O'Brien has been matched to go ten rounds before the Medford Athletic club on October 16th, with his old rival, Bud Anderson of Vancouver, Wash. These boys have met four times without a decision. Anderson claims his victories over Tommy McFarland and Abe Label of San Francisco make him confident that he can settle all differences with O'Brien in the coming match.

SIREN WHISTLE IS REJECTED

CITY COUNCIL FINDS SPECIFICATIONS ARE NOT FULLY COMPLIED WITH BY THE SUCCESSFUL BIDDERS

Councilman Savidge last night won his campaign against the new siren fire whistle. The city council last night voted to reject it, which means that, temporarily at least, Klamath Falls citizens will be summoned to fire fighting duty by the ancient bell. As chairman of a committee recently appointed to report on the whistle, Mr. Savidge reported that the whistle was not according to contract. He claimed that the air tank was small.

"Instead of holding 125 pounds of air," he said, "it has only a 100-pound gauge on it. The whistle is about 3 1/2 x 12 1/2 inches in size. It should be five feet long."

Mr. Sperry of Sperry Bros., who furnished the whistle, declared that an error had been made in the original specifications, and that the whistle was exactly similar to those in use in cities of greater population than Klamath Falls. The council took Mr. Savidge's view of the matter, and voted to reject the whistle.

POLICE CHIEF TRUANT OFFICER

CITY SCHOOL SUPERINTENDENT MAKES A REQUEST OF THE CITY COUNCIL—WANTS MORE PUPILS IN SCHOOLS

City School Superintendent Dunbar appeared before the city council last night and asked that a truant officer be appointed, preferably the chief of police. He stated that there were more than fifty boys and girls in the city of school age who were being kept out of school by their parents.

Mr. Dunbar stated that the duties of the truant officer would take up but little of the chief's time. "I will be pleased to take him around in my buggy," said Mr. Dunbar.

The council granted the request, and appointed the chief of the office, to which there is attached no pay.

J. L. Brenneman and wife are in the city from Oklahoma City with a view of locating. Mr. Brenneman is a brother of O. H. Brenneman, superintendent of the Water and Light company.

SAM EVANS GETS A CONCESSION

COUNCIL PERMITS HIM TO CUT DOWN THE ALLEY IN THE REAR OF THE NEW NORTHWESTERN BUILDING

That Sam Evans, publisher of the Northwestern, and Chief of Police Smith are not on the very best of terms became apparent at the meeting of the city council Monday night, when the former appeared before the city dads and asked permission to cut down the alley in the rear of the new Northwestern building.

"I object," said the officer. "I own property in that block, and half of that alley has come from my property. I object to having it cut down."

Mr. Evans also wanted the grade on Pine street changed, but in this matter he was opposed by the fact that there is not now a city official newspaper in which to advertise an ordinance, which would be necessary in order to proceed with any such change. Mr. Evans was advised of this fact, probably with the object that he would correct the statement appearing in his newspaper daily that the Northwestern is the official paper.

The publisher explained that his new building had now reached that stage of construction when it would be necessary to use the back alley through which to install his machinery, or stop work. It was arranged by the council to have the city engineer establish the grade of the alley and permit Mr. Evans to grade the alley to the stakes set.

SAN FRANCISCO MAN INTERESTS LOCAL POTATO RAISERS IN A PLAN FOR SECURING BETTER PRICES FOR PRODUCT

An association for the purpose of marketing the potatoes raised in the Klamath country is about to be organized. C. R. Kellogg, representing a San Francisco brokerage house, is in the city for the purpose, and he stated this afternoon that he had been meeting with great success.

"The potatoes raised in the Klamath country compare favorably with those raised in and around Salinas, Calif.," said Mr. Kellogg. "The Salinas crop is rated the best in the West, and commands the highest price. Many of the potatoes raised here will sell just as well."

"After a preliminary survey of the situation here I am convinced that this section will send out this year at least 300 car loads of potatoes."

Southern Pacific Starts Work Which Leads to the Belief that the Line From This City to Reno, Nevada, Will be Started Soon. Steam Shovel at Work

In the Southern Pacific preparing to rush construction work on the Modoc Northern, the proposed road from this city to Reno, Nev.?

Well informed residents of Klamath Falls are inclined to answer in the affirmative. For the past two weeks a steam shovel has been at work on the right

of way of the Modoc Northern at the foot of Lake Ewauna, where the line leaves the main line of the Southern Pacific. The grade of the proposed road is being made, and the surplus dirt is being carried away and used for ballast on the main line.

"Active construction work will probably not be started until spring,"

said a railroad man last night. "I may be mistaken, of course, but I do not believe that the company contemplates active operations until that time."

This man declined to allow his name to be used. He is supposed to be in "the know," but to what extent he would not divulge.
