United Press Service STOCKTON, March 12.—Clad in a weird looking gown and a red "Woodrow Wilson" cap, Carl Browne, chief of the "Army of the Unemployed," has arrived here, and is mobilizing his forces preparatory to moving on Sacramento.

They are going to the capital to lobby for the Scott-Gates bill, providing lodging and eating houses for the unemployed.

They will cook a big "Mulligan" stew in the Stockton court house plaza, which Browne has secured permission from the county to use as a camping ground for his army during their stay here.

A county field and track meet may be one of the features of commencement week at the Klamath county high school, according to students and faculty members prominent in athletic circles at the local institution. The high schools at Merrill and Bonanza will be invited to send track teams, and arrangements may also be made for entries by grammar schools.

"Track work is causing a great deal of interest at the high school this year," said Prof. E. V. Legislature is Praised by the Anti-Saloon League

Attention is Called to Moral Legislation. Many Bills Urged by the Moralists are Passed by the State Law Makers, Among Which are Liquor Laws

That the last Oregon legislature was most responsive to moral legislation is the declaration of the officers of the Oregon Anti-Saloon League in a circular now being distributed.

Attention is particularly called to bills relating to the sale of liquor which were passed by the legislature. The bills are as follows:

S. B. 84—Prohibits sale of liquor outside of municipalities, and closes thirty-nine saloons in the state, with seven counties not heard from, and makes all of the state outside of municipalities practically prohibition; except that the county court of any county may, in its discretion, on petition signed by a majority of the legal voters of the precinct grant to any bona fide club of not less than

fifty members, not organized for profit, or any hotel with accommodations for not less than fifty guests, the right to furnish liquor to its members of guests. S. B. 84—Requires that each package of liquor shipped into prohibition territory shall be plainly marked with the name of the consignor, consignee, kind and quantity of liquor enclosed, and that all express and railway companies shall keep a "book" in which there shall be kept a record of the amount and kind of liquor received, the name of person to whom shipped, by whom and to whom delivered, and a blank space in which the consignee shall sign his name before receiving such liquors. Such book shall be open to

the inspection of the officers, and be prima facie evidence of the facts stated therein.

This law locates the boot loggers in dry territory, and shows how much liquor they receive, and will be a great help in liquor prosecutions.

S. B. 352—Provides that whenever in the opinion of the governor the criminal laws of the state are not being faithfully enforced, he shall lay the facts before the circuit court or any judge thereof, who shall without delay in a summary manner consider the facts so presented, and if the court shall find that the criminal laws are not being faithfully enforced, the governor may appoint for ninety days special officers to enforce the laws.

BENEFIT DANCE TICKETS SOLD

FIREMEN ARE SELLING ADDITIONAL TICKETS FOR EIGHTH ANNUAL BALL TO BUSINESS MEN AND RESIDENTS

Sale of tickets for the eighth annual ball of the Klamath Falls Volunteer Fire Department was commenced today, and this afternoon a large number of tickets had been disposed of. Every public spirited man approached purchased a ticket, and many purchased more than that number.

They took the view that the dollar donated to the fire department in this way, whether they attend Monday night's dance or not, is money well spent, as it provides a fund for replacing clothing damaged by the volunteer firemen while working to save property from destruction.

A notable fact in connection with the local fire department is that very few of the firemen are property owners. None of them are guided by selfish interest in their work of protecting property, and they receive no compensation whatever from the city for their work.
