Simultaneously a new wing, just built on the Sahley school at Aberdeen, burned up. This entailed a loss of \$2,500.

FIRST DOPE IS HOLDING GOOD

IN BOTH CIRCUITS THE TEAMS ARE PERFORMING IN JUST ABOUT THE MANNER THAT WAS PREDICTED

By HAL SHEHRIDAN

United Press Service
NEW YORK, May 3.—The race is well on, and from the way the clubs have been shaping up it looks as if the prophets had the right dope. The teams in both leagues, with the exception of Boston, are just about showing what consensus of opinion said they would show. It's true the Red Sox didn't start like repeating world beaters, but Dame Boston isn't worrying and she shouldn't, for she has the same remarkable machine representing her that finished ahead of McGraw after a gruelling fight last October. Boston didn't set the pace so very early last year, and while a running getaway proves a big handicap, it's comforting to have the bad streak come at the start, when you know you have the stuff to retrieve a few early set-backs.

That \$100,000 which the two major leagues lost through relay weather may have had something to do with President Wilson's action in requesting Willis Moore's resignation as chief of the weather bureau. It was officially announced that Professor Moore was "released" because he used federal employes to boost him for secretary of agriculture on government time. Of course, that may be so, but millions of baseball fans are known to have been inimical to Moore for years, because of the poor weather he has frequently dished out to them on big days. The rain and cold furnished for the opening of the season may have had more to do with the ex-weather chief's enforced resignation than the administration at Washington will admit.

It's good to learn from Secretary Tom Davis of the Highlanders that he is not after Ty Cobb. Having bagged Frank Chance, the New York Americans ought to be satisfied for one season.

COURSE HE FOUND IT

Do Herald Want Ads pay? "Mitch" says they do.

"Mitch" is a traveling salesman known in every section of Northern California and this part of Southern Oregon. His name appears on the hotel registers as A. A. Mitchell of San Jose, and he represents a concern incorporating "Why" in their trademark.

But to get back to the advertisement question again. Yesterday Mitch lost a Knights of Pythias pin on the street. The pin was a Christmas gift from Mrs. Mitch, and for years it has been the pride and joy of the salesman.

Hearing of the success of those who tell their wants through the classified column of The Herald, Mitch yesterday afternoon inserted a small "lost" notice in this paper. In less than two hours after the paper went to press the pin was returned to Mitchell by W. T. Forrest, who found it.

There are several of these instances each week, wherein the Herald proves its value as an advertising medium.

SACRAMENTO, May 3.—The Webb anti-alien land bill was passed by the senate this morning. It is expected that it will be passed by the house before night.

The vote in the senate was 36 to 2. Opposing the measure were Cartwright and Wright.

Senator Boynton today admitted that the leasing clause in his amendment may perpetuate the Japanese colonies in California.

Governor Hiram Johnson stated today that he will sign the bill in a reasonable time after its adoption by the house.

It is reported that a referendum is likely to kill the Boynton leasing clause. There is a possibility of submitting an entirely new bill on initiative petition to the voters of California.

United Press Service

SACRAMENTO, May 3.—The leasing clause in the Webb bill is no backdown on the part of the California legislature, according to an exclusive statement given to the United Press by Governor Johnson today.

"We have accomplished a big thing," said Johnson. "We have prevented the Japanese from driving the root of their civilization deep into the soil of California."

"There has not been an inch of recession by either the administration or the senate on the anti-alien land legislation. The leasing clause is included in the interest of our own people, in order to give them time to readjust themselves to the new conditions."

"In all the representations by President Wilson and Secretary Bryan not a word was uttered or written concerning leases. California is standing firm for our right, and we mean to have it."
