TESTED MATERIAL FOR HOME BUILDING

appeals to the conservative man
because it offers a tangible basis
upon which to reason. Take
lumber, for instance, and you
can see evidence on all sides
where houses that were built of
wood have outlasted a generation,
and are today (if they have been
given proper care) as good as new.
Wood has stood the test, and will
continue to stand the test, and will
continue to be used today as economically
as any other material, considered from
all points of appearance, durability
and healthfulness. In its
use you have precedence to go
by. What others have done
with it you can do, and the lumber
we handle these days is the
product of the best "quality"
mills in the United States. It's
a pleasure to show it as well as
to talk its various uses, and we
will give you service from 7 to 6
daily.
