President Woodrow Wilson Before Joint Session of Congress

WASHINGTON, D. C., April 16.—When President Woodrow Wilson stepped before the joint session of the house and senate April 16th to deliver in person an address to congress he broke precedents of more than one hundred years. Yet it is the intention of the president to continue smashing precedents. He will appear before both houses many times in his administration. The report comes from the White House that he will not appear before congress every time he has a communication to make, but will reserve this method for statements which he purposes making very impressive. Messages concerning routine matters will be sent to congress and read by the clerks of both houses in the usual manner, and detailed reports of departments will be sent by secretaries. Any time the president wishes to gain the attention of the country he will notify both houses of his intention to address them. He will make his argument, which will get on the first page of every newspaper, and dis-
sentsing congressmen will be helpless to debate the subject with him. The appearance of the president on April 16th was marked by a crowd and an audience such as is seldom seen in the house. Most of the diplomats and all Washington society which could reach the galleries heard him.

United Press Service
PHILADELPHIA, April 16.—Con-
fident that he will knock out Jim Flynn in tonight's bout, Luther Mc-
Carthy, "white hope," declared he will take no chances in the outcome of a six-round bout. All through his training season, which began here April 1st, McCarthy has striven to develop his "punch" for the one blow he says will finish the contest. Flynn has also been training vigorously, and insists that the full six rounds alone will tell the tale.

HAIR TURNING GRAY OR FALLING?

JUST MIX SAGE TEA AND SULPHUR
It's Grandmother's Receipt for Dead-
ru'd and Restoring Color
to the Hair
Almost everyone knows that Sage
Tea and Sulphur, properly compound-
ed, brings back the natural color and
lustre to the hair when faded, streak-
ed or gray; also cures dandruff, itching
scalp and stops falling hair.
Years ago the only way to get this
mixture was to make it at home,
which is messy and troublesome.
Nowadays skilled chemists do this
better than ourselves. By asking at
any drug store for the ready-to-use
product—called "Wyeth's Sage and
Sulphur Hair Remedy"—you will get
a large bottle for about 50 cents.
Some druggists make their own, but

MUST GET PERMITS TO SEE PELICANS

GOVERNMENT BIRD REFUGE IN LOWER KLAMATH LAKE TO BE OPENED THIS YEAR TO EXCURSION PARTIES

In order to visit Lower Klamath Lake bird refuge, the nesting place of thousands of pelicans, cranes, curlews, and other migratory aquatic birds, it will be necessary to first obtain a permit from J. J. Fieber, warden of the reserve. A letter to this effect has been sent out by L. Alva Lewis of Portland, who is connected with the bureau of biological survey of the department of agriculture.

The same order states that permits will not be granted to companies conducting excursion parties to the bird islands.

Following is the letter:
"In view of the fact that heretofore irresponsible parties have been in the habit of disturbing the birds in the nesting colonies on the Klamath Lake national bird reservation, and that, for the proper protection of it will be necessary to restrict free access to the colonies of birds nesting on the reservation;
"It is hereby ordered that hereafter persons desiring to visit the bird colonies on the Klamath Lake reservation must first obtain written permission from you as warden in charge, and that such permits shall be good for one day only.
"Hereafter no permits will be given to any person, firm or company desiring to make a business of conducting excursion parties to the nesting colonies on the reservation."

BAY CITY PLANS TWO LAUNCHINGS

TWO SUBMARINE CRAFT NOW NEARING COMPLETION AT SAN FRANCISCO, LEAVE NEW WAYS TOGETHER
United Press Service
SAN FRANCISCO, April 16.—When the submarines H1 and H2 leave the ways at the Union Iron Works early next month, it will be the first double launching this city has ever witnessed. The vessels are 95 per cent completed today, and now await only the "trim's." Three more submarines are under construction, and when they are completed, San Francisco's contribution to the "mosquito fleet" will have been a notable one.
It is planned to make the twin launching a big event. The program will be announced in a few days. San Francisco figures high in the number of battleships she has turned out from her shipbuilding plants, and which have subsequently made history. Twenty-five years ago the Charleston was launched here. She was lost off the coast of Luzon during the Spanish-American war. The battleship Oregon was built here, and the Olympia, Admiral Dewey's flagship first dip in the waters inside the ship at the battle of Manila Bay, took Golden Gate. The California and Ohio, the latter launched in the presence of President William McKinley, were also of San Francisco build.
