The probe will be continued, and many prominent mill officials and newspaper men will be called before the grand jury in an endeavor to ascertain where they obtained their information concerning the dynamite before it was found.

Haynes Sees Few Tracks of Bear

Homesteader From Aspen Lake District Brings News to Captain Applegate Tracks Large

F. W. Haynes, who had a homestead about nine and a half miles west of Aspen Lake, was in the city today and called on Captain O. G. Applegate to relate to that veteran hunter the fact that he had seen bear tracks near his place Wednesday night and Thursday morning. Mr. Haynes had been away from his place for a time, and it was on returning that he discovered the imprint of the bear's feet in the sand.

"There were a number of tracks, some large and some small," said Mr. Haynes. "I judge that it was a mother bear with a couple of cubs wandering around looking for something to eat. The larger tracks I stopped in with the No. 8 boot I had on, and they measured an inch and a half or two inches longer than my boot print. The tracks were about twenty rods from the house. I would like to get a good chance at these brutes with a gun I have, which sends a .40-caliber bullet."

BANK BUILDING DESIGN GOOD

FIRST NATIONAL WILL HAVE REBUILT HOME THAT WILL ATTRACT BUSINESS IN CAREFULLY PREPARED BY ARCHITECT

A great transformation is soon to appear in the First National bank building, according to the design of Jay Knapp, the architect. The drawing shows a beautiful exterior in the Corinthian order of architecture, which is the most handsome of the three original ancient orders.

The front treatment consists of four square pilasters set against the present building and four massive columns in front. The columns will be 32 inches in diameter, and 27 feet high, resting on pedestals three feet high. The columns are finished with classic bases and adorned with handsome capitals.

The side on Fourth street is treated with six pilasters of width equaling diameter, and are carried out in the same detail as the columns. Both columns and pilasters are fluted from bottom to top of shaft. The whole is surrounded with a handsome cornice, seven feet high, with mouldings, modillions and dentils, carefully and generously proportioned, and when the work is completed will present a beautiful and perfect whole.

PROCLAMATION

Monday, September 2, has been set aside as a legal holiday in recognition of the importance in these United States of Labor, and, fittingly, the occasion has been designated Labor Day. It is the custom on this day for citizens to desist from their usual vocations and participate in the proper commemoration of the occasion.

Now, I therefore, by virtue of my office as mayor of the City of Klamath Falls, designate Monday, September 2nd, as a municipal holiday, and urge the citizens to close their places of business, suspend their work wherever possible, and join in the observance of the day.

T. F. NICHOLAS, Mayor

WOMEN BUY GARBAGE CANS

PLAN TO KEEP THE STREETS CLEAN IS IN WORKING ORDER. CIVIC LEAGUE TAKES INITIAL STEP IN MOVEMENT

At considerable expense the Women's Civic League has purchased twenty large and commodious garbage cans, of commanding presence, which will be placed in prominent places in the city. Each can will be square, with a sliding top, which, when opened to admit refuse, waste or garbage, will automatically fall back into place. On top will be the word "Refuse," while on the face of the can will appear "For City Beautiful. Women's Civic League."

The league hopes by the introduction of the receptacles to make for a much cleaner city street system. Incidentally, one jovial woman of the league has suggested that people be cautioned against mailing letters in the cans, which have an opening something like the openings in large package mail boxes in some cities.

Roy Taber and Jess Otto of Dorris are in the City today on business.

GRAND JURY TO MEET SEPT. 9

PROSECUTING ATTORNEY HOLDS CONSULTATION WITH JUDGE HENSON AND DATE IS DECIDED UPON

After a consultation with Judge Benson this morning, Prosecuting Attorney Kayheadall announced that the Klamath county grand jury would be called to meet in the city September 9th.

Great interest has been aroused in this session because it is expected that this jury will probe the charges made against Klamath Falls councilmen.

There is but one prisoner in the county jail awaiting the action of the grand jury. He is charged with incest, but there is a possibility of the case being dropped because of the reluctance of the family to press the prosecution.

It is claimed that the man is insane, and in the event of his being tried, this, undoubtedly will be his defense.

Dr. R. R. Hamilton this morning reported the birth of a 10-pound girl to Mr. and Mrs. Burrell Short, who live about seven miles south of the city.

HOTEL MAIL TO BE DELIVERED

MODIFICATION OF POSTOFFICE ORDER WILL NOT GREATLY INCONVENIENCE THE BUSINESS AND TRAVELING PUBLIC

Details of modifications made in the original order preventing Sunday delivery of United States mail have been received here.

The carrier and window deliveries are still forbidden, but lockbox holders will be permitted access to their. New railway mail service arrangements have been made providing for special sorting while on route of all hotel and newspaper mail in order to facilitate Sunday delivery in such places.

Postmaster General Hitchcock says that the relaxed orders mean practically no inconvenience to business or the general public, but will result merely in the closing of the general delivery windows. He further stated that the law greatly benefits the postal employes, particularly distributors, who were formerly held for Sunday work.

MANDAMUS WRIT IS APPLIED FOR

LEONARD AND HARRIS APPEAR AS PLAINTIFFS

The Charge is Made That the City Officials Have Not Carried Out the Will of the People as Expressed in an Election—Judge Benson is Asked to Require an Election to Be Called at Once.

Declaring that the city officials of Klamath Falls have not carried out the wishes of the people, a petition for a writ of mandamus was filed in the circuit court this afternoon to require the calling of a special election at once and to nominate three commissioners to carry on the business of the city of Klamath Falls.

The writ is asked for by W. A. Leonard and Henry Babson, in a lengthy document setting forth the contentions of the plaintiff. C. M. Onell is their attorney.

It is set forth that on May 31, 1915, the election of the city voted to adopt the commission form of government, at which time there were cast for the measure 547 votes and 553 against. Subsequently, at a meeting of the city council, the election returns were canvassed and approved by the city council.

Mr. Mayor Sanderson is quoted as expressing his approval of the action of the electors, and it is set forth that the present city council has continued to refuse to act in accordance with the direct expression of the will of the people, as indicated by their votes.

It is set forth that the charter, properly adopted, provided that a special election be held for the purpose of naming three commissioners to act under the terms of the charter. The two petitioners ask the court to require the city council to call a special election and carry out the will of the people, as expressed in the election when the charter was adopted.
