## SUGGESTS CIGARS IN ROAD BUILDING

**BILL BEFORE CONGRESS PROVIDES FOR A SMALL TAX ON CIGARS TO BE USED IN PAVED HIGHWAY SYSTEM**

WASHINGTON, D. C., March 12.—The tobacco users of this country can build a system of paved highways connecting every state capital and passing through every city of commercial importance within five years, and never realize they are doing it, according to Representative Warburton, who has introduced a bill with this object in view. Most of the money would be contributed by cigar smokers, and the Warburton bill would impose a tax of fifteen-hundredths of a cent on cigars selling under 5 cents, three-tenths of a cent on 10-cent smokes, and six-tenths of a cent on those retailing above 15 cents. Such a tax would bring in \$40,000,000 a year, and estimating the cost of the road at \$15,000 per mile, the proposed system could be paid for from this source in about five years.

The salient features of the Warburton plan are: Every city of over 100,000 population is located on a main trunk line; two-thirds of the cities of more than 20,000 are on a main trunk line; every capital of the United States is on a main highway; every seaport over 20,000 is on a main line, and over two-thirds of the people of the United States will reside on a main line or within ten miles of one. The total mileage is about 18,000 miles.

The bill also provides for branch roads to every city of 20,000 providing it can be reached within fifty miles; in case the distance is greater, the government will undertake to build the fifty miles if the state will construct the balance. There are only about seven cities of 20,000 more than fifty miles from one of the main lines.

## MANY WARRANTS ARE ACCEPTED

**RECORD IS ESTABLISHED WHEN \$12,000 WORTH OF COUNTY WARRANTS ARE CANCELLED BY THE SHERIFF**

A record in warrant cancellation occurred Wednesday when \$12,000 worth of county warrants were accepted in the sheriff's office in payment of taxes.

As a result of the acceptance of warrants in payment of taxes, it is now difficult to secure warrants for less than 100 cents on the dollar.

## MICKLE DEMANDS CLEAN DAIRIES

**NEW STATE FOOD AND DAIRY COMMISSIONER HOLDS IT IS NOT AN INTRUSION, BUT A MATERIAL AID**

A note of warning to milkmen who keep their dairies in anything but a strictly sanitary condition is sounded by State Food and Dairy Commissioner J. W. Mickle in the monthly bulletin of the commission, which has just been issued. This is the first bulletin issued since Mickle assumed office, and in it, he outlines his policies to a certain extent.

"Dairying has become highly commercialized," says the report. "A generation ago each farm has a sort of a kingdom of its own. Little was sold from the farm, and much was bought. Practically all that the farmer and his family ate and much that they were produced on the farm. There was little commercial intercourse with the farmer in those days.

"Today, every farmer specializes in one or two commodities, and depends upon the common market for everything else that he uses. As a result, dairying has so changed that the city consumer no longer gets his supply of milk, butter or cheese from a certain farm friend whose premises he had the opportunity to inspect. On the contrary, the milk and cream from hundreds of dairy farms is placed in one vat to be either bottled and delivered as sweet milk or cream, or churned into butter and placed on the common market. The consumer is compelled to buy from the common market and no opportunity is afforded him to know where, or under what condition it is produced. Being, therefore on a plane of commercialism equal to that of other commodities, the production and sale of dairy products must have some state supervision if the consumer is to be safeguarded.

Dairy inspection must therefore not be looked upon as an intrusion; but as a material aid, an aid by way of education and an aid to the honest dairyman, in that it prevents dishonest competition.

Much improvement has taken place in recent years by way of simple, inexpensive and sanitary contrivances, both in equipment and in methods about the dairy. Sanitary stalls for dairy cows, well ventilated and lighted stables and sanitary utensils are cheaper in the long run than the old sanitary kind, and we will supply the plans and urge the use of these improved methods, as well as equipment.

We found a number of cases of short-weight butter in practically all parts of the state, indicating that it is general among creameries as well as farmers who make dairy butter to cut slightly in the weight.

