was convinced that public buildings could be much more cheaply heated with oil than with either coal or wood. Mr. Martin promises to demonstrate to the people of Klamath Falls either the advantages or disadvantages of oil fuel.

It is planned to begin work in the very near future in remodeling the building owned by the bank on the north side of Main and Fourth, and as soon as the improvements are completed the bank will move from its present location across the street.

In the remodeling of the building the basement, now occupied by the White Realty company and the Klamath Abstract company, will be done away with, and the first floor is to be lowered to a level with the sidewalk. The present steps are to be removed and the entrance to the basement will be built over with a sidewalk, making the walk twelve feet wide, to conform with that of the adjoining property. The stairway to the second floor is to be removed and the entrance to the Loomis Bros. building will be used to reach the offices over the corner building.

United Press Service
WASHINGTON, D. C., July 17.—Postmaster General Hitchcock, chairman of the 1908 national republican committee, testified before the senate investigation committee today that the Taft campaign fund of 1908 was \$1,655,518. Of this \$625,125 was distributed in New York. The rest was used nationally.

The largest contribution was from Charles Taft. It was \$50,000. William Nelson Cromwell and Lars Anderson contributed \$25,000 each, and Carnegie contributed \$20,000. No corporations contributed.

FORT KLAMATH PLANS BIG TIME

PUBLIC ENTERTAINMENT LAST OF MONTH—NEW CHURCH AND CREAMERY COMPLETED—CROPS IN EXCELLENT SHAPE

Special to The Herald
FORT KLAMATH, July 17.—Wood River Valley is still on the map, and this fact is to be placed before the public whenever occasion will permit. A committee has been appointed by the Chamber of Commerce to make a collection of all kinds of produce of the valley and live stock to be put on exhibition at the county fair. M. F. Looney has been appointed a committee to arrange for a public entertainment about the last of this month, the principal feature of which will be speaking, excellent music, dancing and a banquet. It is planned to have delegations from every portion of the county and from the outside.

The new Methodist church is now practically complete, and the first services are to be held next Sunday. Fort Klamath feels very proud of its first church building, and appreciates the work of Rev. J. W. Worrell in securing it for us.

The new creamery building is now ready and the machinery is all on hand awaiting the arrival of an expert butter maker, who will have charge of installing the machinery and begin operating. The plant is one of the most up-to-date creameries in the state. Such was the statement of Messrs. Stratton and Page, who are very enthusiastic over the new enterprise.

Crops in the valley are excellent, especially the grain, which promises a much larger yield than last year, and with the increased acreage this valley will ship grain out, instead of into the valley, as heretofore.

Taft Won't Compromise

GRAFT SHOWN IN POLICE MATTERS

ROSENTHAL CASE BRINGS TO LIGHT CROOKEDNESS

The Murdered Man is Reported to Have Paid Tribute to High Police Officials for Protection for His Gambling Games in the Metropolis. Grand Jury is Probing and Starting Disclosures Anticipated

United Press Service
NEW YORK, July 17.—Developments in the Rosenthal murder case today indicated signs of a feud between the police and prosecuting attorney Whitman.

The police deny the charge that the Rosenthal murder was the result of the police system. Whitman said there were five policemen within 300 feet from the spot where the murder was committed, two policemen within 200 feet, and one officer within 50 feet, yet five men shot Rosenthal, entered an automobile and escaped.

Whitman claims that the police scarcely pretended to pursue. They arrested a man who tried to give the automobile's right number.

The public feels that the murder was the work of a secret organization, defying the law.

The grand jury is probing the matter. It is said that Police Lieutenant Becker loaned Rosenthal \$1,500 and demanded 20 per cent of Rosenthal's gambling profits. It is rumored that Rosenthal said he had been forced to pay tribute to one of the highest police officials.

MUCH LAND IS TAKEN FROM THE RESERVES

Special to The Herald
WASHINGTON, D. C., July 17.—President Taft has been busy recently through proclamations modifying the boundary lines of the national forests in Montana, Arizona, Nevada, Utah and California, whereby nearly 275,000 acres of land in these states are eliminated from the forests, while about 65,000 acres are added and about 55,000 acres are transferred between two forests, while a new forest is created by the division of an old unit into two.

The net result of these presidential proclamations is to bring down the total gross area of the national forests to about 187,400,000 acres, of which nearly 27,000,000 are in Alaska.

CLUB FRIENDS STAND BY JUDGE

United Press Service
SEATTLE, July 17.—With the evidence of Attorneys Peterson and Whitlock, both of whom testified that they had seen Judge Hanford drunk, it is believed the congressional committee has finally closed the evidence on this phase.

So far 120 witnesses have testified concerning the charge of drunkenness against the judge. Half of these were Hanford's club member friends, and they swore that the judge was not a drunkard. The other half were from all stations in life, and they swore that the judge was either drunk or that they had believed him to have been.

RAILROADS BACK BRITISHERS' KICK

PROTEST AGAINST CANAL TOLLS TRACED TO RAILROADS

The Transcontinental Lines of Canada and Those of the United States Were Instrumental in Getting the British Government to Enter Protest—President Taft Hears of the Conspiracy

United Press Service
WASHINGTON, D. C., July 17.—Congressman Knowland today told President Taft that the American railroads acting with the Canadian transcontinental lines, had instigated England's protest against free tolls for American vessels in the Panama Canal. After the conference Congressman Knowland said:

"This is a railroad fight. Free tolls for American vessels means lower railroad freight rates. We built and financed the canal, and congress will not concede England's right to dictate the tolls."

