HUNTER SAVIDGE TO GO ON TRIAL FOR EXTORTION

CASE IN NET BY JUDGE BENSON THIS MORNING

Monday, March 14, in Date—Witnesses Are Subpoenaed to Be Here the Next Day—James H. Wheeler Will Probably Return to This City From Canada to Give His Testimony

Hunter Savidge, president of the Savidge Bros. Lumber company, will be placed on trial March 14th in the circuit court on a charge of extortion. This announcement was made by Judge Benson this morning during the calling of the criminal docket.

When the case was called up the court speedily disposed of it without serious objection on the part of the district attorney.

"The subpoenas I have issued in this case," said Mr. Irwin, "are for March 15th."

"It will probably require at least a day to secure a jury," replied Judge Benson, "so that witnesses will not be required until the next day, the 16th."

Mr. Savidge was not represented in court by attorney C. F. Stone and Thomas Drake, who were retained by him following the return of the indictment, were present, but they announced that they were no longer in the case. No announcement has yet been made of their successor.

It is understood that subpoenas have been issued for James H. Wheeler and W. B. Barnes, the two witnesses considered the most important in the case. Both are now in Hardisty, Alberta, Canada, and Barnes, formerly sheriff of Klamath county, is in Oakland, Calif. At Sheriff Lew's office this morning it was stated that no subpoenas in this case had yet been turned over to them.

Many stories have been current since Wheeler left the city as to his future plans. It was declared that he did not intend to return to this city under any circumstances. In letters to friends in this city, however, Mr. Wheeler has frequently declared that if a subpoena should be issued he would willingly return.

United Press Service LONDON, March 15.—The ambassadors of the powers met informally in a conference today to consider the reply of the allies. It is admitted that the powers cannot accede to the demands of the allies.

The indemnity demands are considered exorbitant. It is probable that the powers will refuse to give Greece the Aegean islands.
