**CUPID SPECIAL REACHES ISLES**

**EIGHTY-FIVE AMERICAN PED-  
AGOGUES REACH PHILIPPINES  
TODAY TO COMMENCE TEACH-  
ING NATIVES**

United Press Service  
MANILA, Philippine Islands, June  
4—Eighty-five American men and  
women teachers—some times the ex-  
pedition is called the "Cupid Special"  
because of the number of whom mar-  
ry before their terms expire—landed  
here from the steamer Magnolia,  
which left San Francisco just one  
month ago today. The teachers were  
selected from the eligible lists of the  
United States civil service commis-  
sion. Nearly every state in the Union  
is represented, some states having as  
many as three or four representa-  
tives. All have graduated from lead-  
ing colleges and universities of the  
country; some have taught in Ameri-  
can schools. They will teach do-  
mestic science, agriculture, technical  
professions, manual training and  
trade school work, as well as instruct  
the Filipino children in academic  
courses.

Their salaries are to be paid from  
Philippine revenues exclusively.

There are 700 American men and  
women teachers in the Philippine  
schools, which are run at a cost of  
\$3,500,000 annually. All teachers  
are "enlisted" for two years' service,  
with the understanding that their  
terms may be renewed if they prove  
satisfactory to the government inspec-  
tors, who visit every school several  
times every year. Upon resigning at  
the end of their terms they are paid  
all back salary and an extra sum  
which is sufficient to pay their trans-  
portation home via Europe or the Pa-  
cific. Almost in every instance teach-  
ers upon resigning have gone home  
via Europe. The average pay of the  
American teacher in the Philippines  
is from \$50 to \$80 per month. Liv-  
ing is very cheap, and it is seldom  
that half one's salary cannot be  
saved.

The trip here included stops at  
Honolulu, Yokohama, Kobe, Naga-  
saki, Shanghai and Hong Kong of  
from two to four days at each place.

kidney trouble. My back pained me  
intensely, and I was obliged to arise  
many times at night, owing to too fre-  
quent passages of the kidney secre-

that I had to quit work. Doan's Kid-

attention, and I began using them.  
They restored my kidneys to a nor-

**AGE INFORMATION VERY IMPORTANT**

**ADJUTANT OF LOCAL GRAND  
ARMY POST SAYS THE MATTER  
SHOULD BE ATTENDED TO AT  
ONCE**

(By Andrew Kershner, Adjutant F.  
B. Sprague Post No. 46)

I have received a number of in-  
quiries from comrades as to the  
meaning of the inquiries sent out by  
the pension bureau asking for the  
exact date of their birth. The ascer-  
tainment of this fact was made neces-  
sary by the passage of the automatic  
bill, providing for the payment of in-  
creased pensions when the pensioner  
arrives at the specified age.  
Under the previous law the pension  
rate was advanced upon application  
by the pensioner when he arrived at  
65, 70 or 75.

Under the present law his pension  
begins with the exact date upon which  
he arrives at the age, and he is en-  
tered upon the rolls for that advance  
without any action upon his part.  
Therefore the pension bureau has not  
only to know the year when the pen-  
sioner becomes 62, 65, 70 or 75, but  
it must know the day of the month.

All of the certificates which are  
now going out have the exact date  
upon which the advance will begin. It  
is, therefore, necessary to know the  
date of birth positively.

The muster rolls of the war depart-  
ment only have, as a rule, the age of  
the soldier in round years. Thus he  
is reported as 18, 19, 20, etc., accord-  
ing to the circumstances.

Pensioners will find it to their in-  
terest to promptly answer the inquiry  
which reaches them and furnish such  
evidence as they can as to the precise  
date of their birth.

They have no need to fear that this  
is going to be used in any way against  
them; but it will be greatly to their  
advantage.

MENT OF UNITED STATES**

The following resume of the Irish  
contribution to the material develop-  
ment of America is given in the cur-  
rent issue of the Irish News, pub-  
lished at Lakeview:

The first daily newspaper in Amer-  
ica, 1874, The Pennsylvania Packet,

lap of Philadelphia, born at Strabane,

ica in early youth.

economy, Mathew Carey, was born in  
Armagh, Ireland, 1791.

States by Christopher Colles, bore in  
Ireland, 1738; came to America in  
1765. Was also the first to suggest  
canals and improvements to connect  
Lake Ontario with the Hudson, and a  
system of pipes to supply New York  
city with water from the outside.

First steamboat built and operated  
by Robert Fulton, whose father came  
from Kilkenny, Ireland.

First grain cutter was invented and  
manufactured by Robert McCormick,  
son of Robert McCormick and Mary  
McChesney Hall McCormick, daugh-  
ter of Patrick Hall, both of Irish de-  
cent.

First practical reaping machine  
manufactured by Cyrus Hall McCorm-  
ick, son of Robert Hall McCormick.  
In 1859 Beverly Johnson said: "The  
McCormick reaper has already con-  
tributed an actual income to the  
whole country of \$55,000,000 at the  
very least."

First cut nails invented and made  
by James Cochran, whose father came  
from Coleraine, Ireland.

