AUTOS BARRED FROM PARK

CRATER LAKE HOTEL CO. FALLS BACK ON RIGHT TO EXCLUSIVE TRANSPORTATION INTO THE NATIONAL PARK

A rate war to the Crater Lake National Park is threatened. Trouble has cropped up between the Klamath Development company and the Crater Lake Hotel company, and an appeal has been sent to Washington to settle matters at issue. In the meantime, automobiles that have been operated in connection with the Klamath Development company projects are barred from the park.

It appears that the Crater Lake Hotel company a few days ago took advantage of their right to exclusive auto service into the park, and ordered the White Pelican garage to discontinue hauling passengers into the park. A message was sent to Washington complaining of this, but no reply has yet been received.

Tourists who have taken the park trip under the auspices of the Development people have been taken first to Harriman Lodge, where some time was spent, and then hurried on to the park and back in one day, thereby causing the hotels in the park to lose custom that they might otherwise get.

On the other hand, the method of transportation by the Crater Lake people has been to take tourists to the park one day and then bring them back in another day, thereby requiring them to spend considerable time and money at the hotels in the park.

As a result of the tangle in transportation methods there has been some inconvenience to prospective Crater Lake visitors, and local hotel men are anxious that a speedy settlement be arrived at.

Steel Trust Abuses Labor, Committee Makes Report

WASHINGTON, D. C., Aug. 2.—The report of the special committee to investigate the United States Steel corporation today submitted to congress amendments to the Sherman anti-trust law, which it is considered will tend to correct some of the abuses of this gigantic combination of capital.

The report accompanying the bills is exhaustive, and reveals conditions startling.

Concerning labor conditions the report says: "As to the daily lives and conditions of living of these laborers, the testimony taken is voluminous, far too extensive to even summarize in this report. The testimony certainly shows conditions undesirable, and far below what is ordinarily understood to be American standard of living among laborers in our country. Some of the details are revolting, both as to sanitary and moral conditions. Taking the ordinary family as a unit, the wages paid, even if the head of the family is constantly employed, are barely enough to provide subsistence."

She was formerly the wife of Winter Knight, the well known cartoonist, but was divorced eight or ten years ago. The grounds for divorce was cruelty, Mrs. Orr testifying that her husband beat her, and threatened her with an axe when she refused to give him money she had received from the sale of her cattle. They have one child, which is in the custody of the mother.

Mrs. Orr—I have been waiting for an axe for 3 weeks and 2 days, since my arm was fractured. But still no axe. But that is all right? Now Lizzie I am gone to tell you a thing or 2 and it is the last plea I shall ever

make to you.
