"BE CAREFUL OF THE GAS" SIGN PENS ON NOTE LEFT OUTSIDE HER ROOM, WHICH GIVES MINUTE INSTRUCTIONS

United Press Service  
LONDON, Jan. 21.—A commendable example for future suicides was set by Mrs. Rose Thompson of Cambridge, before asphyxiating herself. Tied to the knob of her bedroom door a servant found a note reading: "Before you do anything else go down stairs and turn off the gas at the meter. Then get some one to come and open the bedroom window from the outside, as you will find the place full of gas. See that you turn off the gas before you light up, or you will cause an explosion." The coroner's jury rendered a verdict of suicide during temporary insanity.

## Assurance of Accuracy

The first consideration in selecting a watch is to get a reliable time keeper. It makes no difference how little you spend for a watch if it is money wasted unless you can depend on it to keep somewhere near accurate time.

In the manufacture of a watch one of the chief expenses is the final adjusting and regulating. There are, however, inexpensive watches of real merit. These are constructed along simple lines, and are dependable time keepers. Other cheap watches gotten up in a showy way are not worth carrying.

We have learned by years of experience to distinguish between the good and poor makes, and we will not sell a watch at any price that we cannot guarantee to be an accurate timepiece. Yours for service,
