

## BLACK-HANDERS KEEP ACTIVE

FOREIGNERS ARE WARNED TO LEAVE THE COUNTRY AND MAKE NO ATTEMPT TO PROSECUTE CASES AGAINST THE DREADED COMBINATION

SPOKANE, Sept. 20.—Robbed of cash and jewelry valued at more than \$1,000, and warned to carry on no prosecution against fellow countrymen suspected of the crime, "Nick" Driech, a wealthy Spokane Austrian, has been the victim of three distinct thefts in 48 hours. His saloon was robbed of \$650, and an employe, Joe Kollish, was placed under arrest for the crime. Driech was then held up and robbed at the point of a gun, and was warned not to give any information that might lead to the conviction of his fellow countryman. About the same time three men entered his home, and while one of them stood over his wife, threatening to cut her throat if she made any outcry, the two others looted the residence of valuables.

The police are working on the theory that the robberies are the work of an Austrian "black hand" organization which has for some time existed in this city, as there have been many similar crimes, and the victims have always been warned not to aid in the prosecution.

## CONTRACTORS RUSH WORK

TREMO EXPOSITION GROUNDS ARE BEING MADE READY FOR EXPOSITION PALACES—NO BONUS IS GIVEN CONTRACTORS

Special to The Herald  
SAN FRANCISCO, Sept. 20.—Contract No. 1, which calls for the filling in of 71 acres of Harbor View lands, has been completed by the San Francisco Bridge company. The overflow lands that have been filled in cover that portion of the exposition site bounded by the center line of Webster street, the southerly line of Bay street, the center line of Divisadero street, the southerly line of Tequin street, the center line of Scott street and the southerly line of Lewis street.

This contract was completed within 180 days. The contractors received no bonus, nor was there a penalty attached, and they showed their interest in the exposition by speeding their work and completing it before the expiration of the time set for doing the task.

In making this 311,400,000 cubic yards of silt was pumped from the bay to the land; and in order to appreciate the vast amount of soil used in this work of filling in the overflow lands for a foundation to the exhibit palaces, which are to be erected on that portion of the fair site, engineers estimate that it would fill an area equivalent to Union Square to a height of 240 feet, which is practically as high as the ferry tower.

Borings for the foundations of the exhibition palaces are about half completed. These borings were made to determine the quantity of the silt.

# Klamath County's Biggest, Best Fair

Will be held next week, beginning Wednesday, the 25th, ending Saturday, the 28th, four days inclusive. It will pay every resident of this county to attend the Fair for many reasons. Do you know that there are few people who live right here in this county that actually know what is being accomplished all over Southern and Central Oregon by the hundreds of progressive Farmers and Stock Growers. This will be an opportunity to get together and discuss modern ideas and modern methods; an opportunity to improve and profit next year by the past experience of this one. Not only compare notes with your nearest neighbors, (which quite often proves a benefit) but an opportunity to discuss very important matters with the citizens of an entire County, and that County the County which is destined to be Oregon's best in five years more.
