GRANDMOTHER USED SAGE TEA TO DARKEN HER FADED OR GRAY HAIR

Mixed With Sulphur, It Makes Hair Soft, Beautiful, Cures Dandruff

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect.

But the brewing at home is messy and out of date. Nowadays skilled chemists do this better than ourselves. By asking at any drugstore for the ready-to-use product, called "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle for about 50 cents.

Some druggists make their own, which is usually too sticky, so insist upon getting Wyeth's, which can be depended upon to restore natural color and beauty to the hair, and is splendid for dandruff, dry, feverish itchy scalp and falling hair.

A well known downtown druggist says his customers insist of Wyeth's Sage and Sulphur, because, they say, it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. Do this at night and by morning the gray hair disappears; after another application or two it is restored to its natural color and looks glossy, soft and abundant.

Professor John Bassett Moore

WASHINGTON, D. C., April 23.—Professor John Bassett Moore of Columbia University, whose nomination as counsellor of the state department was sent to the senate last week by President Wilson, is to be the big man in the department. It is on his knowledge of international law, perhaps more than on that of Secretary William J. Bryan, that the president will rely in case of trouble. He will at least be as important as Huntington Wilson was during the last administration. Wilson made himself the right hand man of the secretary, but Professor Moore is expected to make the position of counsellor most important. Professor Moore has written many volumes on international law. His knowledge is encyclopaedic. He is the chief authority in the United States on the subject. When President Roosevelt made up his mind that the United States needed Panama for the canal zone, he called in the professor to formulate a plan. The professor provided him with one. But, as the story goes, the president did not stick closely to the professor's recommendations. Since then Columbia has cried out that she was robbed of the territory in the new republic.

Dancing Ponies in Bill

Part of the Chorus in "The Prince of Tonight" Musical Comedy to be given at Houston's opera house Saturday and Sunday nights.

As a lyric entertainment "The Prince of Tonight," coming to the Houston opera house Saturday and Sunday, April 26 and 27, is worthy of the patronage of all lovers of light opera. The piece is the most wholesome ambition creation that Adams, Hough and Howard have ever given the lighter stage. The settings are brilliant with bright hues, the gowns are masterpieces of the modiste's art, and in ensemble and detail this entertainment is finished. The score is the best to which Howard's name has ever been attached. All of the numbers have graceful, melodic charm, and the finales, ballets and incidental scores have genuine musicianly distinction. The entire cast is evenly balanced, the figurantes are handsome, the dancing girls neat, and the entertainment from start to finish is splendid.

LETTERS FROM THE PEOPLE

(Communications sent to the Herald for publication in this department should not exceed 300 words in length and must be accompanied by the name and address of the sender.)

Editor Herald:

In his comments of the good roads meeting at Merrill last Saturday night, your Merrill correspondent quotes Judge Worden as saying that P. L. Fountain had said it was the intention to remove the court house back to the old site, that Mr. Fountain jumped to his feet and denied that he made such a statement and that he confronted him and said that he did, or words to that effect. Your informant was very badly mistaken, as no such language was used. Judge Worden made the accusation, and asked me if he did not. Mr. Fountain did not say a word. I answered that "I think he said it."

The reason that I answered as I did was that a citizen of this county had told me a few days before that he said so, and in conversation with Judge Worden had expressed my surprise that a man whose judgment and integrity I regarded as high as I did

Mr. Fountain's would maintain such an attitude. Perhaps I am to blame for the whole matter, and if so, I hereby apologize to all concerned, but at the time I made the answer I believed that he had so stated. I know he never stated so to me, and he now says that he did not to any one else, and I believe him.

I make this statement that a good man may not be improperly quoted or advertised. Respectfully yours, R. A. EMMITT.

COUNTY FUNDS DRAW 2 PER CENT

ATTORNEY GENERAL'S OFFICE GIVES AN OPINION REGARDING COUNTY MONEY DEPOSITED IN A BANK

SALEM, April 23.—Assistant Attorney General Van Winkle rendered an opinion to John Frawley, treasurer of Union county, that county funds deposited with banks under the provisions of the new law which will go into effect June 3, will draw 2 per cent interest.

There was confusion over this, owing to the fact that in the body of the law the rate of 2 per cent was named, while in the form of the bond the amount was placed at 1 per cent. Mr. Van Winkle held that the rate in the body of the law would apply, as the other was merely a form indicating the manner of drawing the bond.

Blackfeet Indian Song Phonographed

Geoffrey O'Hara, recently appointed by the Interior Department at Washington to record the travel songs and music of all American Indians, began his work in New York City last week by taking his first phonographic records of the songs of the Blackfeet Indians from Glacier National Park, Montana. Secretary of the Interior Lane took advantage of the presence of the Blackfeet Indians in New York, where they came to attend the Travel and Vacation show as guests of Louis W. Hill, chairman of the Board of Directors of Great Northern Railway. He sent Mr. O'Hara on to New York, from Washington, to begin his laborious task with these Indians. During the stay of the red men in New York, Mr. O'Hara had them sing into phonographs and the records will be sent on to Washington to be put in the government archives, therefore preserving for all time the music of the original Americans, who are rapidly passing to the Happy Hunting Ground.

The accompanying picture shows the Indians singing to the phonographs under the direction of Mr. O'Hara.

The Indians could hardly grasp the idea at first of how they could sing into a tin horn and thereby record their music. After the first song had been sung, however, the reproduction was given them in a few minutes and the magic of the operation was bewildering to them. They thought it was the most wonderful of all the wonders they have seen, since their invasion of Greater New York. Mr. O'Hara had them sing daily to his phonograph, while the Indians were in New York and he is arranging to visit Glacier National Park early this summer and complete his records of the Blackfeet tribe there.

Through the Interior Department arrangements were made to take these records privately in an out of the way loft, second floor of 41 West 97th Street. Mr. O'Hara is a tenor singer and writer of songs of some note. Several of his musical friends prominent in the musical world in New York City and are very much interested with him in the rhythm of the Glacier Park Indians' love songs. There is one song in particular which the Glacier Park Indians sing, in which these musical critics and considerable merit. This is a song descriptive of the Blackfeet Indians' love of his home environment. This is a song which they always have sung when they left the shadows of the Rocky Mountains and rode far over the prairie either on hunting expeditions or to visit the Sioux. Mr. Top, the Indian interpreter, says, "His people always sing this song because when they go away from the mountains their hearts are lonely and it makes them think of 'Home, Sweet Home.'" Mr. Louis W. Hill, chairman of the Board of Directors of the Great Northern Railway, who has done much for the Indians of the West in an educational way, both in agriculture and trade, is very much interested in Mr. O'Hara's work and has arranged to have the records of the Blackfeet Indians' songs made available to the public during the early summer. Mr. O'Hara will take his phonograph with him and make records of these Indian songs.
