RYAN-CHINDA CONFERENCE IS HELD IN OFFICE

UNDERSTOOD JAP PROTEST IS THE SUBJECT

Showing the Return of Wilson From Mount Vernon, Secretary of State Will Discuss Earlier Conference. Amicable Adjustment Seems a Certainty According to Officials—All Up to Bryan

United Press Service

WASHINGTON, May 10—Secretary of State Bryan and Baron Chinda, the Japanese envoy extraordinary, held a long consultation in the former's office today, at which the California situation came up for consideration. They were closed for nearly an hour. Bryan will this afternoon confer with Wilson upon the latter's return from a trip to Mount Vernon, the hub of Washington. This evening he will again confer with the Japanese.

Before his departure President Wilson branded as baseless the report that he has planned a special cabinet meeting to consider further the Japanese situation.

Bryan has told the president that an amicable adjustment of the difficulty seems certain, so the latter is left wholly in the secretary's hands. It is expected that the administration will on Monday publish the form of the Japanese protest, and the government's reply.

RADICAL CHANGE IN TARIFF BILL BEING DISCUSSED

GIVES IMMENSE POWER TO THE TREASURY DEPARTMENT

Wilson Said to Approve Proposed Amendment—By H. Secretary of Treasury Can Fix Standards of Value for Assessment of Duties, Irrespective of Market Fluctuations Here and Abroad

United Press Service

WASHINGTON, May 10—A radical amendment to the present tariff revision measure has just been proposed to Oscar L. Underwood, father of the measure and house majority leader, and Senator Simmons, chairman of the finance committee.

The amendment proposes to give the secretary of the treasury authority to proclaim fixed standards of value for the assessment of duties on imports. This is to be maintained, irrespective of price changes in foreign markets.

It provides that such a standard would be in force within fifteen days after notice is sent out, but that no change could be made without a sixty day notice to importers.

The change is designed to avoid confusion in the change to the ad valorem system of assessing values of imports, as adopted in the Underwood bill, from the specific system of the Payne measure.

It is reported that President Wilson approves the change.

Woods to Corner European Pictures

Al H. Woods, the theatrical manager, who began business with a cane rack at country fairs, has gone to Europe to monopolize the moving picture business there. His mission has been kept somewhat secret till the present time. Now it is learned he has acquired theaters in eighteen large European cities, and hopes to present a combination of moving pictures and vaudeville.

There has been some mystery about those in the plan with him, but it is suspected that he is backed by Klaw & Erlanger, who head the theatrical trust. With the exception of the attempt of Oscar Hammerstein to establish opera in London this will be the first big attempt of an American to go into the show business on a large scale on the continent of Europe.

LOCAL BOY IS HONORED AT U.

VERNON MOTESCHENBACHER IS TO BE THE NEXT HEAD OF THE STUDENT BODY OF THE UNIVERSITY OF OREGON

To be a candidate for president of the student body of U. of O. is a strong indication that the man nominated is popular in the school, but to be named for this position, with no opposition is a still higher tribute from the student body.

This is the case at Eugene at present. Vernon Moteschenbacher of this city has been named for the place, and will be unopposed at the polls.

Prior to enrolling at the University, Moteschenbacher attended the Klamath county high school, and he attained fame as a debater and athlete. Since going to Eugene he has become one of the foremost stars of the varsity, and has represented the institution in several interstate debates.

In addition, he is a member of the glee club, a tennis star and catcher for the baseball team. During his freshman year he was elected president of the class, and he has since held other important offices.

Fort Klamath Ranch Involved in Lawsuit

John Ellis Brings Suit Against W. L. Albright to Recover \$4000, Saying Impossible Fill Contract

Alleging that the action of W. L. Albright has made it impossible for him to live up to the terms of the contract between the two as to the ownership of the Gardner or Seven Mile ranch, near Fort Klamath, John Ellis this afternoon commenced suit against Albright. The action is to recover \$4,000.

According to the complaint filed by Attorney Rutanic, Albright & Ellis entered into an agreement in 1909, whereby Ellis was to buy a half interest in several large ranches owned by Albright. He paid \$4,000 down, and was to pay \$20,000 by November 10, 1914.

The contract, according to the complaint, also provided that the ranches would be operated under Ellis, and Albright would furnish the necessary capital. Since then, Ellis has traded Albright his interest in all but the Seven Mile ranch. During the past year, Ellis charged, Albright has failed to furnish the money necessary to conduct the ranch properly, thus hampering the business. In addition, Albright is charged with last week selling all the horses and farm equipment on the Seven Mile ranch, leaving the 1,200 acres denuded, and with no way of restoring them. For this reason, Ellis claims that he cannot live on the ranch, and he asks the court to order the ranch sold with 5 per cent interest.

NO TRACE FOUND SINCE HE LEFT TO GET MONEY

SHERIFF LOW PLANS A VIGILANT SEARCH

Leaving His Home Wednesday, April 23, to Collect a Small Debt From a Neighbor, George Butts, Living With His Parents on the Fort Klamath Road, Four Miles From Here, Has Not Returned, and His Whereabouts is a Mystery

George Butts, aged 11 years, son of Mr. and Mrs. T. E. Butts, has been missing for more than two weeks, and as yet no clue has been found as to his whereabouts.

Although he has been sought by his parents since April 23, the sheriff's office was not notified of the disappearance until last night.

The missing lad and his parents live on the Fort Klamath road, two miles from this city. At noon on the day of his disappearance, he left for the Jamieson place, near his home, to collect 50 cents, which he said Jamieson owed him for helping him handle cordwood. Since then he has not been seen.

Jamieson was in Klamath Falls at the time the lad started for the ranch, and did not return until evening. He says he did not see the boy at all.

Sheriff Low this morning started a search for the missing lad, and has sent word to the deputies throughout the county to look for him. The lapse of time since young Butts left home, however, is a serious handicap.

When young Butts left for the Jamieson place, he wore overalls, a white hat and a khaki coat.

The parents of the lad are at a loss as to any motive for his disappearance. They say that he was to all intents contented, and they fear that he has met with foul play, rather than that he ran away from home.

Young Fahig Is Here
A son was born last night to Mr. and Mrs. Walter Fahig. Dr. Morryman was in attendance.

Leave for Homestead
Mrs. Henry C. Collins and two children left this morning for the homestead taken up by Dr. Collins.

SALEM, May 10.—Governor West, getting tired of attacks made upon him by the Evening Telegram of Portland, will bring an action for criminal libel against that paper, his attorneys being now busy preparing the papers in the case. WASHINGTON, May 10.—The following message to tuberculosis sufferers was given to the United Press this afternoon by Dr. D. C. Rucker, assistant surgeon general:

"Food, air and sunshine, and proper living. These may effect a cure for tuberculosis, but this cannot be said of some of the widely heralded panaceas recommended by some willing and sympathetic friend.

"As to the Friedmann cure, there are thousands of inquiries pouring into the office of the service every day. Piteful appeals from victims of

the white plague in all parts of the land, eagerly seeking information regarding the serum which they look for to their restoration to health.

"The government officials cannot tell tubercular afflicted persons to use the Friedmann cure; neither can it tell them not to use it.