When butter sells for a good figure, as at present, a shortage of an ounce per roll means 7 per cent increase in the profits of the manufacturer, and also a 7 per cent increase in the cost to the consumer. This is unfair to both parties, as well as a violation of the law drafted to cover that specific purpose.

## WILSON BLAMES SYSTEM FOR EVIL

**SOCIALIST MAYOR OF BERKELEY SAYS CHICAGO INVESTIGATION SHOWS INNER WORKS OF CAPITALISM**

United Press Service  
 BERKELEY, March 12.—"If the Chicago investigators wish to strike at the root of the evil they must strike at the fundamental wrongs of the capitalistic system." This is the policy of J. Stitt Wilson, socialist mayor of Berkeley, would apply into the investigation of working girls' wages in Illinois. Continuing his statement the mayor declared: "The girls must accept low wages in a competitive labor market because the husbands and other breadwinners are exploited by a monopolistic evil which concentrates the unpaid earnings of labor in the hands of the capitalistic class."

E. W. Lawrence was a Merrill visitor Wednesday.

## U. S. DETECTIVES SEEK EVIDENCE

**BOOTLEGGERS ARE WORRIED OVER THE PRESENCE IN KLAMATH FALLS OF TWO SECRET SERVICE AGENTS**

Bootleggers who have operated among the Klamath Indians have been seriously worried for the past ten days because of the presence here of two secret service agents of the Indian department.

Three arrests have been made, and it is reported that considerable evidence has been collected.

The two government men left the city this morning. It is not believed that they expect to return soon.

In addition to making a thorough investigation, the government agents interviewed a number of suspects, against whom no definite evidence could be secured, and warned them to quit selling the redskins whiskey.

## BOARD CHOOSES DEPOSITORIES

**FIVE KLAMATH TOWNS DESIGNATED — STATE TEXTBOOK COMMISSION TO ANNOUNCE NEW BOOKS IN JUNE**

Depositories for school books are named by the state textbook commission in a circular issued by the state board of education. Over 100 cities and towns in Oregon are named as depositories where school books must be sold.

The towns in Klamath and Lake counties follow:  
 Klamath — Bonanza, Bly, Fort Klamath, Klamath Falls, Merrill.  
 Lake — Adel, Lakeview, New Pine Creek, Paisley, Silver Lake.

The new textbook commission will decide in June on the books to be used in the schools for the coming six years.

It falls to the state board of education to name the school book depositories, as it is required that books be placed on sale in the designated cities and towns in Oregon.

CHIEF RABBI OF THE BRITISH EMPIRE AND HIS WIFE

Rabbi Joseph Herman Hertz, chief rabbi of the British empire, and his wife have sailed for London, where Rabbi Hertz will assume his new duties. He is the first rabbi to be appointed to the chief office since the return of the Jews to London in Cromwell's time.

Rev. R. B. Eaton of London has declined to officiate at any more weddings until the word "obey" is omitted from the ritual and women are put on an equality with the men.

## GRANDMOTHER USED SAGE TEA TO DARKEN HER FADED OR GRAY HAIR

Mixed With Sulphur, It Makes Hair Soft, Beautiful, Cures Dandruff

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect.

But the brewing at home is messy and out of date. Nowadays skilled chemists do this better than ourselves. By asking at any drugstore for the ready-to-use product, called "Wyeth's Sage and Sulphur Hair Remedy," you

will get a large bottle for about 50 cents. Some druggists make their own, which is usually too sticky, so insist upon getting Wyeth's, which can be depended upon to restore natural color and beauty to the hair, and is splendid for dandruff, dry, feverish itchy scalp and falling hair.

A well known downtown druggist says his customers insist on Wyeth's Sage and Sulphur, because, they say, it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. Do this at night and by morning the gray hair disappears; after another application or two it is restored to its natural color and looks glossy, soft and abundant.

## GOOD PRINTING

Is an important factor in any business, and often contributes toward success. Let us show you our stock of bond paper and print for you a line of office stationery which will prove a business-getter

**W. O. SMITH PRINTING CO.**
