## TESTED MATERIAL FOR HOME BUILDING

appeals to the conservative man because it offers a tangible basis upon which to reckon. Take lumber, for instance, and you can see evidence on all sides where houses that were built of wood have outlasted a generation, and are today (if they have been given proper care) as good as new. Wood has stood the test, and will stand today as economically as any other material, considered from all points—appearance, durability and healthfulness. In its use you have precedence to go by. What others have done with it you can do, and the lumber we handle these days is the product of the best "quality" mills in the United States. It's a pleasure to show it as well as to talk its various uses, and we are at your service from 7 to 6 daily. Come in.
