Wild Rush for Wealth

A Mining Man Says,—"Gatlin Guns and an Army of Soldiers Won't Keep the Miners out of High Grade Next Spring."

"Away up in the mountains where Oregon and California meet; as where crystal springs bubble and towering pines nod and whisper and exchange greetings—morning and evening—up at High Grade—a gold stampede, a wild rush for wealth is on," said Chas. L. Fulton, of the Sunshine High Grade Mining company.

"If nature hasn't lied unmercifully, High Grade will be the most sensational gold camp of America. Cripple Creek, Tonopah or Goldfield never presented such a pleasing and surprising array of mineralized surface showings as are there in sight for investigation of mining engineers of any degree of repute, or for the practical mining man to pick into, pen or sample.

"The full story about High Grade has not been told, although much has been said and written. I have spent several years in some of the richest and biggest gold camps of the United States, and I never saw more rich gold rock on the surface than I can show you in this young camp. Wherever miners have dug upon the rich ore they have found more gold, and I am confident that as they dig deeper and deeper they will startle the world with fortunes torn out of the hills. Looking back over the history of other mining camps and comparing High Grade with those camps, there is no doubt, in my mind, that this newly-found mining wonder will outstrip them all in the production of precious metals.

"There are many mines being developed at High Grade, but the Sunshine mine is reported to be the richest. Car load shipments from this mine returns \$240 per ton in gold and silver. An average of the vein in shaft No. 2 is said to run 100 per cent.

"None of us can make a fortune by day's labor. We must look for a chance to invest our money where it will multiply rapidly. Every man or woman wants to improve his financial condition, and he wants his money put into a safe place where it will work for him night and day. Any man who has the foresight and a little nerve to make the right kind of an investment does not give up his life to hard manual labor.

"If you are an investor or speculator investigate High Grade and the Sunshine mine. Stock in this mine is sold at 25 cents per share. It is the richest mine at High Grade, and the company is in the hands of bankers and successful business men and land owners of Lakeview, Oregon. A few dollars invested now in Sunshine stock may return you a fortune.

"Gatlin guns and an army of soldiers won't keep the miners out of High Grade next spring," said an old miner today.
