SPRING CREEK HATCHERY IS NOW ASSURED

INTERIOR DEPARTMENT TAKES A HAND

Secretary Lane Recommends That State Be Allowed to Purchase the Site From Indians Allotted the Lands—Work May Be Commenced This Summer—It is Also Planned to Have Sub-Hatchery at Spencer

After nearly three years of delay and disappointment, Klamath county is at last assured of the establishment of a state fish hatchery on Spring Creek. This was the announcement made by State Game Commissioner Stone that brought the hearty applause of forty or more sportsmen at a meeting held Monday evening for the purpose of effecting an organization.

The secretary of the interior has recommended that patents issue to the people to whom the land has been allotted on the reservation, and permission has been granted for the sale of the land to the state. No difficulty is anticipated over the transfer of the land, as the superintendent of the Klamath reservation has authority to make the deal.

All of the details will be arranged so that action can be taken at the next meeting of the state game and fish commission the latter part of the month. It is estimated that the hatchery and necessary buildings will cost between \$8,000 and \$10,000. Work will commence this summer, and everything will be in readiness to take spawn early in the spring.

In addition to the Spring Creek hatchery, the commission is seeking a lease on a tract of land on Spencer Creek. Improvements are to be made and this will be continued as a sub-station. The commission has had phenomenal success in their experiment at Spencer Creek this year. Over 1,600,000 eggs have been secured at a cost of about \$500. There have been all black spotted trout eggs, and are valued at \$3 a thousand. This means that the commission has secured \$4,800 worth of eggs at Spencer Creek at a cost of \$500.

According to Mr. Stone the spawn of these wild trout is far superior to that taken from fish in captivity for the reason that the percentage that is hatched is far greater. About \$60,000 of the spawn taken from Spencer Creek this year will be turned back in the stream after being hatched. The remainder has been shipped to other points in the state. The commission will ship fry of other species of trout to Klamath county this year.

"Purity Sunday" Designated in Fight on Social Evils

Campaign Started to Make Observance Nation Wide in Hope of Awakening All to the Folly of a Sinful Course. Date Designated is November Ninth

MINNEAPOLIS, MINN., June 17.—Final steps were taken here today to formally request every church and religious meeting house in the United States, Canada and Mexico to observe "Purity Sunday", which will fall on November 9th, next, with sermons and addresses urging co-operation among churches, city, state and national officials and sociological societies in war on the social evil. "Purity Sunday" has been designated by the seventh international Purity Congress which will convene in Minneapolis November 7 and continue through November 13.

The convention, which is expected to be the greatest gathering the world has yet known in the interests of the suppression of white slavery and public vice, will be held under the auspices of the World's Purity Federation. Its purpose, beside combating the white slave traffic, will be to pro-

mote "high and single standards of morals for both men and women, the safe and sane instruction of youth in sex hygiene, and in furthering such social, civic, economic and moral reforms as will conserve the very highest in character and life." The slogan of the Federation in its fight to achieve its object will be "Fullest publicity concerning the shame of all cities." According to plans mapped out today by the local committeemen "a spade will be called a spade" in all the addresses and discussions, and the addresses and discussions, and the data and statistics regarding the social evil and the white slave traffic in every city of size in the world will be presented in fullest detail.

The appeal sent out to all churches today regarding the formal observance of "Purity Sunday" wherever people gather for religious worship reads: "On this Sunday when the great Congress is in session, and when

Minneapolis leads in the movement by opening every church and every hall for the discussion of these questions, we ask every clergyman in the world of whatever denomination or creed, to deliver at least one sermon dealing with these problems. Fraternal orders and uplift societies are requested to take similar action. We appeal to the higher officials of all churches, to the heads of fraternal bodies, to the rulers of all countries, to the governors of states and provinces, and to the mayors of all cities to issue proclamations designating November 9th as "Purity Sunday", and urging their members and people to assemble on that day for the serious consideration and discussion of these problems which are so vital to the welfare of people everywhere. By the co-operation of all who believe in the higher things, this day can be
