**ARMY RECRUITS ARE NOW EASILY FOUND**

United Press Service  
 WASHINGTON, D. C., Oct. 5.—Army enlistments during the last few months have taken a sudden and surprising increase, according to war department figures just given out. Despite the fact that the summer months are always dull recruiting periods, 2,975 men enlisted in the regular service of the army during July. One reason which might be assigned to large increase in recruiting is the new enlistment law, which goes into effect on November 1st. This law provides that every man enlisting after that date must complete four years of actual service, and then must hold himself in readiness as a reserve for three more years. He may be summoned at any time to serve in the event of a war or the imminence of war.

Doubtless, many men who have been considering serving in the army, but who, at the same time, do not wish to be held under obligation for so long a period, have taken advantage of the opportunity to enter before the law goes into effect, thus avoiding the three years' reserve duty.

**AERIAL RAILWAY IS CONSTRUCTED**

PASSENGERS WILL BE TRANSPORTED OVER THE PRECIPITOUS PLACES IN THE MOUNTAINS IN SWITZERLAND

United Press Service  
 WASHINGTON, D. C., Oct. 5.—Switzerland has just inaugurated an aerial railway for the transportation of passengers over precipitous places in the mountains, according to a report to the state department by Consul General Mansfield at Zurich. Several of these roads are now in operation, and the demands of tourists who want comfort in the ascent and descent of mountains, and who enjoy the novelty and sensations experienced in scaling the heights in cars carried through the air on cables, are encouraging the construction of the aerial routes over some of the most difficult places in the Alps. Heretofore aerial railways have been used only for military and industrial purposes.

Many Swiss people who love their mountains and enjoy the beauty and grandeur of the Alpine scenery regard these innovations with disfavor, claiming that they detract from the charm which the Creator gave to the great heights and the glaciers.

"Pardon me," said the stranger, "but how tall are you?"

"Five feet eighteen inches," promptly replied Mr. Carey.

"You are trifling with me, sir," spluttered the stranger. "You are taller than I am, and I am over six feet."

Whereupon he angrily walked away.