It is doubted whether the United States will be willing to submit the question to The Hague, because all of the foreign interests would be against America.

The British protest, it is expected, will be forwarded to the senate tomorrow. President Taft may send a special message on the subject.

RIVERS AND WOLGAST BOTH WANT BIG PRICE

United Press Service
LOS ANGELES, July 17.—The boxer's inherent love for crinkly green bills is the rock on which prospects for another Rivers-Wolgast go have split, according to the admission of both boys today.

Rivers, who received \$7,500 July 4, demands \$12,500 and a cut-in on the pictures for his share. Wolgast wants in the neighborhood of \$20,000. It is understood. In what he declares his ultimatum, the champion told Rivers he could have \$8,500, but he will demand a side bet as large as Rivers can cover, the fight to go to the highest bidding club. Promoter McCarey intimates that if Rivers and Wolgast do not get together soon he will match Rivers with Mandot or Knock-out Brown for the September date.

United Press Service

The measure creates the secretary of labor a member of the cabinet. Samuel Gompers and other leading laborites, fought hard for the bill. It provides for the transfer of the bureau of labor to the new executive department, and authorizes a sweeping discretion to the secretary of labor to offer federal intervention in labor disputes.

PREPARING TO FIGHT REDUCTION OF RATES

Express Companies Will Combat the Ultimatum of the Commerce Commission and Try to Prove Their Service is Necessary to Public

United Press Service
WASHINGTON, D. C., July 17.—Faced with the interstate commerce commission's flat ultimatum that they must prove that their service is necessary to the public, the express companies have begun preparations here to fight the drastic reductions in their rates and the sweeping changes in their methods of doing business ordered by the commission. After three years' investigation the commission has drawn up a startling indictment of the express business. Commissioner Franklin P. Lane's decision declared:

"The test of the express company as a public utility is at hand. Certainly it is not deniable that the express company has to no slight degree lost the confidence of the people it serves, and is now regarded as only on probation."

The opinion expressed here today by men familiar with the express problem is that it might take a year to reach a satisfactory solution of the problem.

With several contracts for large buildings here in sight, Arthur Arlett, the well known San Francisco building contractor, is in the city investigating local conditions. For the past two days he has been probing into the local supply of brick and other material, and has familiarized himself with the local labor market.

"I have not landed a large contract here, as has been reported," said Mr. Arlett. "There are several large structures planned to be built here in the near future, and I am simply here to familiarize myself with the conditions which will aid me in bidding on the work."

Among other structures Mr. Arlett built the White Pelican hotel here.

They will be escorted from Bly by automobiles from here, and the entire program is to be carried out as arranged with the exception of the time, which is two days later. From information received the party was delayed at Plush, in Warner Valley. The excursion to Merrill will be Friday morning, leaving here at 8:30 and returning by noon. A trip will be made to the Adams ranch and the home of N. S. Merrill.

One change has been made in the speakers at the banquet. Judge Benson, who was to have delivered the address of welcome to the visitors, has been called to Portland on important business, and will be forced to leave in the morning. The committee has selected Attorney John Irwin to take the place of Judge Benson on the program. Mr. Irwin is a young man, full of energy, and a good speaker, and while it is regretted that Judge Benson cannot be present, the people of Klamath Falls are assured that the guests will be properly welcomed to the great Klamath country.

SCHOOL MA'AMS TRAVEL RAPIDLY

TRIO OF OREGON PEDAGOGUES MAKE ROUND TRIP FROM THIS CITY TO CRATER LAKE IN ONE DAY

With characteristic pedagogical energy, three Oregon school ma-ams made a record trip to Crater Lake yesterday and return. Starting from here at 5 o'clock in the morning, the party was back in the city at 8 o'clock at night, and if there was anything they overlooked in the way of interesting sights no one has yet discovered what it is.

The teachers are June Seely and Hazel Seely of Independence, Ore., and Bertha Koetschm of Portland. The party was not able to reach the rim in auto, but the young women were not dismayed by the three mile up-hill jaunt through the snow. They negotiated the distance easily, and were not too tired to fully appreciate the grandeur of the mysterious lake.

ELLIS WILL STAY TO MEET PATHFINDER PARTY

John Ellis of Fort Klamath is quite disappointed at the delay in the arrival of the Pathfinder party. Mr. Ellis came down Monday evening, as a representative of the Fort Klamath Chamber of Commerce, for the purpose of accompanying the visiting party to Pelican Bay, where they would be met by autos from the Fort and shown the Wood River Valley, and escorted to Crook county on their departure.

"If this was only court week," said Mr. Ellis, "I would not mind it, as I would have something to do, but I will have to return here Sunday to be ready for jury duty on Monday, and I am afraid that my neighbors will think I have changed my location and have moved to Klamath Falls for good."

Mr. Ellis is a booster with the proper staying qualities, and he intends to wait for the party if it takes all summer, as he will not permit them to escape them without seeing Wood River Valley.
