Important announcement to the men and boys of Klamath Co.

Mix Ing-Up

By Joe Bush

C. S. Myers, who is in the city in charge of a crew of men engaged in changing the present antiquated telephone system to one more modern, is convinced that he succeeded in turning the tables on some of his men who thought to make him "goat" a night or two ago. Here's the story:

An advertisement appeared in The Herald asking for a nurse girl. After two or three young women had asked for the situation and been informed that a mistake had been made, one of Mr. Myers' understudies concocted the plot.

While Mr. Myers was eating dinner in the Hall grill he was informed that someone wished to see him in the hotel office. He apologized to his tablemates, and went upstairs. There he was introduced to a young woman.

"I am seeking the position of nurse girl which you have advertised as being vacant," she said.

"Er—Yes—or," Mr. Myers was clearly embarrassed, but he collected himself forthwith.

"I am not quite sure that you would care for the situation," he said. "However, I will show you my charges. Then you will be able to tell."

Thereupon Mr. Myers wrote a note and dispatched it downstairs. Soon thereafter there came up the stairs Frank Walstrom, L. Ijams, Captain Swain, "Swede" Johnson and several other men, all employed under Mr. Myers' direction. They lined themselves up in front of their chief.

"These are my charges," he said, turning to the young woman. "Do you think they need a nurse girl?" It was only a fleeting glance that the young woman cast in the direction of the husky telephone men, and then she fled.

WINTER WORK TO BE CARRIED ON

THERE WILL BE NO LET UP IN THE PROGRESS OF THE SECOND UNIT LATERAL OF THE RECLAMATION SERVICE

Work on the excavation of canals in the second unit of the Klamath project will in all probability continue through the winter, according to reclamation service officials. All of the sub-contractors under Maney Brothers have contracts calling for both dirt excavation and rock work, and as soon as the weather becomes too severe to do dirt excavation the sub-contractors will commence the work of blasting out the rock.

This announcement would indicate that the work on the second unit contracted for by Maney Brothers will be completed much sooner than anticipated, despite the rapid progress that was made in the different schedules. The work completed by the 1st of December was greatly in excess of the ten per cent required by the contract between Maney Brothers and the reclamation service.

Work on the steel flume across Lost River at Olene will be completed as soon as the bridge where the county road crosses the canal is widened. Timbers for this work were sent to Olene today.

The flume will carry water across Lost River from the east branch canal to the South Poe Valley lateral, which is now being built. The work of erecting the flume was done by the reclamation service.

In addition to the construction of the steel flume, the reclamation service also built 2,200 feet of flume near the Masten ranch, to carry the water on the North Poe Valley lateral around the rim rock at that point.

E. M. Wilson, who is one of the proprietors of the Hotel Medford, is spending a few days in Klamath Falls.

Easy to Get Relief From Indigestion

Your stomach should digest the food you eat, without the aid of any artificial digestion. If it won't do that, then you are continually exposed to dyspepsia, indigestion, heartburn, headache and constipation.

Instead of taking digestive medicine, why stop to get your stomach and intestinal system in a better condition? Nature's Time Vegetable will do this for you if you will take it regularly. It is not a digester of food, but it will restore your stomach and intestines so that they will do their own natural functions, leaving you well and giving strength to the body.

You more than sixty years ago they said of him and wonder who had written the name on the bottle. It was the name of the man who had written the name on the bottle. It was the name of the man who had written the name on the bottle.

Many cases of indigestion are the result of a weak stomach. For what reason? The stomach is weakened by the use of stimulants, such as alcohol, tobacco, and coffee. It is weakened by the use of laxatives, such as castor oil, and by the use of purgatives, such as calomel.
