ALVARADO, Calif., April 5.—While two yeggmen with rifles held off an armed crowd of citizens, three other members of the gang set off seven charges of explosives in the vault of the bank of Alvarado early today.

The last explosion wrecked the door of the vault, jamming it against a receptacle containing \$37,000. This foiled the crackmen, who secured only \$19 for their work.

Prizes Will be Awarded for Biggest Trout Caught Here

Rod, Reel and Line to be Given Fishermen Who Can Prove That They Landed the Largest Fish Caught in Klamath County Between Now and July 1st

Although the fishing season is only a few days gone, there are already tales told by some of the fishermen about the whalloping big trout they landed while out on their last trip. From now on to the end of the summer these stories will be dragged town with amazing frequency. Klamath county's streams have always been noted for the largest and finest trout in the West, so these stories that are brought in are by no means far fetched. However, it is the intention of J. B. (Barney) Chambers of the Gun Store to settle for good and for all the question of who lands the biggest fish this year. He has just announced that he will award three prizes for the three largest trout caught in any Klamath county waters from now on until July 1st. For the biggest trout landed, Chambers will present the lucky fisherman with a \$12 rod. The angler making the second largest catch will be given a \$5 reel, and the third prize will be a \$3 line. In order to be considered for prizes the fishermen must have witnesses as to the weight of their rod and the weight of the fish, as one of the provisions of the contest is that a telegraph pole with a rope tied to it cannot be considered good fishing tackle. The rod used must not weigh over eight ounces. There is no ruling regarding lure. Spoon, bait and fly all are permissible.
