## KETTNER KNOWS ABOUT TARIFF

NEW CALIFORNIA CONGRESSMAN HAS GIVEN THE MATTER PRETTY CAREFUL ATTENTION FOR TWO MONTHS

United Press Service WASHINGTON, D. C., March 11.—Representative Kettner of San Diego is making no false pretenses on the tariff situation. Though he is just now becoming a real member of the house, he has been doing the routine work of the late Representative Smith's office for the past two months and is pretty well disillusioned.

"The plain fact is," he said today, "that every member here is favorable to placing on the free list everything but the products of his home district. I am in the same boat, though I am more liberal. I ask merely that the citrus products of my district be given their share of the tariff which must be retained in order that sufficient revenue shall be raised to meet our national expenditure."

Kettner's constituents have been wondering what success he would have in convincing Oscar Underwood that lemons and oranges could not stand a tariff cut. He has learned that some cut will be surely made.

Vital Questions Answered The subject tonight at the Christian church is "Chunks in the Wheel" (Excuses), and tomorrow night "Morality." ## CALIFORNIA HAS IRON ORE MINE

DEPOSITS IN MADERO COUNTY ARE BELIEVED TO BE LARGEST IN THE WEST—DEVELOPMENT AWAITS FUEL

United Press Service WASHINGTON, D. C., March 11.—Iron ore deposits at the summits of the Sierras, near Minaret, Madero county, California, are perhaps among the largest in the West, according to the United States geological survey bulletin. They are not yet valuable because they are too far from the fuel necessary for smelting.

Less extensive, but more valuable, are the iron ores in the Eagle Mountains in Riverside county, the southern desert. They have just been surveyed and mapped, and a chain of continuous deposits, six and a half miles long, is now known to extend across the summit of the range on the north limb of the dome. The government investigator estimates the ore to amount to about 60,000,000 tons, mostly high grade.

Development of these ores depends upon the opening of the Alaska coal fields and the cheap transportation of that fuel to California ports, where blast furnaces and steel plants will be established.

United Press Service SAN FRANCISCO, March 11.—The date of the Wolgast-Murphy fight here depends upon the time the stork arrives at the home of Mr. and Mrs. "Harlem Tommy" Murphy. Murphy is now on his way East.

United Press Service MADRID, March 11.—Escaping from his pen, a fighting bull spread terror in Salamanca. It quickly scattered pedestrians in the streets, and after knocking over a number of fruit stalls, entered Luciano Moreno's tailoring establishment. The tailors' dummies aroused the wrath of the animal, and after tossing Luciano and driving his customers from the store, it proceeded to gore and trample on the figures. Eventually the brute had to be shot.

United Press Service ST. PETERSBURG, March 11.—Members of the progressive parties are pressing the duma for an investigation of what they declare to be the awful inhumanity and cruelty in Russian prisons. Testimony and evidence gathered in support of the interpellations of the government upon the subject, are said to disclose conditions worse than have ever been written. In many of the prisons prisoners are treated with indescribable barbarity and inhumanity.

## TEN YEARS TO GET CORRECTION

NEW RECORD FOR LAND OFFICE DELAYS IS SET IN CONNECTION WITH TWO TOWNSHIPS IN WALLOWA COUNTY

WASHINGTON, D. C., March 11.—Land office delays have set a new record in the case of two townships near Enterprise, Wallowa county, in North-eastern Oregon, where settlers have for more than ten years been kept waiting for a correction of the original survey that may deprive them from a considerable part of their lands. Congressman Hawley has just secured from the commissioner of the general land office a special deputy who will adjust the trouble this spring.

Discovery that the two townships overlapped upon an adjoining grant was made in 1902, and the land with its settlers established was withdrawn from entry. The settlers stayed, acquiring squatters' rights, but many buildings they have constructed and improvements of land made thus far may finally be found to belong across the line. The land office had simply failed, during ten years, to finish the work it began when it withdrew the lands.