First to introduce cotton manufac-  
ture Patrick Tracey Jackson, in part-  
nership with Francis C. Lowell.

First to introduce linen manufac-  
ture into New England, the Irish col-  
onists, in 1715.

United States by Thomas Cichore, a  
descendant of Teague Crehore, who  
was said to have been kidnapped in  
Ireland and brought to Massachusetts  
between 1640 and 1650.

First college in the world to admit  
women on equal terms with men, and  
which received colored students 28  
years before emancipation, was Ober-  
lin college. First president of the  
college, Asa Mahan, whose ancestors  
came to New England from Ireland.

First literary institution higher  
than a common school within the  
bounds of the Presbyterian church,  
which is regarded as the germ from  
which spring Princeton college and  
several lesser institutions of learning,  
was the "Log College," founded at  
Neshaminy, Penn., in 1728, by Gilbert  
Tennant, who was born in Ireland in  
1673, educated at Trinity college, and  
settled at Neshaminy in 1726.

**GREAT PROGRESS MADE ON PROJECT**

**REPORT OF THE RECLAMATION  
RECORD SHOWS THAT KIAM-  
ATH PROJECT IS SEVENTY-  
FIVE PER CENT FINISHED**

The following report of April con-  
ditions on the Klamath project is  
from the Reclamation Record:

The weather was generally favor-  
able for construction during the  
month. Work was in progress on the  
North and South Poe and Griffith later-  
als. Work was not begun on the  
Nuss lateral until about the middle of  
the month because of frost condi-  
tions. The erection of lateral struc-  
tures by government forces was be-  
gun on the 26th. The traction ditch-  
er was in steady operation deepening  
the Henley drain. Two field parties  
were employed on location of sub-  
laterals and drains and routine con-  
struction work.

**Operation and Maintenance**

The prevailing prices for produce  
and stock were as follows: Wheat  
\$1.40, oats \$1.30 and barley \$1 per  
cwt.; hay \$9 to \$12 per ton in the  
stack; fat cattle and hogs, 7 cents  
per pound. There was no market for  
potatoes, and they were being fed to  
hogs. One ranch shipped in ten car-  
loads of hogs to be fattened on pota-  
toes. Four carloads of dairy cows  
were shipped in and sold to farmers  
on the project. During April the  
amount of butter fat received at the  
local creameries was 13,577 pounds.  
The average price was 28 cents per  
pound. Stock and grain shipments  
from the project during the month  
were as follows: 19 cars grain, 6 cars  
cattle, 10 cars hogs, 2 cars sheep, 1  
car horses, 3 cars hay.

Farm work was greatly retarded  
by the fact that the season is at least  
a month later than last year. Grain  
farmers began seeding, but not much  
of the land has been plowed. No wa-  
ter was delivered during April. Main-  
tenance work consisted of repairing  
structures, cleaning small laterals  
and strengthening banks. Weirs were  
installed at a number of points  
throughout the system.

The dragline excavator began deep-  
ening and enlarging the Henley drain  
about April 10, and approximately  
one-half mile of drain was completed.  
Representatives of a Russian colony  
were investigating the project with a  
view to locating about 150 families.  
They have bought 250 acres of land  
and have options of 5,000 acres ad-  
ditional. From the 1st to the 24th  
the Lost River diversion channel was  
unable to take the entire flow of Lost  
River, although discharging at an av-  
erage of 425 second feet, and the  
amount which passed over the crest  
of the dam ran as high as 1,500 sec-  
ond feet, the average for the period  
being about 700 second feet.

**LOOK YEARS YOUNGER! GRAY HAIR DARKENED BEAUTIFULLY WITH SAGE.**

**Says Sage and Sulphur Will Stop  
Falling Hair and Cure  
Dandruff**

Common garden sage brewed into a  
neavy tea with sulphur and alcohol  
added, then left to age and carefully  
filtered will turn gray, streaked and  
aged hair beautifully dark and luxur-  
iant; remove every bit of dandruff,  
stop scalp itching and falling hair.  
Just a few applications will prove a  
revelation if your hair is fading, gray  
or dry, scraggly and thin. Mixing  
the Sage Tea and Sulphur recipe at  
home, though, is troublesome. An  
easier way is to get the ready-to-use  
tonic, costing about 50 cents a large  
bottle at drug stores, known as  
"Wyeth's Sage and Sulphur Hair  
Remedy," thus avoiding a lot of fuss.  
Some druggists make their own, but  
it isn't nearly so nice as "Wyeth's."  
While wispy, gray, faded hair is  
not sinful, we all desire to retain our  
youthful appearance and attractive-  
ness. By darkening your hair with  
Wyeth's Sage and Sulphur no one can  
tell, because it does it so naturally;  
so evenly. You just dampen a sponge  
or soft brush, taking one small strand  
at a time. Do this tonight, and by  
morning all gray hairs have disap-  
peared, after another application or  
two it will be restored to its natural  
color and be even more glossy, soft  
and luxuriant than ever.  
Local druggists say they are selling  
lots of "Wyeth's Sage and Sulphur";  
it surely helps folks appear years  
younger.
