

When Thinking of Clothes THINK OF US

You may forget by tomorrow what we say to you today, but those who purchase tomorrow on the strength of today's talk will never forget us or our merchandise. It is our ambition to give the men and young men of this city clothes that are really and truly clever, clothes which are so swagger that they'll please the smartest dressers. Our Fall Suits and Overcoats are arriving daily and we think we were never in a better position to attend to the men's wants when it comes to wearing apparel. Come in and "have a look".

THANKS HILL FOR FINE CUP

LAKVIEW MAN WRITES TO THE HEAD OF THE GREAT NORTHERN—EXHIBITS AT LAKEVIEW CONSIDERED EXCELLENT

W. Lair Thompson of Lakeview has written to L. W. Hill, chairman of the board of directors of the Great Northern railway, thanking him for the beautiful cup presented to the best individual exhibitor at the meeting of the Central Oregon Development League. The cup was won by S. B. Chandler, and in his letter to Mr. Hill Mr. Thompson writes that the exhibits displayed during the meeting of the league were the best he has ever seen.

SHRE MAN NOT TO BE CONTRARY

and friends of the accused. C. F. Stone has already been asked to conduct the defense, but no definite arrangements have yet been made with the prominent local attorney.

Miss Jennie Layton, the young woman who has been known here as Mrs. Rich, and at whose instigation the warrant charging Rich with bigamy was issued, is determined to prosecute the man who she declares has so grossly deceived her, and in this determination she is backed by her mother, who arrived in the city last night from Grants Pass.

Rich's father at one time operated a string of cigar stores in Portland, but sold out to the United Cigar company. Since then he has been acting in an executive capacity for the combine to which he turned over his business. It is said that he is wealthy and will spend thousands of dollars to save his son from the penitentiary.

Already a legal problem in connection with the case has come up. It is the place of trial. It is argued that as Rich is alleged to have married his second wife in Grants Pass, the case must be tried there, and that here can only be tried a charge of adultery which might be made against him. This question must, necessarily, be decided by the courts at once.

Friends of Miss Layton declare that in addition to the bigamy and adultery charges, there may be a complaint laid against Rich under the federal white slave law, charging him with bringing a woman into this state for immoral purposes.

In any event, it is conceded that the former Klamath Falls shoe man is in something of a tight box, although, so far as can be ascertained, the Klamath county grand jury has not yet started a probe of the case.

The whereabouts of Mrs. Rich No. 1 are not known, but it is the belief that she has gone direct to San Francisco. She is a Jewess, as is Rich, while Miss Layton is the daughter of pioneer Gentile residents of Jackson county. The young woman's father is dead. He was very well known in Southern Oregon, and his friends of bygone years are rallying to the support of his daughter.

CONTRACT NOT OFFICIALLY LET

CONSTRUCTION OF THE SECOND UNIT LATERAL OF THE KLAMATH PROJECT IS DELAYED BY FAILURE TO ACT ON BIDS

The award of the contract for the building of the second unit laterals in the Klamath irrigation project has not yet been officially made, although the bids were sent to Washington over a fortnight ago. Project Engineer W. W. Patch is now endeavoring to get from the powers that be at the national capital some definite word as to how the matter stands.

Maney Bros. & Co., the Boise firm which made the lowest bid on the entire work, \$67,312.50, sent word to the local engineer last week, saying that they would be on the ground to go to work as soon as they got official notification from the government, but the government has not advised the Klamath Falls reclamation office of the award. The fact that no one from Maney Bros. & Co. has appeared here is taken as confirmation of the fact that they have not been notified of an award of the contract, and that, therefore, none has been made.

The reclamation service is very anxious to have the work started as soon as possible. The quicker construction is started the better able will the contractors be to complete the work within the required time.

MANY AUTOS TO BE REQUIRED

TRIP OF SCIENTISTS TO CRATER LAKE WILL BE IMPORTANT TO THIS SECTION—THE MEDFORD BOOSTERS ARE BUSY

It will require twenty-five automobiles to escort the European scientists from Crater Lake to this city, if this plan is carried out.

The Medford boosters are actively planning for the entertainment of the distinguished visitors, and will escort them to the national park in twenty-five autos.

The party will arrive in Medford Monday morning about 7 o'clock, and will start at once for the park.

When the excursion was first planned to celebrate the sixtieth anniversary of the American society, the European scientists wrote to Prof. W. M. Davis of Harvard University, who is managing the trip, stating that they had but one request to make and that is that they be shown Crater Lake—the principal object of interest to them in America. It is predicted that the weather will be fine for the trip. Good weather is stated to last at least two weeks.

Miss Letta Stephens has returned from Harriman Lodge, where she spent the summer.

The women of the league are very grateful to the judges for the courtesy and pains they manifested in the work they undertook. Jackson, who has been actively circulating the subscription list, is understood to have met with rare success in raising funds for the work.

LAMBERT KILLS BEAR QUARTET

REPRESENTATIVE OF WEYERHAUSER SYNDICATE PROVES TO BE A MIGHTY HUNTER. BEAR MEAT IS NOW PLENTIFUL

William Lambert of the Weyerhauser forces, was out with his gun in the timber on Joseph Foster's Round Lake property a few days ago hunting for deer when he heard some animal noises, and on investigating found three bear clubs at play.

One of them he shot, after which the mother bear came sniffing around to see what was wrong.

This gave Lambert another chance for a shot, which he took, dispatching the mother. Then he shot a second cub, while the third cub ran up a tree. He followed and slew the last cub, making four bears killed in one hunt. The feasts of bear meat which followed were unusual, and the steaks from the cubs were especially delicious.
