Reclamation Service is Bitterly Attacked

Congressional Committee Makes Investigation of Work in the South and Charges Incompetency

A copy of the report of the committee on expenditures in the interior department, recently submitted to congress, has just been received here and has aroused great interest from the water users in this section.

An appropriation of \$25,000 is requested to make an investigation of the reclamation service, which is declared to be composed of incompetents, and even charges of maladministration are made.

The report recommends the removal from office during the pendency of the proposed inquiry of Assistant Secretary of the Interior Samuel Adams and F. H. Newell and L. C. Hill, director and supervising engineer, respectively, of the reclamation service.

The report recommends equity proceedings to cancel the government contract with the Pacific Gas and Electric company, "by which this corporation is given a monopoly of the power developed at the Roosevelt dam, and to institute criminal proceedings according to its judgment."

Invasion of the water rights of the Pima and Maricopa Indians in Arizona, and the despoiling of their farms; gathering in of big tracts by the Arizona Canal company and other concerns; "stock juggling operations of canal promoters," that caused many farmers to pay several times over for every canal delivering them water; \$500,000 expenditure by the reclamation service in the Gila River water area against the protest of the Indians in work disastrous to the Indians and valuable only to land grabbers; and the resignation of W. H. Code, irrigation engineer of the Indian bureau, as soon as it became known the committee was to investigate the matter, are among things charged in the report. Code formerly had been irrigation engineer for A. J. Chandler, who, the committee says, "according to testimony before us, owned a tract of 180,000 acres, and defrauded the government of it by dummy entries."

The report charges that "Newell and his associates" discriminated against the farmers and the corporations operating the canals, and that the bondholders thereof "alone received attention from them on the Salt River project." It is alleged that as the reclamation act provides that only the estimated cost of construction may be recovered by the government, and the estimate of the secretary of the interior was \$3,850,000, and the expenditures to date have been \$10,547,896, the government's loss on this project appears to be \$6,747,896.

The statement that the government will lose \$6,000,000 on the Salt River project is absurd," Director Newell has said. "It will collect every dollar it has invested there if the present law is not changed. As for the charges against the reclamation

TAXES BRING MUCH MONEY

MORE THAN \$200,000 IS ESTIMATED TO HAVE BEEN PAID TO THE SHERIFF DURING THE LAST FEW WEEKS

According to an estimate made by Deputy Sheriff Haydon this morning, more than \$200,000 has been paid in by Klamath county taxpayers for taxes since February 15th.

The force in the sheriff's office is now engaged in checking up the receipts, and no definite figures are as yet available, but Mr. Haydon's estimate is considered conservative.

In addition to the cash receipts there has been a vast sum paid in warrants of the county.

WIFE OF NEW JERSEY'S GOVERNOR

(Copyright, 1913, by Underwood & Underwood)

Mrs. James Fielder, wife of the new governor of New Jersey, who succeeded Woodrow Wilson, will be one of her husband's chief aids in his fight to continue the Wilson policies in his state. Governor Fielder has announced that he will enter the democratic primaries this fall as a candidate for the democratic nomination. Two strong candidates for the nomination, one of them Mayor Otto Witt-penn of Jersey City, a friend of President Wilson, will make the fight against Fielder. Mrs. Fielder is known in society throughout New Jersey.

GETTING GRAY? USE SAGE TEA TO RESTORE NATURAL COLOR OF HAIR

Says Sage and Sulphur Darkens the Hair Beautifully and Gets Dandruff

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, says a well known local pharmacist. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and even today this simple preparation has no equal. Millions of women and men, too, who value that even color, that beautiful dark shade of hair which is so attractive use only Sage Tea and Sulphur.

Nowadays we are not bothered with the task of gathering the sage leaves and the mussy mixing at home. Simply ask at any drug store for a 50 cent bottle of the ready to use preparation

called "Wyeth's Sage and Sulphur Hair Remedy." Customers like this best because it darkens so naturally; so evenly, that nobody can possibly tell it has been applied. Besides, it contains ingredients which take off dandruff, stop scalp itching and falling hair. No, it isn't a dye, or even like it. You just dampen a sponge or soft brush with "Wyeth's Sage and Sulphur" and draw it through your hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two it is restored to its natural color. What delights the ladies with "Wyeth's Sage and Sulphur" is that besides beautifully darkening the hair they say it brings back the gloss and lustre and gives it an appearance of abundance.
