Road Builders of Medford have Plan to Bond the State

Large Sum will be Asked for the Purpose of Building Roads. Highway from Lakeview to the Willamette Valley is Part of the Route Contemplated

A movement was started in Medford Wednesday to bond the state of Oregon for \$10,000,000 for the construction of two main permanent highways.

According to this bill, one highway will be constructed from Portland south through Eugene, Roseburg and Medford to the California state line. The other road will be constructed from Lakeview north through Bend and the Deschutes Valley to Astoria.

It is planned to appropriate \$7,000,000 for the Portland-Medford road and \$3,000,000 for the Eastern Oregon road. The former will be a hard surface bitulthic, with a concrete base, and it is expected it will cost \$15,000 a mile for construction, while grading will vary from \$15,000 a mile in the mountainous country to a few hundred dollars on the level stretches.

This tentative plan was decided upon after a two days' conference be-

tween members of the local good roads movement and Major Bowley. A delegation of Medford citizens will journey to Salem to present the bill to the house and senate.

The enthusiasts were at first inclined to object to the Eastern Oregon highway, but Major Bowley very quickly showed them that unless some such concession was made to this portion of Oregon there would be no appropriation from the state for good roads at all.

When the new administration is inaugurated it will be obliged to demand the return of these funds to the government. The effect of the withdrawal of so many millions is bound to cause financial difficulties."
